OUR BELIEFS. OUR COMMITMENT

Superior Quality | Excellent Service
Safety First & Always | On time Delivery

INTRODUCTION

ASHOKA SWITCHGEAR PRIVATE LIMITED was established in the year 2008 and is a dynamic and progressive organization with a reputed name in Electrical Switchboard industry. We manufacture all types of custom built LT. Electrical Instrumentation Control switchboards for various applications and utilities in industries, shopping malls, residential apartments, hotels, and government bodies spread across our international & domestic client base.

We specialize in all type IPFC Panels (Intelligently controlled power factor panel) Motor Control Center, Power Control Center, Instruments Switchboards, AMF Panels, Synchronizing Panels, Process Panels, Distribution Boards, Isolator Panels, AC/DC Drives Panels, Control Desk, Bus Ducts & Rising Mains.

It is our consistent endeavor to provide not only quality products but also consistent service and complete turnkey solutions to our clients.

We are a team, driven by excellence in service as well as commitment to execution of projects. Maintaining quality and timely deliveries, has given us the competitive edge in all the projects we have worked on. It is because of our belief that we are the Authorised System Integrator of Rittal and are associated with big names like L&T, Siemens, RR etc.

Our projects include not just the manufacturing but also designing optimal and efficient designs, based on approved specifications provided by our clients.

OUR PHILOSOPHY

We believe in nurturing our association with our customers through our commitment to quality & consistency of the same. We share our vision of success with our customers and believe in growing mutually.

OUR COMPETITIVE ADVANTAGES

The Team: At ASHOKA, we have an exceptional team who are experts in their field and driven by the commitment to deliver quality solutions to our clients.

The Quality Assurance: Our constant quality checks and procedural policies ensure that there is always consistent quality and optimum productivity.

Strong Infrastructure: We are empowered with a strong infrastructure and a state-of-the-art manufacturing plant at Noida, U.P. (India). The plant is equipped with an in-house facility for Assembly, Busbaring, Wiring, Testing.

Customized Solutions : The products developed by us are manufactured keeping in mind the specific requirements of our customers. Our experts work closely with our clients to understand their requirements and visit their units to technically assist them with installations.

Energy Saving: Improved Profits with overall reduction in electricity consumption.

AMC : Ashoka prides itself as one of the leading companies that provides after sales service with an annual maintenance contract. We currently have more than 400 AMC running successfully in India.

GROWTH OF THE ORGANISATION IN
THE LAST 5 YEARS

INTERNAL ARC TESTED PANEL

- Intelligently control power factor panel, having complete range like Contactor-Capacitor based, Contactor-Reactor-Capacitor based, Thyristor-Capacitor based, Thyristor-Reactor-Capacitor based. As per IFC (62241-200).
- Have the complete range of Active Harmonic Filter. Also supplied the most advanced internal ARC tested power factor panel to CUMMINS-Pune for their R&D center.

MCC PANEL (MOTOR CONTROL CENTRE PANELS)

- Most advanced modular motor control center. Our MCC is not only compact but also most spacious for the external working of the panel.
- Also have the wireless technology to integrate with the BMS system or Fire System or any kind of remote operation.

PCC PANEL

- When it comes to power, we are the most reliable company to depend on. We have the vast experience in making the best power controls center up to 6300 Amp.
- IP-54 protected power control panel can be given by very few manufacturers, we are amongst those who can give the power panel with all the valid certifications including IP.

CONTROL DESK PANEL

- A beautiful work station, where it becomes easy to control the complete unit from one point
- An advanced work station with most advanced SCADA interface.

JUNCTION BOX PANEL

- A simple junction box and viewing window that has clear demarcation of numbers in the terminals.
- Shorting strip can be provided to reduce the number of wires and thus make the box neat and clean.

PLC PANEL

- We make the panels related to automotive segment and also have vast experience in oil and gas.
- We also have an expert team that can help in putting forward recommendations as per the site condition.

ESD PANEL

- One of the few manufacturers to have given the Emergency Shut Down panel so far.
- The panel supplied by us is working satisfactorily and without any troubles.

CRANE PANEL

- An advance VFD based technology for all types of EOT cranes.
- Also have wireless technology to operate the cranes in a wireless mode.

DOOR INSIDE DOOR PANEL

- Pure IP protected panel with the door inside door we can give solution upto ip-66 degree of protection
- A viewing window gives a beautiful aesthetic look to the panels that can also be kept in the living room.

VFD PANEL

- Drives have become the basic component for all the panels where speed has to be controlled. We provide you with the best product i.e Siemens that gives you the best technological product.
- We give you the complete range of VFD panels i.e. from 05 HP to 400 HP.

AMF PANEL

- Pure auto main failure panel with short-circuit protection.
- Degree of protection IP – 66.

METER PANEL

- Specialized panels made for energy meters.
- Ideal for society or where the energy is to be measured.

DISTRIBUTION PANEL

- Middle range of distribution system covering from 100 Amp to 250 Amp., most suitable for general infra projects, covering Hotels, Hospitals, Residential Buildings etc.
- Quick delivery in hours in a non-compartmentalized solution with most advanced modular system having all the valid specifications.

FEEDER PILLAR PANEL

- Pure outdoor panel that can be kept under open sky and will have no hindrance in working.
- Most suitable for outdoor application like railways, street light control etc.

INSTRUMENTATION PANEL

- We make all the panels pertaining to temperature control or other instrumentation control panels, having the most advanced feature of wireless control or display
- Also have the dead front panel, purely for instrumentation control
- We also have PURGE PANELS, that is required in various typical application, like hazardous areas.

IEC 61439 PANEL

- As on today 61439 (Part 1 & 2) both are covered in our system. We can provide the most advanced protection category i.e IEC-61439, in our system.
- Also have 61641 pertaining to the internal arc tested panels. We have all the certification for all the panels manufactured by us.

FIRE PROTECTION SWITCH BOARD PANEL

- All the panels pertaining to fire and fire alarm are manufactured by us with fire red special color IS 536.
- Wide range of control supply panels available. In DC as well as AC supply.

MODULAR PANEL

- For the first time, modular panel with 61439 specification can be given by us.
- We have the most advanced modular panel, that saves

OUR VALUABLE CLIENT
