

Artize

craftsmanship in water

India's first faucet to win the world's
most prestigious product design award.

Artize, a tribute to luxurious craftsmanship.

Artize, a luxury bath brand from the Jaquar Group, has been introduced to cater to customers who aspire for luxury in their bathing spaces. The brand aims at excellence at all levels and seeks to surpass global standards of quality and design. Artize pays tribute to the fine traditions of exquisite craftsmanship and precision through a wide range of products that are designed to create trends in the bathing industry.

A perfect balance of design, quality, production standards, technology and precision combine to produce the masterpiece called Artize.

The magical power of water.

From glistening tenderly in a dew drop, to thundering powerfully down over a cliff or drifting softly like a cloud of mist, water's myriad forms in nature have always had an irresistible power over us. A power to rejuvenate the mind and body. Bring home that power with Artize rainjoy showers.

Introducing rainjoy. The shower-spa from Artize.

rainjoy from Artize is the finest in extra large, concealed, overhead showers. Featuring clean, aesthetic lines, and an enviable size, rainjoy is a shower that envelops you with an array of soothing sensations inspired by nature's brilliant, rejuvenating ways with water.

Offering a choice of showering modes like Rain, Intense, Waterfall and even Mist, the rainjoy showering experience is a complete body bath that envelops the senses like a session at the spa!

Step into the shower.
Discover a spa.

Rain

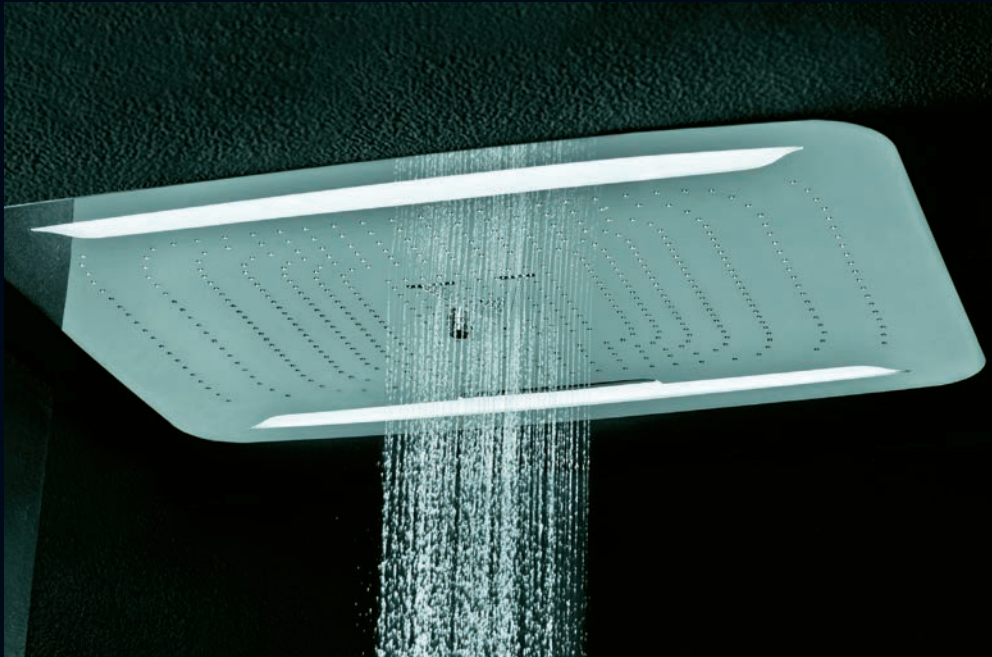

Welcome the emptying of the clouds with arms wide open.

The Rain mode lets you enjoy an extra-large overhead shower zone for a complete body bath. With pearls of water streaming from every jet on the large shower head, the Rain mode's generous coverage is as rejuvenating as the monsoon's first downpour.

