High Value Engineering

As an ISO 9001:2015 Certified company, we deliver high-value engineering services and dedicated product solutions to over 100 companies across a diverse range of sectors, including chemicals, pharmaceuticals, agrochemicals, pigments & dyes, intermediates, formulations, petrochemicals, and distillation.

Commitment to Excellence

With an unwavering commitment to engineering excellence, DML Engineers has been a trusted partner in the process industry since 2016.

Our core focus is on fostering customer retention and achieving mutual success, embodying our mission to "Grow with Customers" through consistent quality and expertise.

FERMENTER / BIO REACTOR

- ✓ Utility Limpet or Jacket
- ✓ Sparger Line
- ✓ Bottom Valve Sip Type (Air Operated)
- ✓ 25 Kg Working Pressure Up To 750 RPM
- ✓ Capacity 250 Liter To 35 KL

HEAT EXCHANGERS (EXPANDED & WELDED)

DML is a leading manufacturer of shell and tube-type heat exchanger that are primarily used for condenser and evaporator applications. With ISO certifications, we ensure that our products meet the highest quality standards and are built to last.

GMP REACTORS

- ✓ Strict Adherence to cGMP Standards
- ✓ Full Documentation & Validation Support
- ✓ High-Grade Stainless Steel
- ✓ Complete Draining to achieve Zero-Hold-Up Volume
- ✓ Precision Temperature Control
- ✓ Optimized Agitation Systems

APPLICATION SEGMENTS

- ✓ Pharmaceutical Manufacturing
- ✓ Biotechnology and Biopharmaceuticals
- ✓ Vaccine Production
- ✓ Nutraceuticals and Dietary Supplements
- ✓ High-Purity Cosmetics and Personal Care
- ✓ Fine Chemicals (Specialized/Medical-Grade)
- ✓ Aseptic Processing (High-Purity Segments)

NON-GMP REACTORS

- ✓ Cost-Effective Build up
- ✓ Faster Lead Time
- ✓ Robust Industrial Build
- ✓ Customizable
- ✓ Versatile Material of Construction

APPLICATION SEGMENTS

- ✓ Chemical Manufacturing (Specialty & Bulk)
- ✓ Research and Development (R&D)
- ✓ Pilot Plants (Process Development)
- ✓ Agrochemicals & Fertilizers
- ✓ Dyes, Pigments, and Coatings
- ✓ Polymers and Resins
- ✓ General Industrial Processing

AUTOCLAVE

- ✓ High P/T Capability
- ✓ Robust & Safe Design
- ✓ Advanced Control
- ✓ Vacuum Integration
- ✓ Diverse Construction

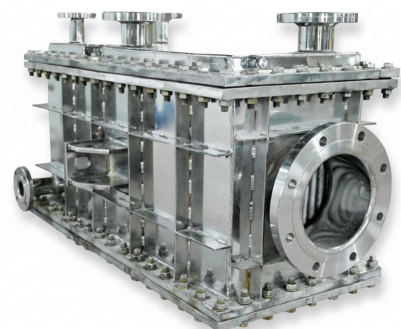

APPLICATION SEGMENTS

- ✓ Pharmaceuticals, Healthcare & Medical
- ✓ Biotechnology and Biopharmaceuticals
- ✓ Vaccine Production
- ✓ Nutraceuticals and Dietary Supplements
- ✓ High-Purity Cosmetics and Personal Care
- ✓ Fine Chemicals (Specialized/Medical-Grade)
- ✓ Aseptic Processing Industries

BOX TYPE HEAT EXCHANGERS

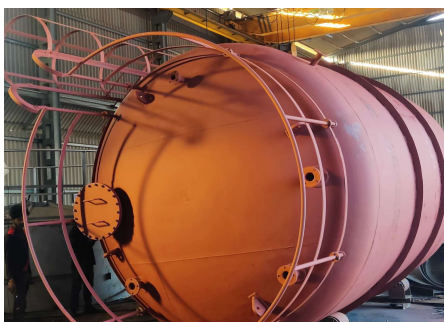

- ✓ High Thermal Efficiency (High U-value).
- ✓ Compact Footprint (Significantly smaller size and weight).
- ✓ Modular and Scalable (Easy capacity adjustment via adding/removing plates).
- ✓ Ease of Maintenance (Simple disassembly for inspection and cleaning).
- ✓ Low Hold-up Volume (Reduces fluid inventory and process time).
- ✓ Anti-Fouling Characteristics (Turbulence minimizes build-up).
- ✓ Versatile Application (Handles a wide range of fluids and duties).

