Continuous Dry Corn Popper

Popper provide a high capacity continuous popper that is automatically operated with forced air combustion system, precise burner control and extra insulation.

- Product: Corn, Peanuts, Grams, Nuts etc
- Hot Air is used to roast the product
- Capacity 80-90 kg/hour (approx.)
- Structure and contact parts SS 304 Fabricated
- Hot air generator SS 304 fabricated / Diesel Gas / Pallet Burner, Benton Make
- Electric Fin Type Heater 24 KW approx. to generate Hot air
- Blower plug type 3 hp, champion make with VFD Controller
- PID Temperature Controller
- Corn Feeding thru vibrator Controller
- Auger Conveyor Driven By ½ HP Geared Motor controlled by VFD A C Drive for corn output and temperature controller Blower
