# About Us

Established in 2007, **Aero India Industries** is a proud member of the **Heti Group of Industries**, alongside renowned names such as **Krishna Chemicals, Shree Industries, and Gleam Speciality Products**. With over a decade of expertise, we specialize in the manufacturing of high-quality **pigment powders and pastes**, catering to a wide range of industrial applications.

Our commitment to innovation, consistency, and customer satisfaction has positioned us as a trusted name in the pigment industry. Backed by advanced manufacturing technology and a skilled team, we continue to deliver products that meet the highest standards of quality and performance.

# Our Products

## Organic Pigments Powder

- Pigment Yellow 1
- Pigment Yellow 12
- Pigment Yellow 74
- Pigment Orange 13
- Pigment Orange 34
- Pigment Lake Red 53:1
- Pigment Rubine 57:1
- Pigment Red RC 48:2
- Pigment Red 8
- Pigment Red 12
- Pigment Red 31

## Pigment Paste

- Water Base Pigment Paste
- Epoxy Pigment Paste
- Polyurthane Pigment Paste
- Resin Art
- Silicone Rubber Pigment Paste

# Pigment Powder

*Pigment Powder is a fine, dry, colored substance used to impart color to a wide variety of materials., offering excellent color strength, dispersion, and lightfastness. Our pigment powders are widely used across multiple industries.*

## Applications:

- **Plastic Industry**
  - Masterbatches, PVC, HDPE, LDPE, PP products
- **Paints & Coatings**
  - Decorative paints, industrial coatings,
- **Ink Industry**
  - Flexographic, gravure, screen and offset inks
- **Rubber Industry**
  - Colored rubber sheets, mats, footwear
- **Pigment Emulsions**
  - For textile printing and other aqueous applications