Intense

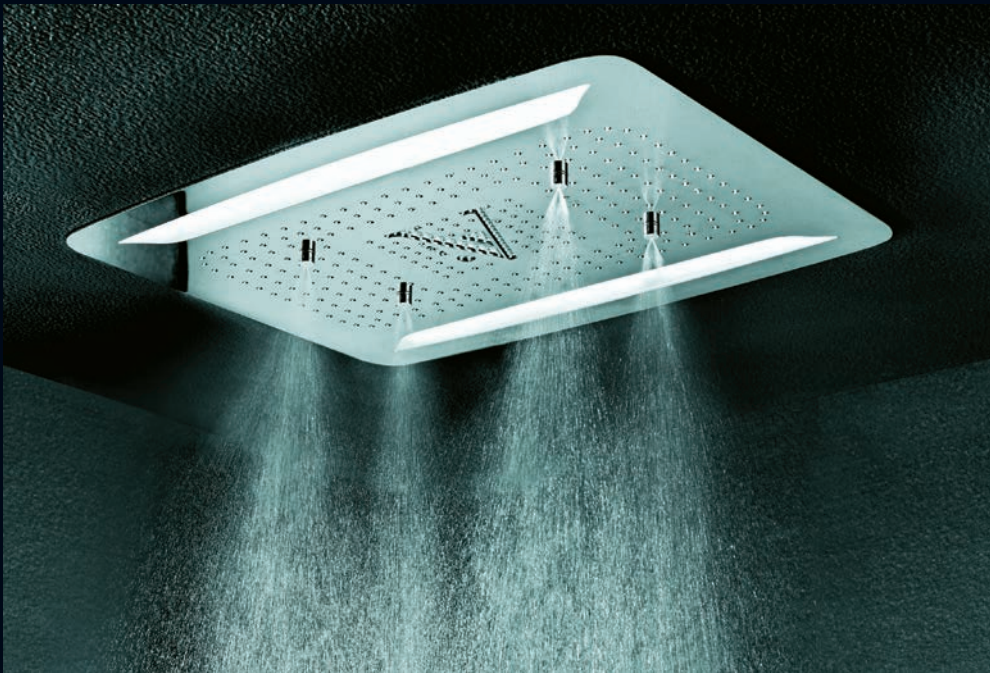

Feel the drums of the rain gods play a thrilling tune on your skin.

Concentrating a powerful flow of heavy drops into a small area from the central jets, the Intense mode is spread perfectly to fall on your head and shoulders, and relax and recharge you in minutes.

Mist

Lose yourself in the kiss of a million droplets a minute.

Four nozzles recreate the joy of being in a cloud as the Mist mode's floating blanket of feather-touch droplets gently covers you with freshness.

Mist spray is created by forcing water through tiny holes, and this mode is great for hot summer days or after a long, hard work-out.

Waterfall

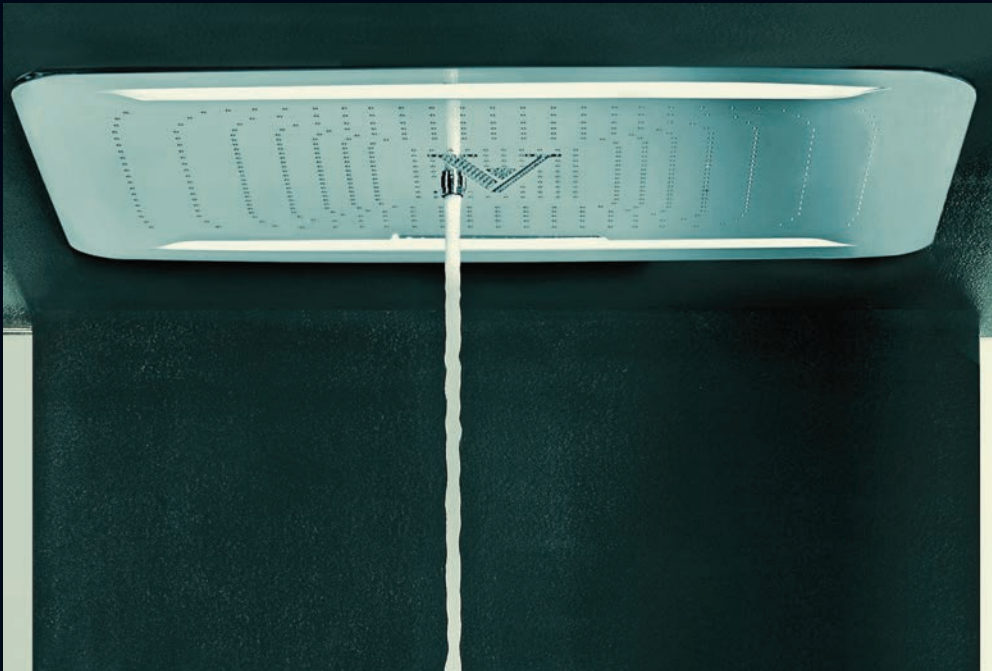

Surrender to the power of the leaping river.

