# OUR JOURNEY

---

## SEVEN DECADES OF TRUST, INNOVATION & EXCELLENCE

We started our journey more than 70 years ago, manufacturing and distributing highly efficient, premium quality fans. Since then, we have grown, embracing new frontiers in technology and innovation, to become one of the leading consumer electrical brands in India. Today, we are the largest manufacturer and exporter of fans from India with a dominating global presence in over 35 international markets. In the domestic market, we enjoy a robust pan-India reach, with over 1 lakh retail outlets and a service network covering 300 cities aided by a 24x7 call center. Not only this, we have also paved the way for pioneering developments in fans, home appliances, lighting and switchgear. We take pride in our R&D capabilities, spirit of continuous innovation and commitment to manufacturing cutting-edge lifestyle electrical products that meet the needs and expectations of modern consumers. We've always strived to achieve and exceed industry benchmarks in quality and processes through constant evolution and rejuvenation. As always, we'll continue to partner our customers at every stage of their lives by offering superior lifestyle solutions with technology that makes their world safer, easier and creatively inspiring. Orient Electric offers a diverse variety of lighting solutions apart from its equally diverse range of fans and home appliances. Advancing with modern requirements, the brand constantly upgrades to newer technologies. These, being low on cost and more efficient, are used for industrial lighting and outdoor, and also for specialised lighting requirements. With the power of the most futuristic and smartest lighting solutions, it's so easy to switch to smart.

## FELICITATIONS THAT SPUR US ON

Orient Electric and its efforts towards excellence have been lauded by several awards and accolades. Here is a look at some of the most prominent ones.

### **Superbrand, 2016 & 2017**

### **Global Quality Award, 2015**

Orient Electric bagged the prestigious 'Global Quality Award' for the quality energy-efficient lighting products Manufacturer of the Year in 2016. The 'Global Quality Awards' recognise doers and pioneers across the manufacturing sector in India.

### **Icon of the Year, 2015**

Orient Electric won the "Icon of the Year" award in the lighting & switchgear category in 2015. The Brands Academy 'Icon of the Year' Awards are given to select individuals, brands and organisations to recognise their outstanding contributions to the economic growth of India.

## WHY ORIENT ?

A pioneer of innovation in lighting and more, Orient is a name you can always put your trust in.

- Orient Electric offers a wide range of lighting products, from LED lighting and fixtures to energy-efficient light bulbs, batten and tube lights, as well as consumer and professional luminaires.
- Smart lighting at Orient Electric stands for four P's: People, Power, Planet and Performance. Our LED lighting solutions comply with photobiological safety norms and are environment-friendly, save energy, and perform even in trying temperature conditions, from cold storages to boiler rooms.
- Orient Electric provides lighting solutions for the professional and consumer segments, catering to commercial, industrial and residential needs.
- Orient Electric operates major manufacturing facility in Noida (Uttar Pradesh).
- Orient Electric has a wide network made up of 500 distributors and over 50,000 direct/indirect retail shops, efficiently serviced by 20 company depots across India.
- Orient Electric is one of the first companies in India to receive a 3-star BEE rating for all the wattages. It's also the only brand to have a 5-star rating for selected wattages.
- Orient Electric is the first company to launch Flicker Controlled Lights with their EyeLuv.
- Orient Electric is a regular and prominent supplier of various LED lights to the Indian government through Energy Efficiency Services Limited (EESL).

INDIAN MEDICAL ACADEMY  
FOR PREVENTIVE HEALTH

Orient EyeLuv LED lights come with Flicker-Control Technology that reduces the impact of LED flicker and its effects, like eye strain and eye fatigue, making them better and safer for overall eye health.

# YOUR LED LIGHTS HAVE FLICKER THAT IS NOT VISIBLE.

Flicker is the constant fluctuation of light output. It can be divided into two kinds: Visible and Invisible. While Visible Flicker can be seen with your eyes, Invisible Flicker is at a high frequency and therefore not visible to the naked eye.

## HOW DOES LED LIGHTS' FLICKER AFFECT YOU ?

- Blurred vision and eye strain
- Reduced visual task performance
- Apparent slowing or stopping of motion
- Epileptic seizure and other neurological problems
- Headache, migraine, fatigue and distraction
- Leading to lack of concentration

## DECREASES PERFORMANCE AND PRODUCTIVITY

### IT'S INVISIBLE. BUT HERE'S HOW TO CHECK THE FLICKER

- 1 Open your smartphone camera in slow-motion video mode.
- 2 Point the camera towards the lights & check for flicker.

Flicker-Control Technology

Orient EyeLuv LED Lights come with the revolutionary FCT (Flicker-Control Technology), which reduces the harmful invisible flicker present in LED lighting sources that causes eye strain, eye fatigue and many other health complications, thus making them better and safer for overall eye health.

- 👁️ Good for eye health
- 💡 High lumen efficacy
- ∞ Long life
- 💡 Substantial energy saving