SOME WORK & DISPATCHES

Delivering Excellence in Process Equipment

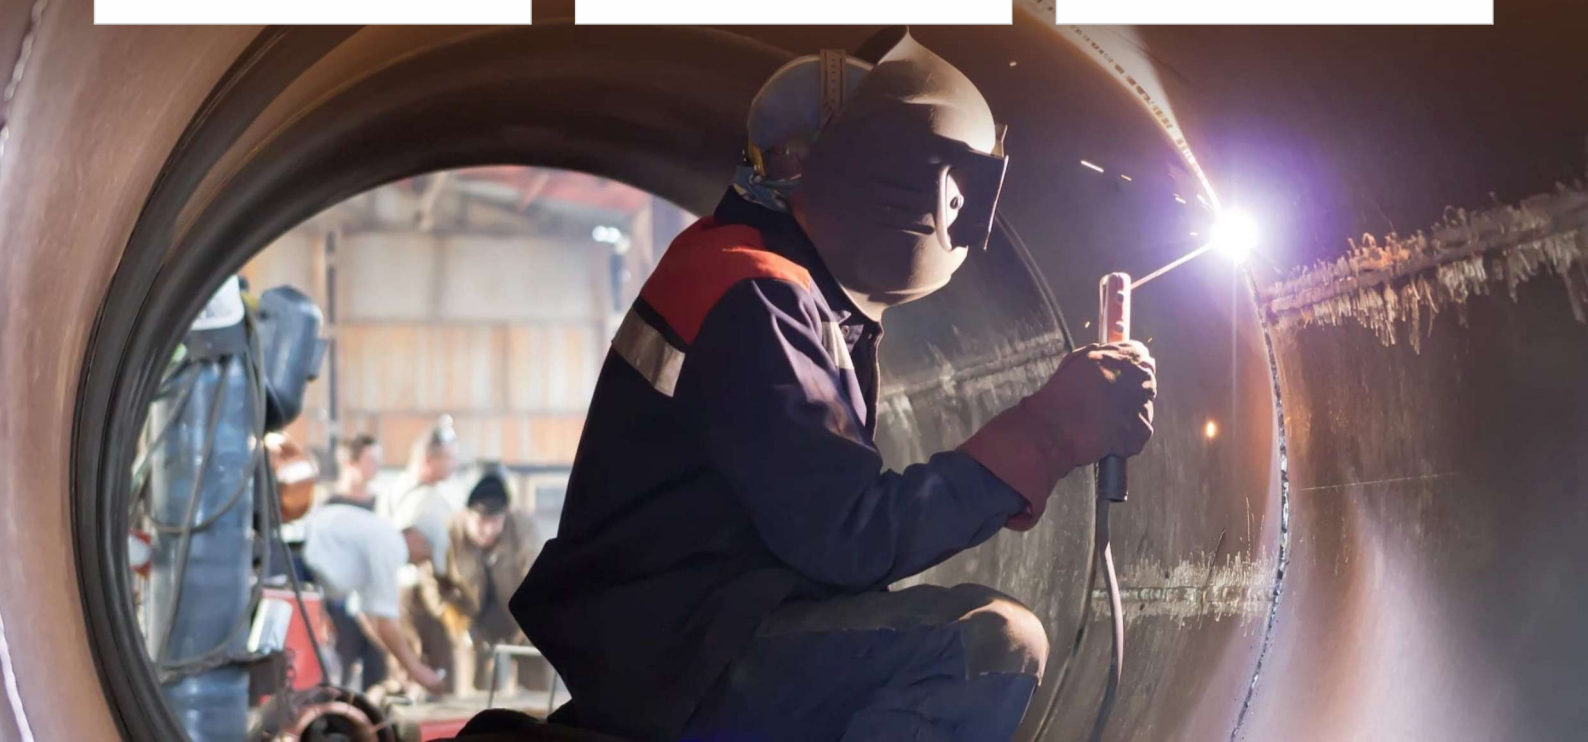

At DML Engineers, our portfolio is a testament to precision engineering, robust fabrication, and unwavering quality across critical industrial sectors. This gallery showcases a selection of projects and equipment we have successfully manufactured, contributing to the efficiency and reliability of our clients' operations in Pharmaceuticals, Chemicals, Coatings, and more.

CLIENTELE

Trusted Partnerships Across Key Industries

Over the years, DML Engineers has built enduring relationships based on quality and reliability. Our solutions in process equipment have been adopted by leading players across demanding sectors. Below is a partial list of the esteemed clients we have partnered with to optimize their production and uphold the highest standards of safety and efficiency.