An unrelenting cascade (or two) of water that arches purposefully down your back, the Waterfall mode's therapeutic effect feels totally natural and timeless, and is perfect for kneading new life into tired backs and shoulders.

Column

The joy of a focused massage.

The Column mode's perfectly vertical pillar of water uses gravity to deliver invigorating pressure on any part of the body you choose.

Artize Faucets and Ceramics Carved in Luxury

Explore the world of Artize with designs that are in harmony with the effervescent flow of water, seen in its most pristine form, *waterfalls*. Be it the sleek, straight lines, the smooth curves or the sharp cut silhouettes, Artize showcases coordinated bath fittings and ceramics for bath interiors in the most breathtaking forms!

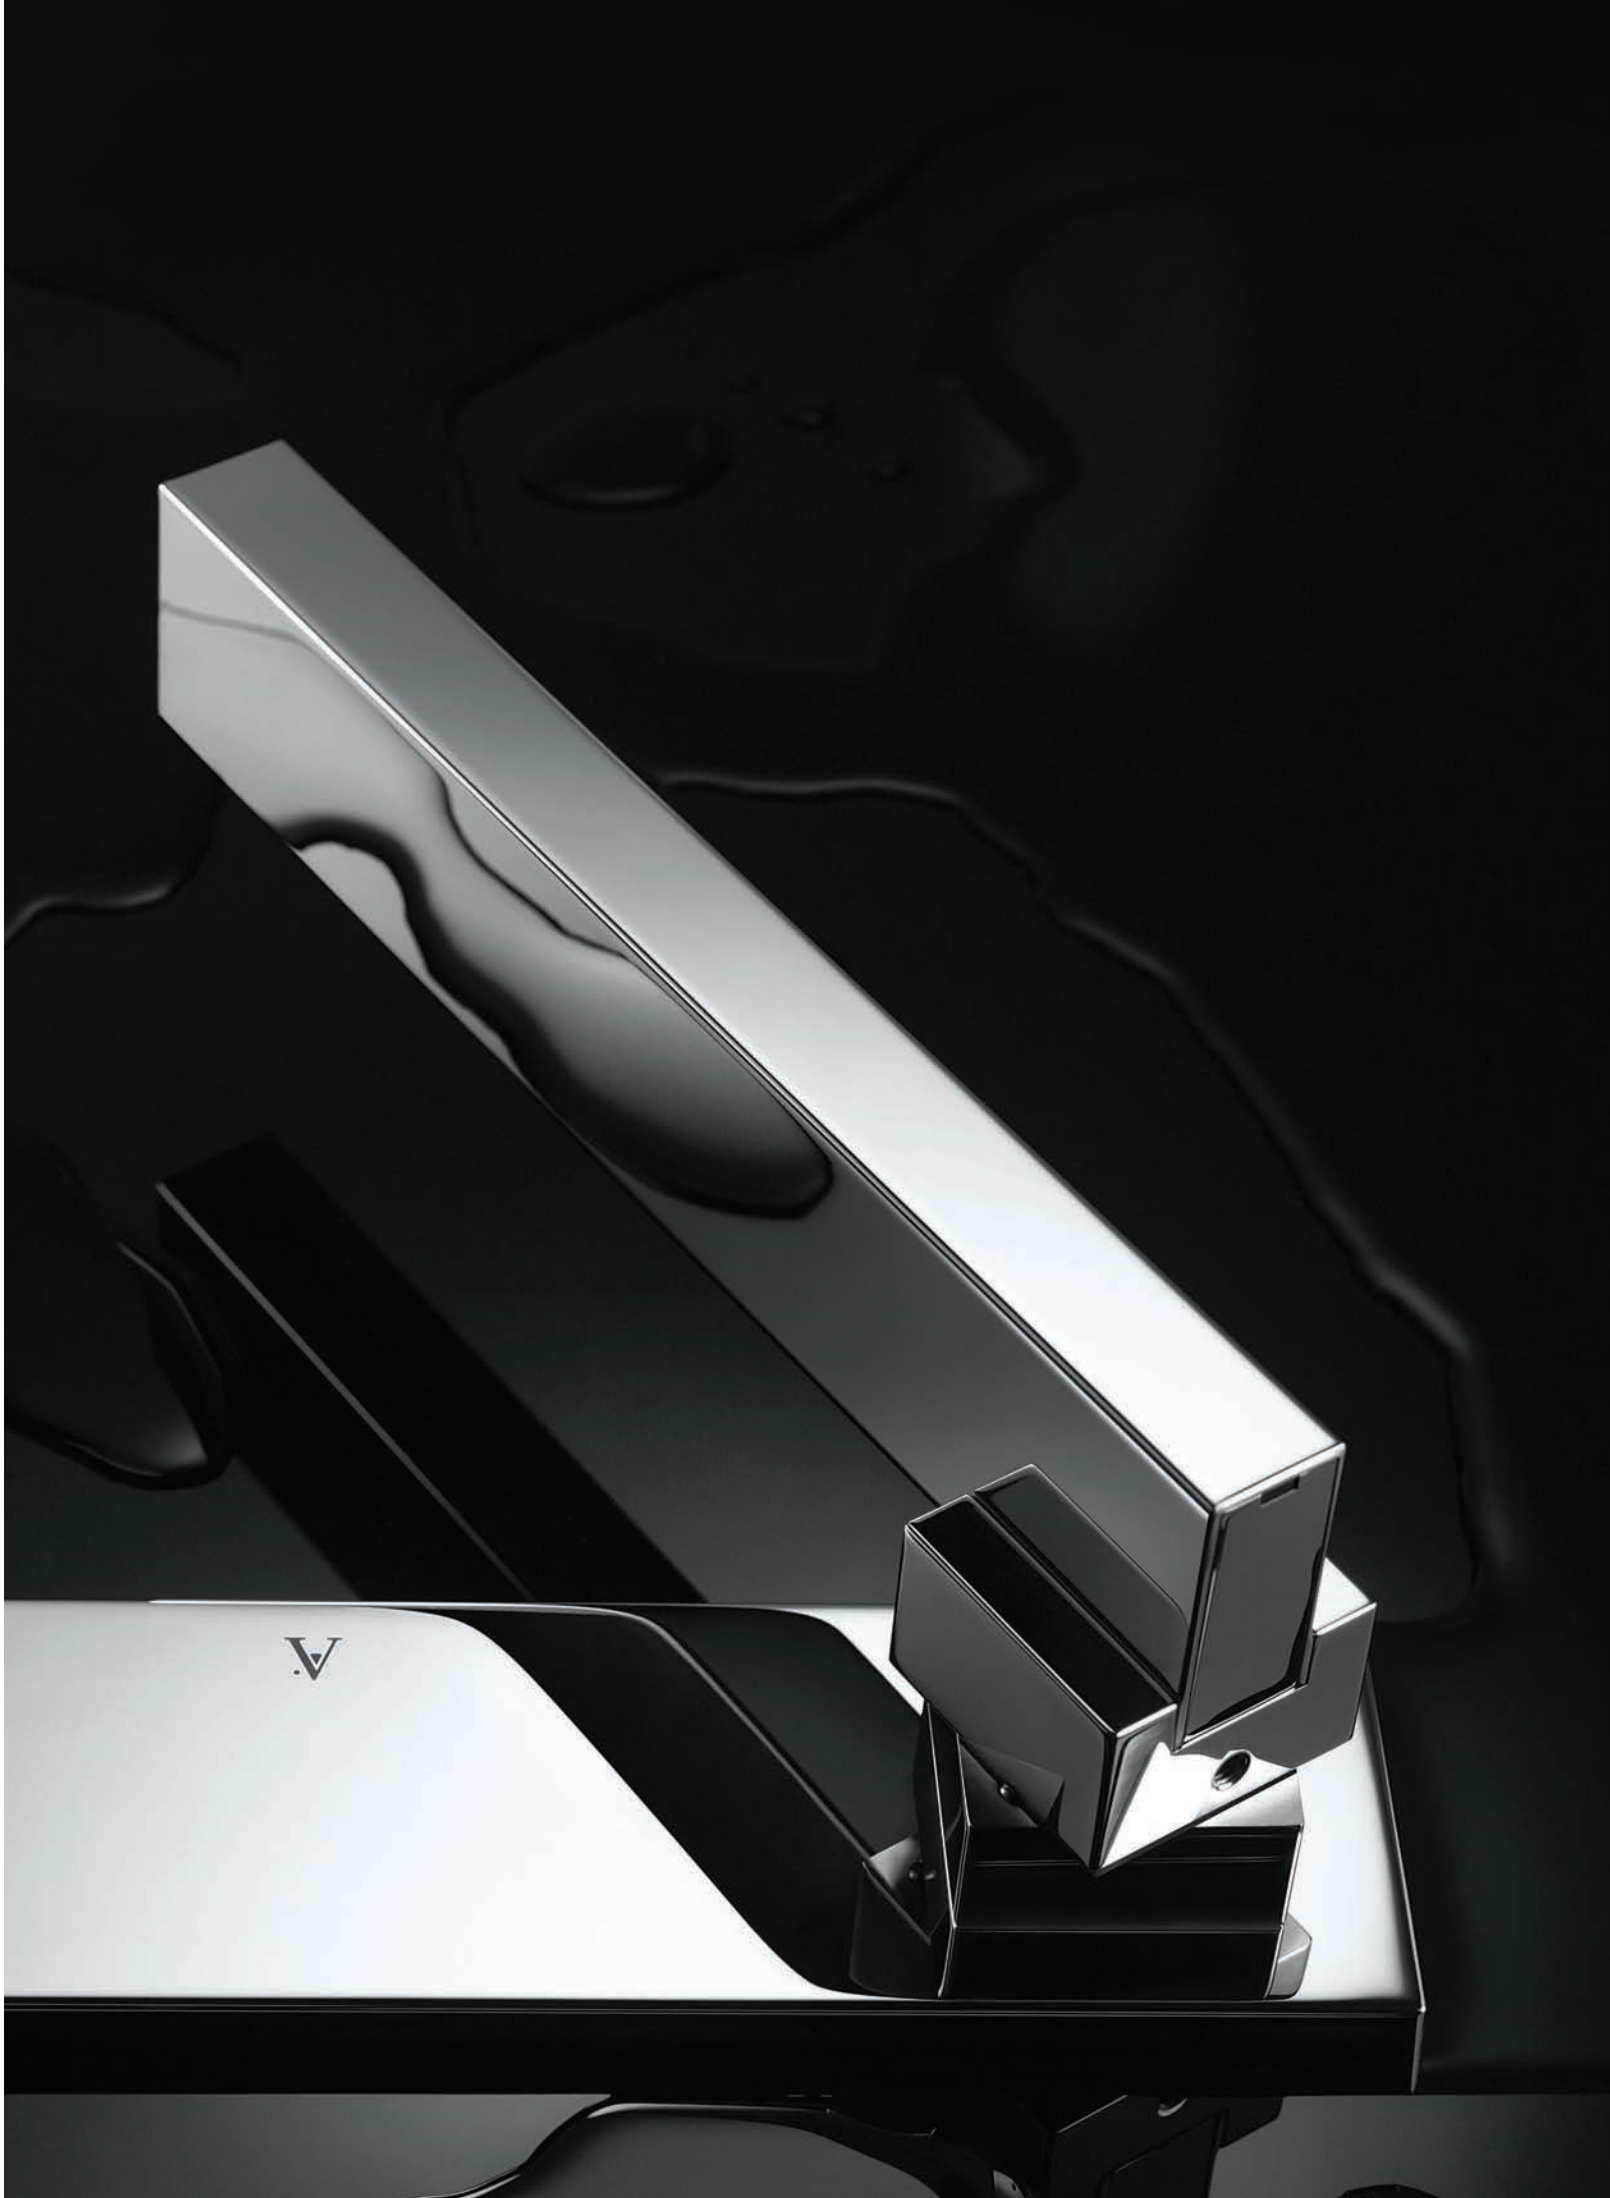

India's first faucet to win Germany's prestigious iF Award

The iF product design award has been an internationally recognised accolade

for great design for 60 years. The award is one of the oldest and most

renowned design prizes in the world.

A

The beauty of elimination

"Linea is the epitome of minimalism", says Parichay, head of the design team at Jaquar group.

