

Rehabilitate your Structure
& Buildings, for prolonged life...

KENCOAT[®]
Expert in Water Resistant Technologies
Since 2006

A Skilled Team
&
Technocrats
of Industry...

INTRODUCTION :-

Kencoat is a leading brand in market since 2006, Manufacturing innovative products for buildings & construction, residential & commercial projects, industrial requirements, customized solutions for rehabilitation of structures. kencoat is focused on challenging construction requirements and with periodic development has provided new products, high quality and cost-effective construction chemicals, through in-house r&d, qualified technocrats. The products and services are for All applications viz. tiling, grouting, water-proofing, construction, repairs & maintenance, industrial flooring, and customized needs of critical projects. every product and services is ready to use in simplified procedure, and designed.

To make the construction practices hassle-free and accelerate the process, and over a decade has become one of the preferred brand, among government & private projects, builders and construction companies. kencoat brand has evaluated over a decade and is serving through retail network, dealers & distributors, stockists & applicators. kencoat is expanding with multiple manufacturing locations and developing application team simultaneously, to provide prompt technically superior products and support services. at kencoat polykem, we strive to build, maintain and grow customer friendly solutions.

KALPESH PATEL & MILIND PARIKH

1.KEN-LATEX SBR (KEN-SBR-705)

SBR Latex is Used in Construction for Bonding, Repair and Water Proofing Particularly in Concrete and Cement Applications Like Mortars, Plasters and Screeds. (Packing Size - 1,5,10,20,50 Kg.)

2.KEN-POLYCRETE (KEN-AP-703)

Use as a Protective Coating to Guard Against Water Damage Uv Radiation and Temperature Varlations, Applied in Bathroom Roofs, Decks, Balconies and Utility Areas. (Packing Size - 1,5,10,20,50 Kg.)

3.KEN-SEAL (KEN-WR-737)

Use For Primer Coat In Water Profing Treatment Ken - Seal is The Transparent Water Proof Coating Provides an Excellent Barrier Against Water Preventing Leaks, Seepge And Moisture Damage With Proper Application These Coating Offer Superior Resistance to Weathering Uv Radation and Wear and Tear. (Packing Size - 1,5,10,20,50 Kg.)

4.KEN-MASTERCOAT (KEN-LM-735)

This is The Special Synthetic Resined Base Water Proofing Liquid Membrane Coating Because of Its Excellt Flexibility and Thixotropic Nature it is Ideal For Use on Roof, Vertical Well Surface it is Single Pack Very Economical Waters Proofing Coating Due To Its White Colour, Excellent Uv Resistant And Solar Reflectively For 3 Color Available (white, Black, Green) (Packing Size - 1,5,10,20,50 Kg.)

5.KENGUARD (KEN -724) (TWO COMPONET)

Cementitious Water Proofing Coating in Two Part With Polymer Powder and Neno Liquid its Suitable For Indoor and out Door Water Proofing Projects Such as Kitchen, Bathrooms, Balconies Walls Roof Swimming Pools, Basements Areas, its Durable and Cost Effective Solution That Bonds With The Substrate To Form a Strong Water Resistant Surface. (Packing Size - 1,5,10,20,50 Kg.)

6.FLEXI FILLER (KEN-PS-740)

Pu Sealants are Widely Used In Construction Building and Structures, Sealing Expansion and Construction Joints in High Rise Buildings, Basements and Between Precast Concrete Panels Ideal For Sealing Cracks and Joints in Wet Areas, Such as Bathrooms, Swimming Pools, Balconies, Terraces and Water - Retaining Structures Like a Water Tanks and Reservoirs. (Packing Size - 1,5 Kg.)

7.KEN-BOND (KEN-HAS-503)

This is The Multi Purpose Adhesive Used For Crack Filing Up To 50mm Bonding For Glass To Glass, Wood To Wood, Steel To Steel, The Ceramic System is Suitable For Frp, Rcc Flooring, Rcc Structure, All Aberration Rcc Area Coating, Repairing Pool Area, Wall Area. (Packing Size - 1,5,10,20 Kg.)

8.MORTAR-HI (KEN-REMOTO R-506)

Ken - Remoto is High Performance Mortar Designed For Before Water Proofing Coating Loose Portion on Roof, Terrace, Wall, De Bonding This Area and Attel Applying Ken Remoto Also Used Structural Concrete Repair, Especially Useful In Columns Beams And Slabs. (Packing Size - 25 Kg.)

9.KEN-POLYUREA-011-2K

(SINGLE/TWO COMPONENT POLYUREA)

Used as a Roofs Basements, Kitchens and Bathrooms, Swimming Pools, Underground Structures Like Tunnels and Subway, Balconies and Terraces, These Products Contain Solvents Require Good Ventilation During Application, Product is Moisture Cured Water Proof Coating With High Flexibility And Elongation Strong Ability to Substrates de-Formation. (Packing Size - 1,5,10,20,50 Kg.)

10.KEN-URETHAN-09-2K

(Liquid Applied Polyurethane Water Proofing Membrane)

This Product is a Two Component Solvent Base Elastomeric Cold Applied Polyure Liquid Water Proofing And Protection Used For Roof, Terraces, Podium, Terrace Garden, Swimming Pools, Wall Etc. (Packing Size - 1,5,10,20,50 Kg.)

11.INSTA-GROUT (KEN-IG-510)

Two Component Pu Injection Grouting is applied to Repair and Strengthen Concrete Structures, Seal Leaks and Stop Water Seepage in a Wide Range of Applications Including Cracks in Foundations, Walls and Slabs, as Well, as Tunnels. Basements, Dams And Underground Structures Active Leaks and For Filling Voids to Restore Structural Integrity. (Packing Size - 5,10,20 Kg.)

12.INJECT-GROUT (KEN-IG-505)

(EPOXY BASE INJECTION GROUT)

It is a Repair Technique For Filling and Sealing Cracks in Concrete Structures by Injecting a high Strength Two Part Epoxy Resin under Pressure Columns and other Concrete Elements also uses on Terrace in Throughout Slab Cracks. (Packing Size - 5,10,20 Kg.)

13

13. HEAT REFLECTOR (KEN-HW-704)

A Reflective Roof Coating Creates a Seamless Membrane in a White Color That Stops Leaks, Provides Protection From The Elements and Keeps The Roof Cooler. Its a Multi Performer and Effective in Heat Insulation.
(Packing Size - 5,10,20,50 Kg.)

14

14. FLOOR-BOND (KEN-HS-502) (EPOXY - MORTAR)

Used Special High Strength Product With Excellent Abrasion Resistance For Floor Repairing Ideal for Industrial Floor, Machine Foundation and Areas. Exposed to Aggressive Chemicals.
(Packing Size - 5,10,20,50 Kg.)

15

15. KEN-FP-602

Geo Textile Fabric For Water Proofing Can be Used for A Variety of Applications, Such as Roofing, Underlayment Wall, Terrace, Foundation Wrapping The Durability Flexibility and Easy Installation Geo Textile Fabric Make it an Ideal Choice For Proofing against Water Damage.
(Packing Size - 1 x 50 Mtr.)
