Solar Drying of Forest Produce in India

Protected Solar Drying Solutions for Value-Added Processing

Rudra Solar Energy offers enclosed solar drying solutions for suitable forest produce and non-timber forest products. Designed for tribal communities, SHGs, FPOs, rural entrepreneurs, cooperatives and processors, the system supports cleaner handling, controlled moisture reduction and value-added processing.

Multiple Produce Drying at Once

Rugged. Reliable.
Field-Ready.

Real People
Real Solutions
Real Impact

Sustainable
Processing for
Natural Wealth
