MANIAR

Always ahead in Innovation

MANIAR, established in the year 1946, is a renowned name in the industry and has been setting revolutionary trends by providing customized solutions in the manufacturing of various Utility Equipment, one of them being its Aerial Work Platform (AWP) vertical. At Maniar, we offer Articulated & Telescopic AWP ranging from 10 meters to 30 meters Working Height on a vehicle payload of 1.2 tons to 6.0 tons. Maniar is a leading name in manufacturing AWP's in India and we provide Aerial Work Platforms with all the required safety features thoroughly incorporated. Maniar is an ISO 9001: 2015 TUV SUD Certified Company. We, at Maniar, have distinguished ourselves with an in-house proficiency in manufacturing equipment of up to 30 meters of working height. Maniar is capable of supplying AWP of 42 meters Working Height.
