WHO WE ARE ?

Based in India, **GREEN ENERGY SOLUTIONS** provides solar photovoltaic (PV) system integration services and renewable (RE) energy solutions. Led by 50+ employees, technicians and Engineers team of experienced professionals in the fields of solar photovoltaic and renewable energy engineering and new technology development project management, **GREEN ENERGY SOLUTIONS** is dedicated in ensuring that renewable energy is accessible to everyone.

At **GREEN ENERGY SOLUTIONS**, we provide you with the necessary know-how for your investment in renewable energy – from the initial planning and expert consulting to the complete installation, including all the necessary parts.

The solution chosen will depend on a variety of factors and not least on our customers' individual wishes. Our efficient solutions will allow the world to move towards sunnier times and set the signal for a clean future.

We boast of reduction of million tons of carbon dioxide through our Clientele base spread across India. Our offerings of complete commissioning services from KW to MW scale gridconnected and off-grid standalone solar power projects helps our clients in reducing investment and recurring cost.

OUR MISSION

Solar has suffered and is still suffering from many misconceived notions, and we understand that the process of going solar might seem overwhelming. Education and empowerment are at the core of our approach.

Within our process, we meet with our clients to help them define their goals, evaluate their options, and make informed and confident decisions. We take care of the entire process, from design to engineering, permitting, installation and monitoring, so that going solar is a seamless and hassle-free process.

QUALITY

The services provided to our customers are a result of in-house research and development activities, and hence we can guarantee service of the highest quality, which is based on latest scientific and technological knowledge.

Our long term objective is to contribute to the changing global economic orientation towards sustainable production and consumption, and promote environmentally friendly energy technologies.

The policy of our company is directed towards continuous improvement of professional base, streamlining internal corporate processes, and increasing commercial activity in order to meet our customers' requirements. In relation to our customers the principle of building long-term transparent partnership based on mutual respect and professional approach is applied.

WHY? US

- Listed by MEDA, MNRE
- Customized Design
- Long Service Life
- Reduction in existing power bill
- Eligible for government incentives
- Short pay back period

WHAT WE DO ?

Project Execution

- Turnkey Bases
- KW to MW Scale

Project Consultancy

- Solar Project Consultancy
- Energy Saving Consultancy
- **I & C in KW to MW Scale**

GENERATION OF RENEWABLE ENERGY

OUR SOLAR PRODUCTS RANGE

- Solar Water Heater
- Solar Rooftop On-Grid System
- Solar Off-Grid system
- Solar Hybrid System
- Solar Street light
- Solar Home Lighting
- Solar Educational kits
- Solar agricultural and Industrial pump

OUR ESTIM PROJECTS

We have done 100 + projects

- Residential rooftop project- 900 kw
- Commercial rooftop solar-200 kw
- Water heater project-- 8000 lpd
- I&C project in solar systems- 2.1 MW
- solar street light- 106 nos
- solar water pump project- 4 nos
