

REPAIR SERVICES FOR HYDRAULIC COMPONENT

Pumps, Motors, Valves, Servo & Proportional Valves, Cylinders,
Electronics and Servo Motors

GET YOU BACK UP AND GOING

WHY CHOOSE ADVANCE HYDRAULIC WORKS FOR YOUR REPAIR NEEDS

With our state-of-the-art facilities, in-house capabilities, unparalleled expertise and strategically positioned locations around the INDIA, we provide customers the highest quality hydraulic component repair possible. All while keeping costs down and turnaround times minimal.

- FREE evaluations and quotes for repairs
- State-of-the-art equipment – all units are tested to meet or exceed OEM specifications
- Expertly trained and experienced technicians
- Broadest range of hydraulic testing in the industry – over 40 test stands, including three 400hp test stands for large displacement units and thousands of fixtures
- In-house performance testing capabilities of almost all brands of components
- Service most all component manufacturers
- Can repair cylinders up to 40 feet long and 40 inches in bore
- Equipped with state-of-the-art contamination control
- All repairs backed by an industry leading warranty

HOW THE REPAIR PROCESS WORKS

- 1 Contact us and we will let you know if your unit is one we can repair.
- 2 Send in your unit. Clearly marking you are looking for a quote for repair.
- 3 We will breakdown and evaluate your unit to determine the problem for FREE.
- 4 We will contact you to inform you of what we found, give you a quote for repair and a timeframe for completion, or let you know if we cannot repair it.
- 5 Approve the repair and we begin working on your component.

OVER 20 YEARS OF REPAIRING HYDRAULIC COMPONENT

We pride ourselves on offering customers a flexible one-stop shop for hydraulic repairs.

WE'RE HERE TO HELP GET YOU BACK UP AND GOING

PUMPS & MOTORS

From piston, vane and gear, we do it all

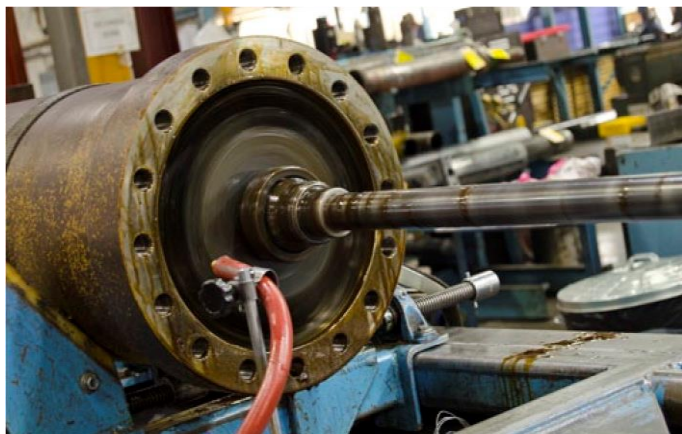

We provide expert hydraulic pump and motor repairs on Vickers®, Bosch®/Rexroth®, Kawasaki®, Oilgear®, Sauer Sundstrand®, Hitachi®, Caterpillar®, Uchida®, Linde®, Komatsu®, Eaton®, Denison®, Racine®, & more. Covering from small to very large displacement size units - we Can do them all. We also repair gearboxes, final drives, winch motors and other specialty hydraulic pump & motor units.

VALVES & SERVO/PROP VALVES

If it's a hydraulic valve, we can repair it

Our valve departments have the technical expertise and necessary equipment to repair hydraulic valves from manufacturers like Vickers®, Moog®, Schenck Pegasus®, Bosch®/Rexroth®, Oilgear®, Denison®, Atchley®, Atos®, HR Textron®, Hydrolux®, Parker® & more. We also repair main control valves found on mobile equipment from Kawasaki®, Kayaba®, Parker®, Rexroth®, Komatsu®, Commercial®.

CYLINDERS

From large to small cylinders, we cover

Our hydraulic cylinder specialists have an average of 20+ years of experience in repairing hydraulic cylinders. We have the ability to work on cylinders up to 40 feet long and 40 inches in bore, and we can repair all types including Chip Dump, Crane, Press, Telescopic, Shear, Excavator, Steering, Marine, Mining, Earthmoving, Tie-rod, Welded, etc. We also repair accumulators, intensifiers and swivels (rotary manifolds).