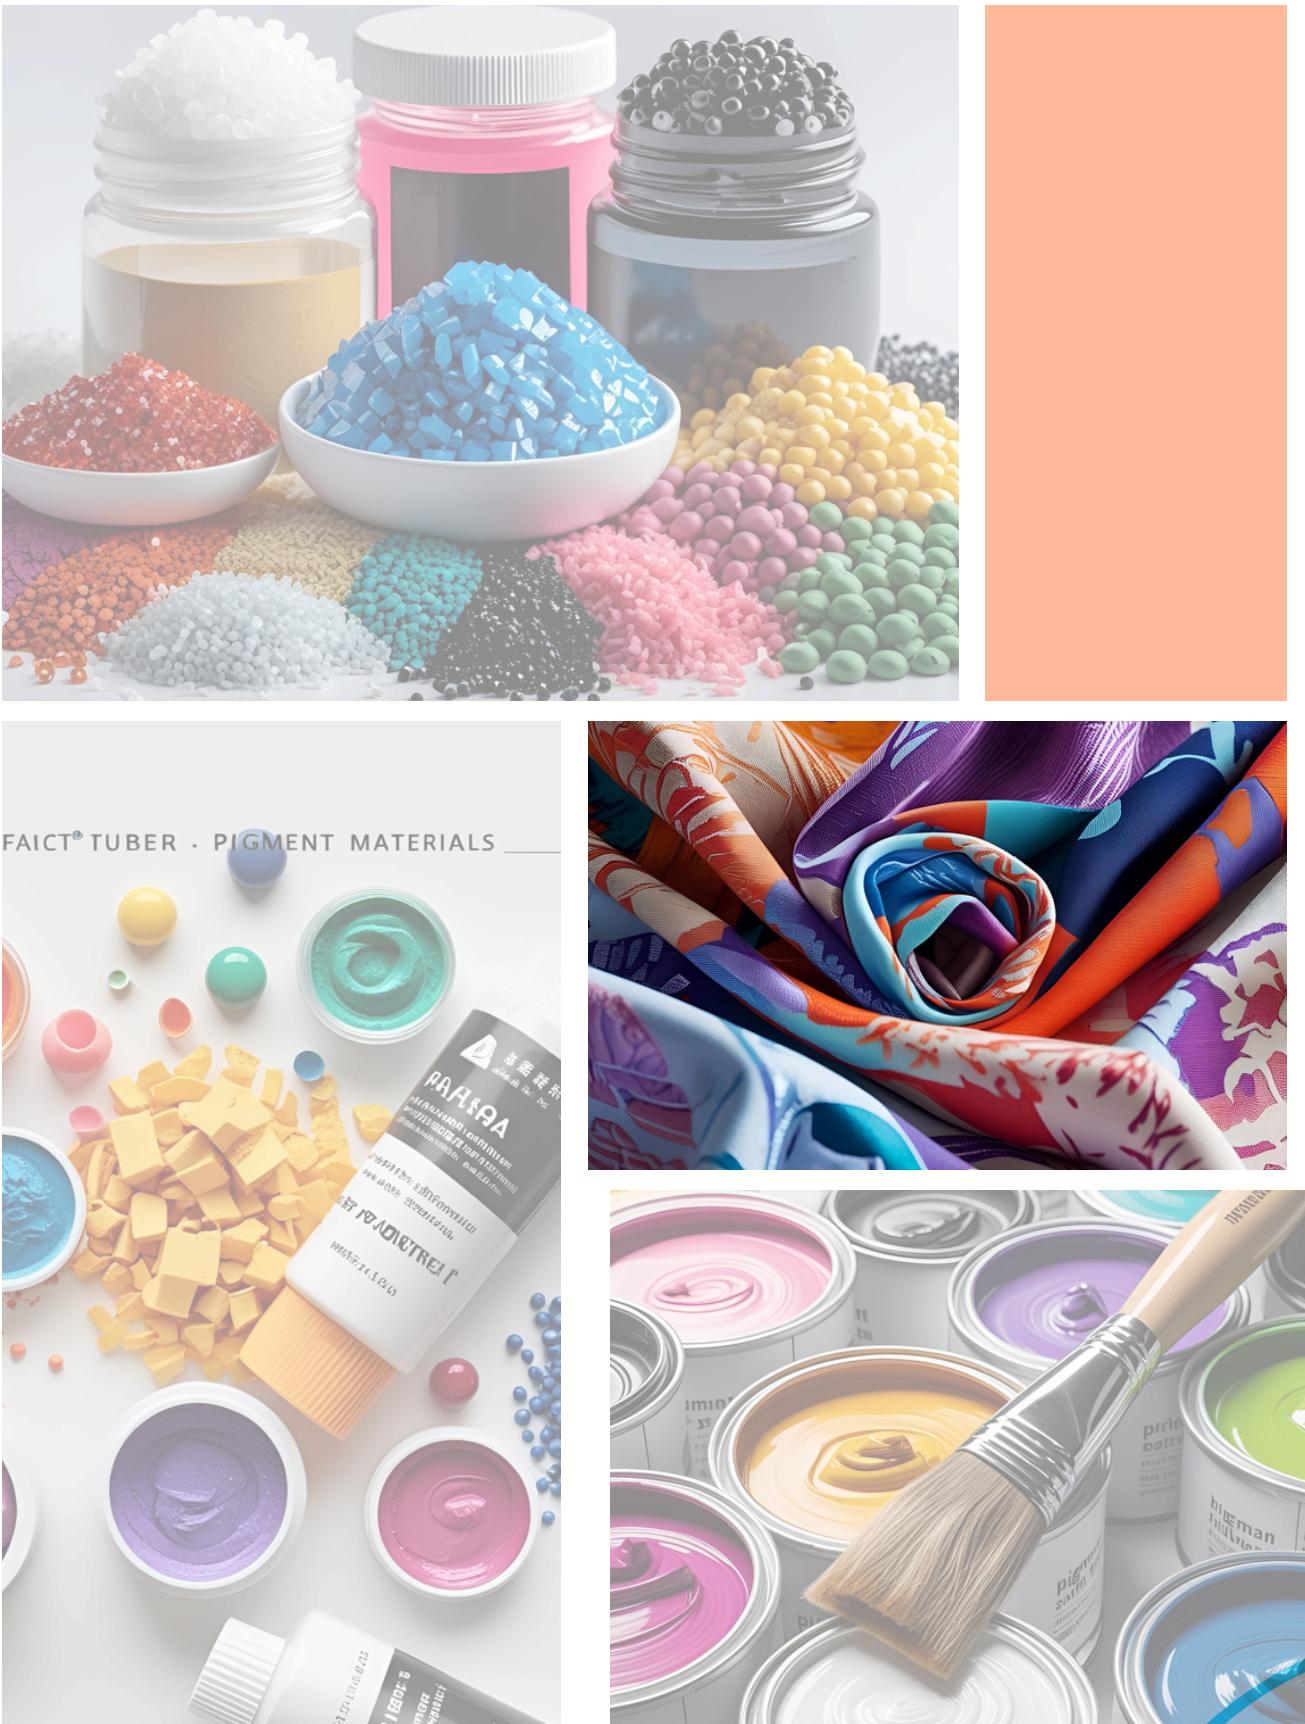

# Water Base Pigment Paste

*Water-Based Pigment Paste is a high-performance, eco-friendly dispersion of pigments in an aqueous medium. It is specially formulated for easy blending, excellent dispersion, and high color strength in water-based systems.*

## Applications:

- **Textile Printing**
  - Cotton, polyester, blends pigment printing system
- **Water-Based Paints & Coatings**
  - Decorative, architectural, and industrial paints
- **Latex and Rubber**
  - Colored gloves, balloons, mats, and sheets
- **Paper Coating**
  - Colored papers, boards, and packaging materials
- **Detergent & Soap Coloration**
  - For vibrant, stable coloration in cleaning products

