Sustainability

INFRASTRUCTURE

Our modern infrastructure is a result of belief in best quality and efficient production.

Weaving Units

Units I & II located at Tarapur & Ichalkaranji having a combined setup of 161 versatile high-speed rapier auto-loom (Picanol, Dornier & Vamatex) and state-of-the-art preparatory machines boast of the latest in modern technology.

INFRASTRUCTURE

Garment Units

We have the latest machinery from all parts of the world to get the best workmanship for our garments.

Units I & II located at Vapi have total 700 stitching and specialized machines (Brother, Juki, etc.).

We have also invested in automation to further strengthen our commitment to quality and efficiency.

MAIN CUSTOMERS

One of the biggest strength of Olive Tex is that we meet our deadlines. We strive hard to fulfill our promises and our clients appreciate that. Olive Tex supplies fabrics to major domestic brands, garment exporters and customers worldwide. Our garment division is partner to some of the biggest retailers in various countries across the globe, supporting them with continuous trend updates and versatile styles across men, women, children and infants.

PRODUCT RANGE - FABRICS

We manufacture all types of yarn-dyed woven fabrics (checks, stripes, fil-a-fil, chambray, oxford, dobby, etc.) and piece-dyed fabrics (solids and prints) by using the best quality cotton, polyester, lyocell, viscose, linen, spandex, and their blends, also using varieties of slubs, neps, space-dyed, melange, grindle, chenille, and other injected and intimate blended yarns.

All types of fabric finishes like peaching, carbon, brushing, paper, etc.

We experiment with the newest yarns and draw inspiration from the latest trends to continuously innovate a lot of value-added concepts. Our experience and expertise means you get the latest from around the world.
