*The Bond Of Trust & Strength In
Screening, Mixing, Conveying Application*

Incepted in the year 2011, We “Mahavir Industries” are a Sole Proprietorship firm that is the distinguished manufacturer of high quality and durable range of Ribbon Blender Ribbon Mixer Vibro Sifter Vibro Screen Screw Conveyor Rotary Air Lock Valve, etc. at Ahmedabad Gujarat, India. We have constructed a wide and well functional infrastructural unit that plays an important role in the growth of our company. We offer these products at reasonable rates and deliver these within the promised time-frame. Under the supervision of “Mr. Vinod B Patel” (Owner).

We have well equipped infrastructure to fulfill customer requirement with well experienced staff. We always interact with our valued customer to improve our quality and services.

OUR VISION

The vision of Mahavir Industries is to be a premier Indian manufacturer of top quality products in field of Screening, Mixing and conveying system. Mahavir Industries will strive to maintain the image it has developed over the many years with its suppliers, employees and community as a company of excellence.

OUR MISSION

Our mission is to produce and continually develop quality products at a competitive price. We will always strive to service our customer with the utmost integrity, and to their complete satisfaction. It is our goal to ensure our mission by continuous self improvement, growth in our operations and employees; while maintaining profitability to the benefit of our customers, employees, and community.

Planetary Mixer

Planetary mixer has great function of blending, shearing and dispersing, which suits well in dispersing and blending of materials in solid to solid, solid to liquid, liquid to liquid. Planetary mixer is widely used in chemical, food processing, drug producing, construction materials and light industries. Meanwhile, it also fits for cosmetic, ink, chocolate, sealing adhesive, adhesive, ointment, paste materials etc.

Planetary Mixer Size Available:

- 5 Ltrs 1000 ltrs Capacity
- Gmp Model & Non GMP model are Available

Tubular Screw Conveyor

The Tubular Screw Conveyor and Feeder systems are highly for different applications as well as versatile offering a variety of standard solutions.

MODEL	Production Kg/hr	Motor HP
MSC-5	1000 to 1500	1 to 2
MSC-6	1500 to 2000	2 to 3
MSC-8	2500 to 4000	3 to 5
MSC-10	4000 to 6000	5 to 7.5
MSC-12	6000 to 8000	5 to 7.5
MSC-14	8000 to 12000	7.5 to 10
MSC-16	12000 to 15000	10 to 15

U type Screw Conveyor

Our advanced technology and well modern design aware engineers enable us to produce different sizes and design of the same products. We have well arranged warehousing facility to keep these products safely. This Conveyor is used in various industries such as chemical factories, construction sugar factory, and cattle feed factory and many more. These conveyors are available from large to medium load with us.

Rotary Airlock Valve

MODEL	Rotor OD (mm)	Flange ID (mm)	Motor HP
MRAV 100	100	100	0.5
MRAV 150	150	150	0.5
MRAV 200	200	200	1.0
MRAV 250	250/300	250	1.0
MRAV 300	300/350	300	1.5
MRAV 350	350/400	350	2.0
MRAV 400	400/450	400	3.0
MRAV 500	500/550	500	3/5
MRAV 600	600/650	600	5 / 7.5

USES OF ROTARY AIRLOCK VALVE:

Mahavir Rotary airlock valve uses for discharging dry powder from pulverizer cyclone / storage silo.

About rotary air lock valve:- material is received from top in rotary air lock valve. Fill volume between rotor vanes and discharge at bottom side. Material is discharge without air leakage. It can be mount directly on bottom flange of silo/cyclone of out let spout.

ROTARY AIR LOCK VALVE DESIGN:-

Rotary air lock valve consists flange mounting type housing, Rotor and rotor shaft. Rotor is fitted inside housing. Rotor rotates in bush bearings. Stuffing box with gland packing is provided both sides to prevent material leakage. Rotor is driven by geared motor.

Impact Pulverizer

The Impact pulverisers are the popular device that widely used for grinding various types of materials including metal, chaff, grains, etc. We Mahavir Industries are one of the leading manufacturer of the Impex pulverisers - that meets most capacity requirements even we offer this machine with a wide degree of adjustments so you can get an outstanding result.

MODEL	H.P.	Production KG /Hour
MIP - 8 Body	5 HP to 7.5 HP	30-60
MIP - 12 Body	7.5 HP to 10 HP	60-120
MIP - 16 Body	10 HP to 15 HP	80-200
MIP- 20 Heavy	25 HP to 40 HP	220-350
MIP - 25 Heavy	25 HP to 40 HP	350-500
MIP - 32 Heavy	50 HP to 75 HP	600-800
MIP - 42 Heavy	100 HP to 120 HP	1200-1700

QUALITY ASSURANCE

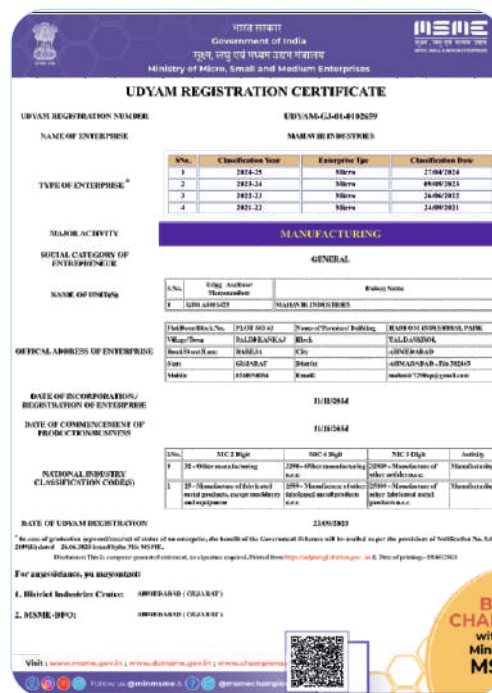

Quality

Quality aspect of our offered products is given the foremost priority as it maximizes the contentment level of our valuable clients. This inherent culture has been formally institutionalized by the ISO 9001: 2008 certification. Standards and records are systematically maintained for future reference in compliance with the requirements of quality certification. we endeavor to take all the measures required to develop the products in consonance with the defined industry standards. Further, we also make sure that products which we trade are sourced from reliable vendors. We follow TQM in our business operations and ensure that our clients get nothing but the best.

Client Satisfaction

Foremost motto of our organization is to attain maximum level of client satisfaction. Therefore, we offer our clients with quality adhering range of products and deliver it within the time. As a client-centric organization, we incorporate the specifications laid down by our clients. Further, we offer flexible payment modes and conduct business on ethical grounds. Due to these factors, our transparent dealings and our capability to undertake bulk orders, we have mustered a huge clientele in the market.

MAHAVIR INDUSTRIES IS HAVING ISO 9001 : 2008 CERTIFICATION COMPANY

**Services:**

In order to fully satisfy the Clients' requests, the company Mahavir Industries offers two services of fundamental importance:

- Pre-sales consultancy
- After-sales service

The pre-sales consultancy puts Mahavir Industries experience at the customer's disposal: each single project is elaborated in accordance with requirements and limits of the clients. We provide Project Consultancy, Plant Design & Structure Design.

The after-sales service represents the long-term guarantee for the investment of the customers has made by purchasing a Mahavir Industries machine or plant. We not only provide original spare parts on demand, but also an on-call service to ensure a prompt arrangement of the service team. We provide Onsite Service & Online Service.