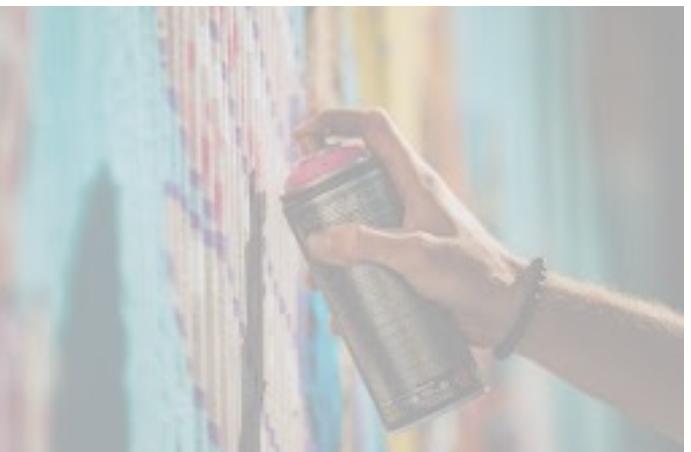

# Epoxy Pigment Paste

*Epoxy Pigment Paste is a concentrated, solvent-free color dispersion specially developed for epoxy resin systems. Manufactured using high-performance pigments and compatible additives, it ensures excellent dispersion, long-term stability, and vibrant color development in epoxy-based applications.*

## Applications:

- **Epoxy Floor Coatings**
  - *Industrial and decorative flooring*
- **Casting and Molding**
  - *Artworks, jewelry, tabletops, river tables*
- **FRP and Composites**
  - *Pigmentation in epoxy-based composite systems*
- **Adhesives and Sealants**
  - *Coloring of epoxy glues and structural bonding agents*

