Carton Box Sealing Machine

Model : YT 06 B

Watch Video ▶

The semi-automatic sealing machine is suitable for hot melt Gluing and Folding of Mono/Inner cartons, of sampling box, food, hardware tools, electronic toys, stationery and electronic appliance packaging.

Features:
1. It is made of the food grade standards, the machine is made of stainless steel, aluminium components.
2. The change overs are convenient and fast.
3. Fully enclosed structure, simple and stylish appearance.
4. Optimize power consumption and meet the new concept of energy saving.
5. Simple operation, high efficiency and low input cost.

Product Specifications:
Working voltage: 220V 50HZ
Working pressure: 0.4Mpa-0.6Mpa
Power: 3.8KW
Noise: less than 50 decibels
Sealing box size:
length 80-300mm / width 40-200mm / height 20-120mm
Working efficiency: 30-50 / min
Working temperature: 180-220 degrees
Tank capacity: 1.5kgs
Weight: 130kg
Machine Size: 1750*850*1350mm

Hot Melt Roller Machine

Infinite lengths, Cost-effective, Easy-to-install, High adhesion capacity, Durability, Air permeability, Heat resistance, Low temperature, Aging resistance

Gluing method:
Coating in spots, strips, web, flat or edge coating.

Applications:
Big Area coating in footwear, Leather wares, Paper boxes, Decorations, Building materials, Sprorts instruments. Etc.

SPECIFICATION:
ITEM UNIT TE-GL830
Tank Capacity L 4.0
Max. malting rate KG\HOUR 6.0
Max. Operation temp. °C 220
Melt Power Watt 2250
Motor power Watt 90
Coating width MM 300
Max. Viscosity Cps 100,000
Single Phase (1Φ), 230 V

TRASY ENTERPRISES

Hot Melt Dispensers

Used for Making of :
Double side tapes; Duct tapes; Double side foam adhesive tapes; Clean adhesive tapes; Masking adhesive tapes; Alu.foil tapes; Fabric tapes; Shoes material; Medical tapes; Trans Dermal Tapes, Sticker Label; Trademark Label; Film, Fabric, Textile, Paper & Lamination ...etc.
