HDPE HOSE PIPES

HDPE Pipes are manufactured by High-Density Polyethylene Polymers in all three grades. PE 63, PE 80, PE 100 in accordance to IS: 4984-2016 standards.

- Nominal Pressure from PN 2 to PN 20
- PE Grades: PE 63, PE 80 & PE 100
- Standard Dimension Ratio from SDR 41 to SDR 6

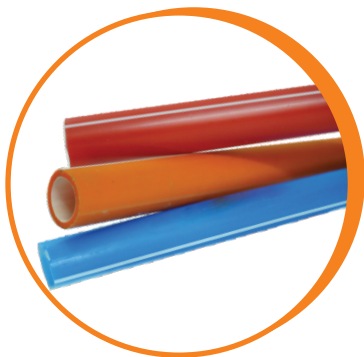

Sizes : 16 mm to 110 mm OD **Applications :** Water Supply, Agriculture and Irrigation

PLAIN LATERAL HOSE PIPES

Available in Class 1 & Class 2, made of high grade 100% virgin polyethylene conforming to Indian standard IS:12786. Resistant to chemicals and fertilizer used in agriculture. It is used as lateral pipe in various micro irrigation systems such as Drip, Micro Sprinkler, Micro Sprayer, Jets, Foggers etc... **Sizes :** 12 mm, 16 mm & 20 mm

PLB HDPE TELECOM DUCTS

HDPE ducts are formed by co-extrusion technique and are used for laying the fibre cables in underground ducting / conduits.

PLB HDPE Ducts are manufactured by using High-Density Polyethylene

Sizes : 32 mm to 63 mm **Colour :** ORANGE, RED, GREEN & BLUE