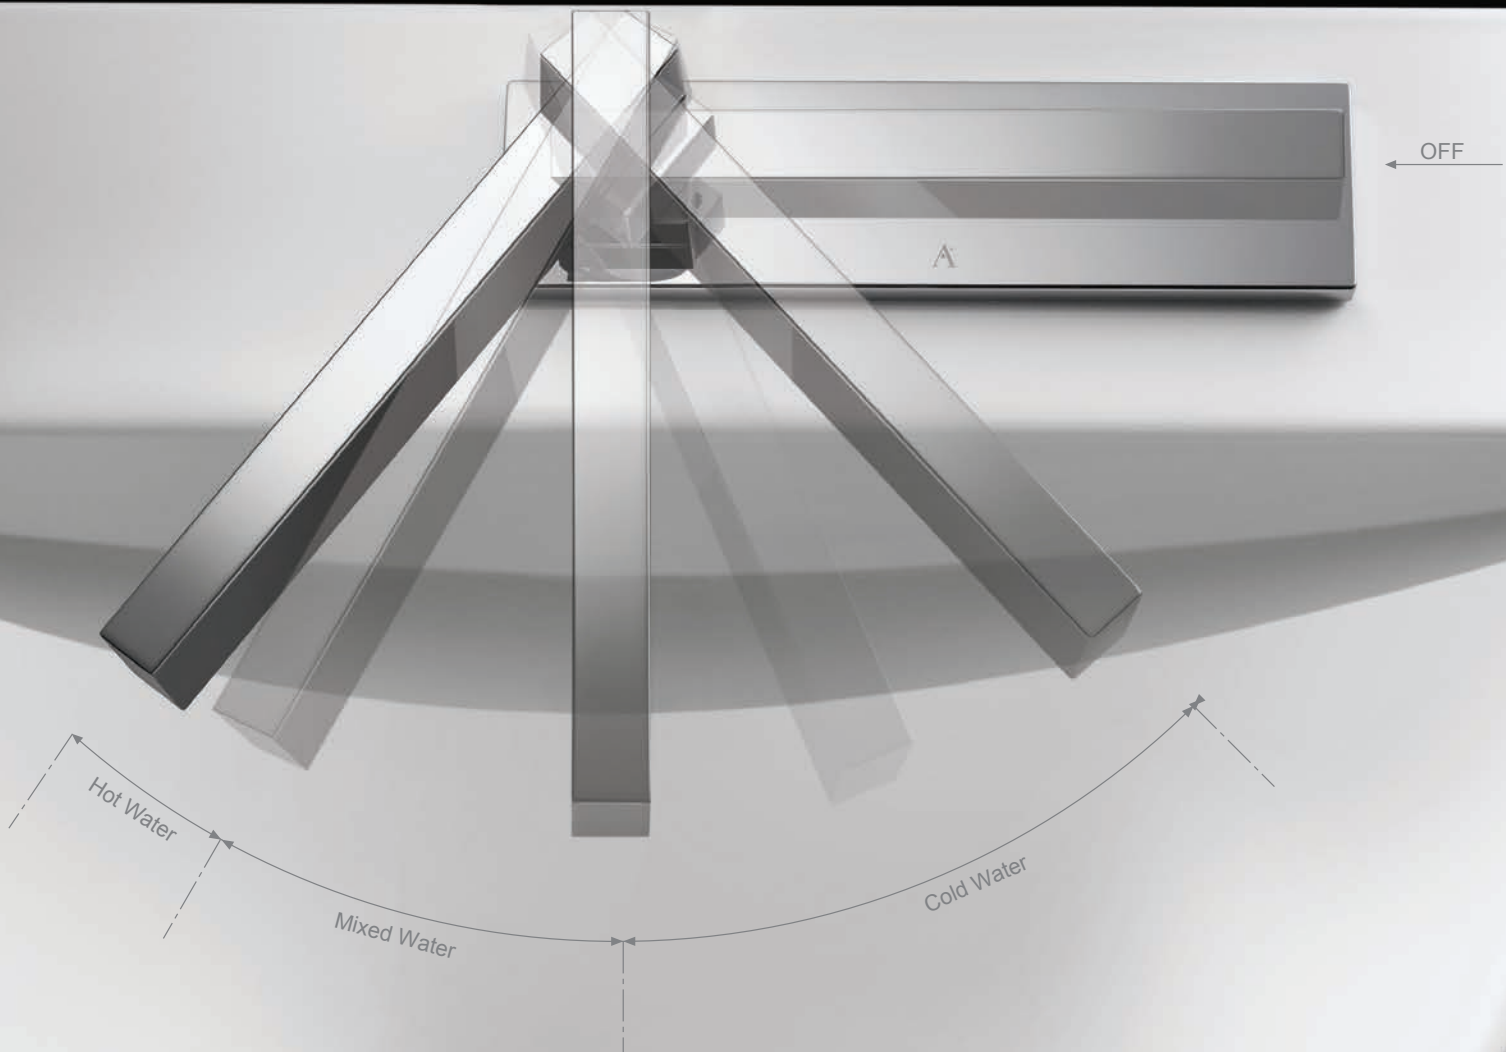

"It eliminates every inessential layer between the user and the experience of the product."

Simplicity that conceals brilliance

Linea's striking design feature is the graceful swinging motion of its spout, which also acts as its on/ off mechanism. Linea's multi-purpose spout pivots to form an arc that controls the temperature of water along its curve, allowing for a jet of cold, mixed or hot water at varying positions.

Linea's intelligent design prevents hot water from coming into contact with the chrome body - an anti-scalding feature that allows it to remain cool to touch.

Confluence

Inspired by the age-old use of bamboo in channeling water from rivers and brooks, the Confluence basin mixer by Artize has been designed to deliver a natural flow of peace and serenity into your bathroom. The calming effect of naturally falling water has been replicated in Confluence by crafting a gentle flow that descends from a half-cut bamboo into your palms.

Its biomorphic design is the culmination of bringing one of mankind's most natural experiences of engaging with water.

Cat. No.: CBT-WHT-22800000X

Comprises of: Built-in Bathtub only with Frame.

Comfort Package

Cat. No.: CLP-WHT-228000CLX

Comprises of: 18 Air Jets & 10 Water Jets, Flexaplus Overflow System, Spa Regulation Feature, Spa Pulsation Feature, Afterblow System, Hydro Regulation Feature, Hydro Pulsation Feature, Minipoolmaster Key Pad and Underwater Light

Superior Package

Cat. No.: CLP-WHT-228000FLX

Comprises of: 18 Air Jets & 10 Water Jets, Flexaplus Overflow System, Spa Regulation Feature, Spa Pulsation Feature, Afterblow System, Hydro Regulation Feature, Hydro Pulsation Feature, Zone Regulation Setting, Superwhirl Function, Hydro Heating, Poolmaster, Underwater Chromatherapy Lighting, 1 Fixed Hand Grip and 2 Neck Pillows

Artize | Faucets

Features

