BEML DEALERSHIP CERTIFICATE

MSME CONCLAVE AWARDS

From a humble beginning to becoming a trusted industry leader, Pashupati Earth Movers has built a legacy defined by quality, reliability, and steady expansion.

1994 - The Inception

Started our journey in a modest office with a vision to provide genuine heavy earth moving machinery (HEMM) spares.

Expansion & Growth

Evolved from a local supplier to a "One-Stop House" for HEMM spares, establishing "Pashupati House, " a capacious warehouse and repairing workshop facility in Ahmedabad to meet bulk demands efficiently.

Industry Leadership

Recognized today as one of the leading suppliers of earthmoving and mining machinery spares in Gujarat and across India, serving diverse sectors including Mining, Cement, Road Construction, and Thermal Power.

Global Footprint

Established a robust import - export network, sourcing premium components from global hubs like Italy, USA, and China, while exporting to international markets.

Award-Winning Service

Honored at the MSME Conclave Awards 2025 for our outstanding contribution to the industry and commitment to quality.
