DESIGNING A SMART WORK SPACE

Parikshit Lad
and Jiya Lad

The design and space allocated to work areas is instrumental in shaping the success of an organisation. A flawlessly-designed space not only helps in channelling a positive reinforcement in the attitude, it also dynamically motivates employees to perform to their highest potential. This prolific change in approach to designing a work space has caught the attention of many organisations globally and is what JiInEXT International Design Studio caters to.

The brand understands and stands by these trends, which is why its strategy and design solutions are aligned to unique needs and evolving expectations. It partners with clients and supports

them in providing not only multi-utility infrastructure but also cost-effective design solutions to create an engaging work environment.

JiInEXT is a successful bootstrap in Mumbai with strategic partnerships abroad. It has a cumulative experience of more than 65 years, having latest concept for projects in IT, BFSI, consulting, hospitality and education sectors, it has delivered challenging projects ranging from 350 sq ft to millions of sqft, providing state-of-the-art design and material solutions.

The brand is led by Rotarian Parikshit Lad and industry expert Jiya Lad, who are renowned innovators and leaders in their field. The duo is also known in networking groups like BNI, TIE and start-up ecosystems. Their attention to detail is paramount in their success story. They have won many awards, played roles as jury and now, the duo is helping beginners learn more about trends and market. The team understands the needs of the community and they come up with CSR projects, where they design and execute for society with the help of corporate. JiInEXT's approach to design solutions is unique wherein, they not only capture the