Crafted out of solid brass, unlike other conventional casting methods, for less water consumption and durability.

Cascade-type aerators for a soft and non-splashing flow, a first in the industry.

Perfect mirror polish, achieved through specially customized machines

Ceramic cartridge ensures smooth flow of water and also regulates water temperature.

Handles exquisitely designed to give an extremely smooth and feather-touch movement.

Longer durability of chromium plating with a minimum of 13 microns for nickel & 0.4 microns for chrome, unmatched in the industry.

360... rotating joystick provides a smooth and convenient operation for effortless turns between hot & cold water.

Artize | Ceramics

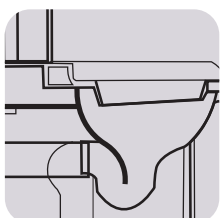

Features

Nano Coating: Artize Ceramics are Nano coated. This non-stick water repellent coating renders the surface durable and highly repellent to dirt particles, resulting in less dirt deposits and staining. The hydro and oleophobic effects cause particles of contamination such as grease, oil, lime and materials from environmental pollution, difficult to deposit. This helps in easy cleaning without using abrasive agents.

Post Production Grinding: Artize wall mounted ceramics go through a fine grinding process after production. This enables quick and easy installation against the wall in such a way that it leaves zero gap between both the surfaces.

Vario Bend: With Vario Bends in Artize Ceramics, all type of connections are easily installed with one model in conjunction with the concealed vertical or horizontal outlet.

Dual Flow: In all Artize closets, dual flushing options are available. This offers a choice of two flush volumes of 3 ltr. and 6 ltr. depending on your specific needs.

Spa Jets

Depending on the type of Artize whirlpool you choose, a number of spa jets are positioned at the base of the whirlpool. You can programme the jets, from minimum intensity to maximum intensity, to get the right pulsation effect.