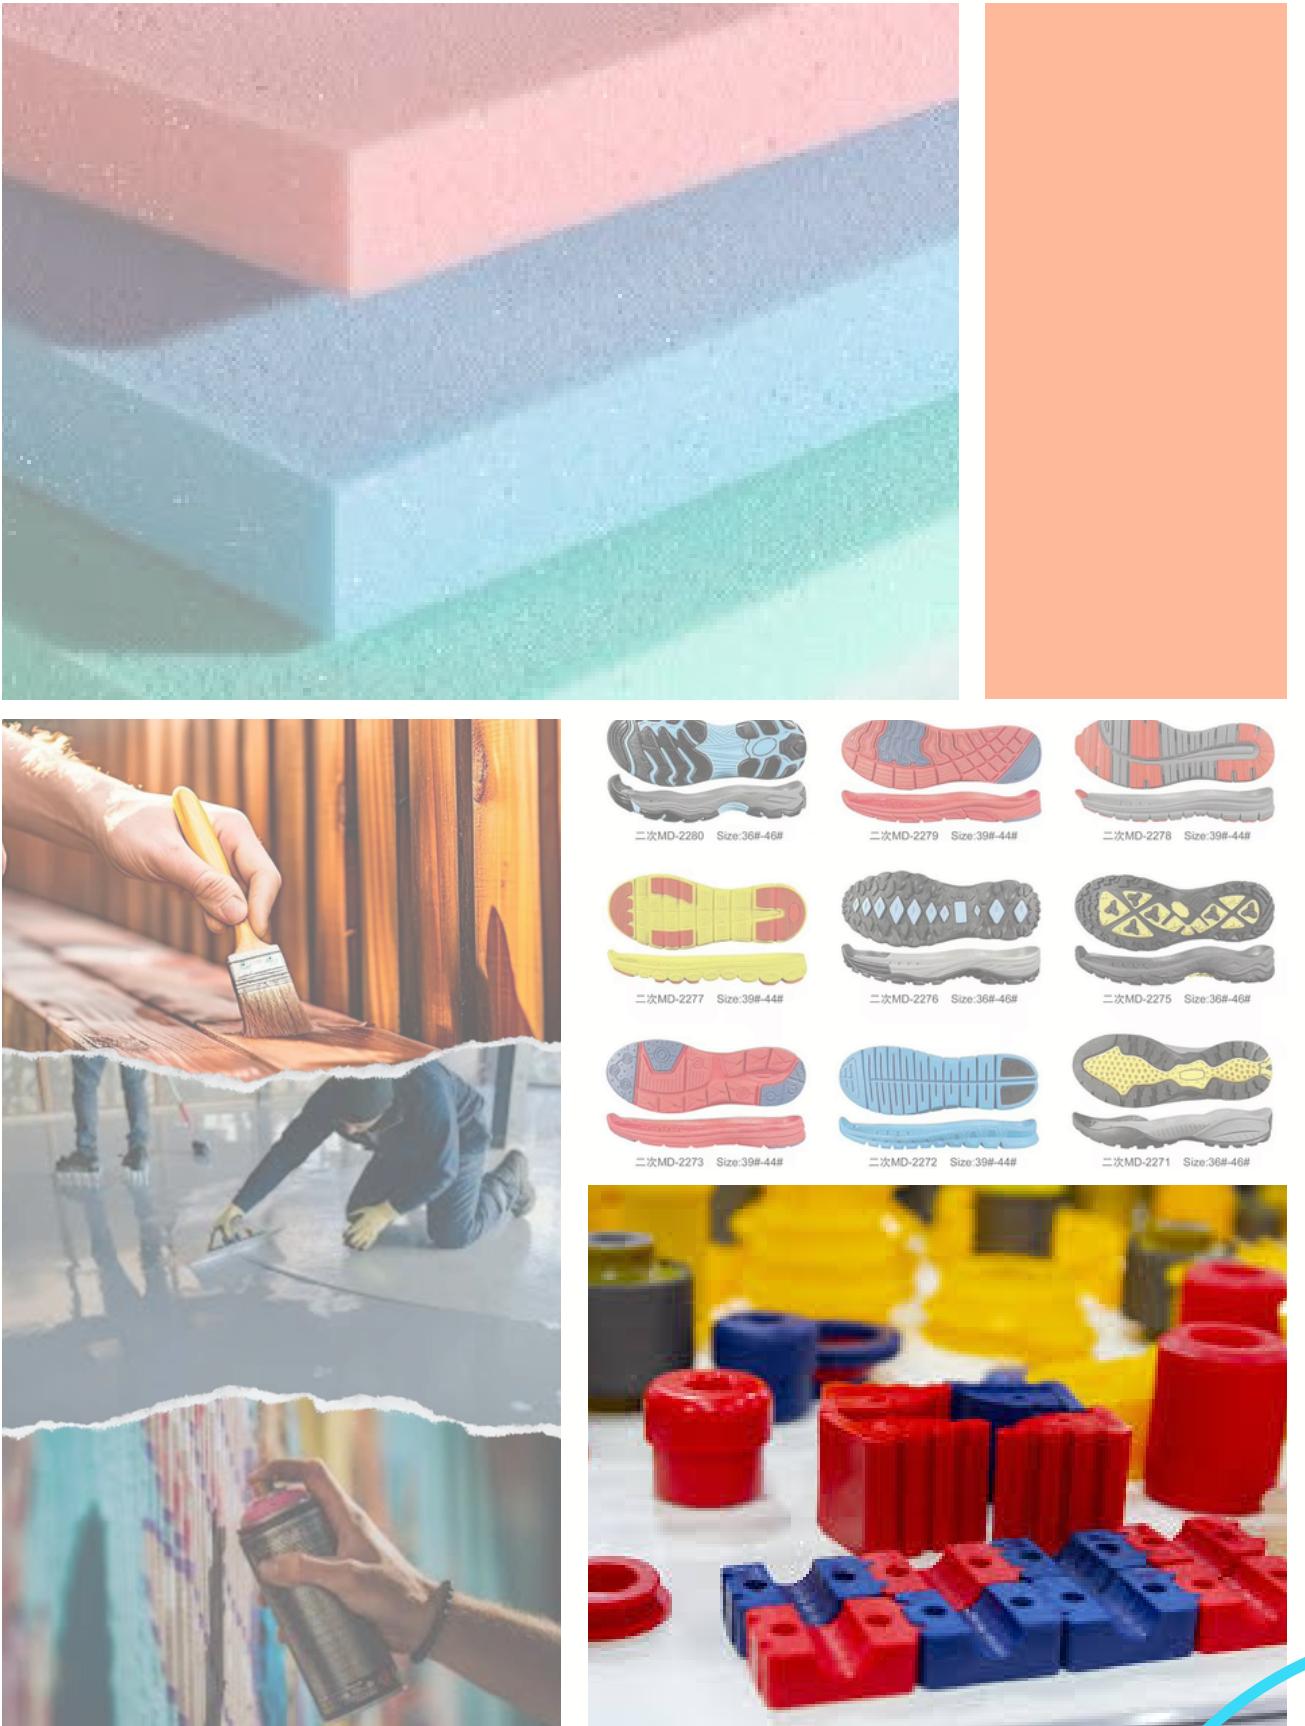

# PU Pigment Paste

*PU Pigment Paste is a high-performance, solvent-free pigment dispersion specially formulated for coloring polyurethane systems. It offers excellent compatibility with both flexible and rigid PU formulations, providing vibrant, uniform color without affecting physical or chemical properties.*

## Applications:

- PU foam (flexible & rigid)
- PU leather and coatings
- Footwear soles and insoles
- PU adhesives and sealants
- Molded PU products
- PU Paint and coating.

# Sillicone Pigment Paste

*Silicone Pigment Paste is a high-performance, ready-to-use coloring system specially formulated for silicone rubber and silicone elastomer applications. It consists of finely dispersed, heat-stable inorganic and organic pigments in a compatible silicone carrier to ensure excellent color strength, uniform dispersion, and long-term color stability.*

## Applications:

- *Silicone rubber molded and extruded products*
- *Automotive silicone parts and seals*
- *Electrical insulation components*
- *RTV sealants and silicone adhesives*
- *for Industrial use only*

# Why Choose us

## Trusted Manufacturer Since 2005

With years of experience, we have built a strong reputation for delivering consistent quality in pigment powders and pastes.

## Wide Range of Applications

Our products serve multiple industries including plastic, paint, ink, textile, epoxy, polyurethane, and rubber.

## Custom Shades & Formulations

We provide tailored color solutions to meet specific customer requirements in shade, viscosity, and compatibility.

## Consistent Quality & Performance

Each batch undergoes strict quality control to ensure excellent dispersion, stability, and color strength.

## Reliable Service & On-Time Delivery

Our team ensures prompt support, technical guidance, and timely dispatch to keep your production running smoothly.
