

MY POWER-MATT

The My Power-Matt Collection was built for the active Indian consumer who's always ready to go out there and make their dreams come true. This collection of spring mattresses comes with High Coil count and Zero Partner Disturbance technology. The High spring Coil count increases the load bearing capacity of the mattress whereas its Zero Partner disturbance Technology guarantee no disturbance to your sleep upon your partner's movement, allowing you a restful sleep night, therefore, making it the best mattress for those with an active lifestyle

HEXA

It doesn't get better than the Centuary Hexa when it comes to spring mattresses. The multi-matt approach brings together different layers to complement each other and provide the best comfortable sleep while giving you the support you need. The combination of multiple layers working together also improves the durability of the mattress, ensuring that it lasts for the decade ahead.

LUMBAR REST

Ideal for all sleep positions, Lumbar Rest's reinforced spring with Lumbar support system distributes the weight evenly across the mattress, minimizing pressure points and offering stability. Complementing the spring coil foundation is a Box top layer of ContourNest CNC cut airflow layer, crafted to align with the natural curves of your body offering personalized support, especially for your lumbar region, alleviating tension on your back and promoting spinal alignment. This mattress comes with 10 years warranty.