Spa Regulation

The exclusive feature of the Spa Regulation is that their intensity can be increased or decreased as per your choice, so that you get the desired massage level.

Hydro Jets

Whichever type of Artize whirlpool you choose, a number of hydro jets are positioned at the back and side area to provide you a deep tissue massage. These jets can be adjusted and aimed to reach the desired spot.

Hydro Regulation

The exclusive feature of Hydro Regulation is that the intensity of the hydro jets can be increased or decreased as per your need so that you get the desired massage level. Also, you can programme the jets from minimum intensity to maximum intensity to get the best pulsation effect.

Superwhirl

This is yet another exclusive feature of Artize whirlpools. When you activate this preset function, the hydro jets release water which is mixed with air. The intensity of water coming out through hydro jets increases four times due to the pressure of air. So what you get is a greater massage effect.

Zonal Regulation

Artize whirlpools' exclusive Zonal Regulation feature proves ideal when it comes to giving a different intensity of massage effects on different parts of the body or when two individuals are using the whirlpool at the same time, they can change the massage settings to match their individual preferences.

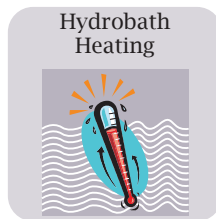

Pool Master

You can control all the features of Artize whirlpools through the Poolmaster remote control. Poolmaster is a radio-active water proof remote which is different from the normal infra red remotes and is re-charged by a magnetic charger (holder), in-built on the whirlpool (Rechargeable Battery). Artize whirlpools come with 4 Pre-set programmes (Relax, Wave, Sports and Massage) to give you maximum pleasure. In addition, you can also customize and save your favourite settings in the 4 blank programming options in the Poolmaster.

Chromatherapy

Artize whirlpool comes with under-water lights to give you the chromatherapy benefit. The changing colours of light under water give beautiful chroma effect on various parts of your body, thereby creating an aura. You can also program the colour effects to your choice.

Hydrobath Heating

As soon as we activate any whirlpool, there is an energy loss due to fast movement of water that leads to a drop in water temperature. Artize whirlpools come with a hydrobath heating feature which enables the water in the whirlpool to maintain a constant temperature. In an Artize whirlpool, the hydrobath heating happens automatically when the hydro system is activated and maintains water temperature at 38...C.

2-way Draining System through Pre-programmed Cleaning

Artize whirlpools come with two special features which offer maximum hygiene without adding any chemicals. First, the water tubes are connected to the jets in a V-shape which enable it to drain out all water from the tubes. Secondly, the air pump is activated to automatically blow air into tubes so as to empty them of any residual water, after the whirlpool has been drained. It's like dry cleaning all pipes after every use.

Artize | Wellness

Environment Friendly

The pipes are made from special food grade PVC material. These pipes are connected by clips and are not glued. So if the pipe gets damaged, it can be easily replaced. Also they have an antibacterial coating on the inner side so that even if some water drops stay behind after the whirlpool is drained, there won't be any bacteria formation in these water droplets.

Hand Grips

Functionally attractive, the elegant hand grips make stepping in and out of the bath so much easier

Safety Feature

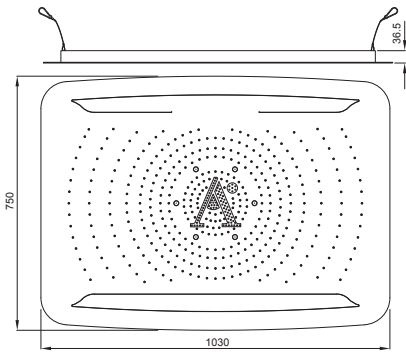

Artize whirlpools come with a promise of the highest safety standards.

Neck Pillow

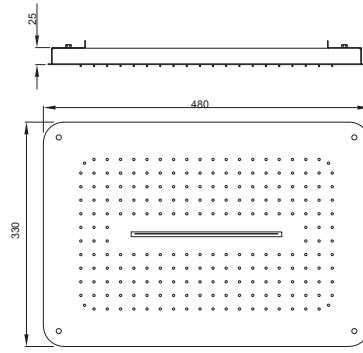

The head-rests of all Artize whirlpools come with Techno-Gel a technologically superior material. The Techno-Gel head rest can be placed anywhere on the whirlpool to suit your convenience.
