

MALLAVEE GLOBAL MANUFACTURING Pvt Ltd

ISO 9001-2015 Certified.

Reverse Engineering , Concept , Designing , Engineering Manufacturing...We do it all.

ABOUT : MGM Pvt Ltd

With a capacity to convert **100+ tons of material into components** each year,

MGM is Manufacturing of Press Tools , Moulds ,Gauges , Jigs & Fixture , Pressed components , Precision CNC Machined components , Assembly & Sub-assemblies with end to end process. Established in 2006.

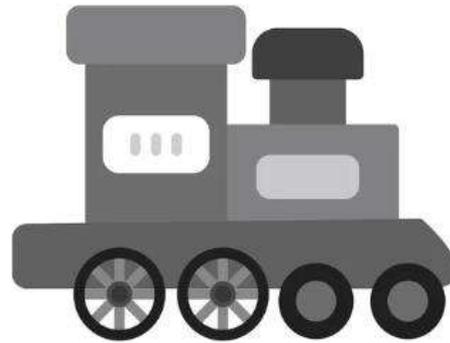

MGM has the capacity of manufacturing **0.15mm** thickness to **4mm** thickness for sheet metal components and **Ø1.00mm** to **Ø180mm** Machined components for the Solar, Aerospace , Defence, Locomotive , Electrical & Electronics , Automotive , EV , FMCG and various other industries.

Manufacturing 1000+ varieties of product.

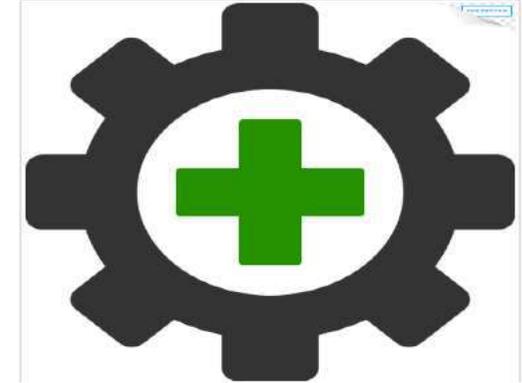

We cater to

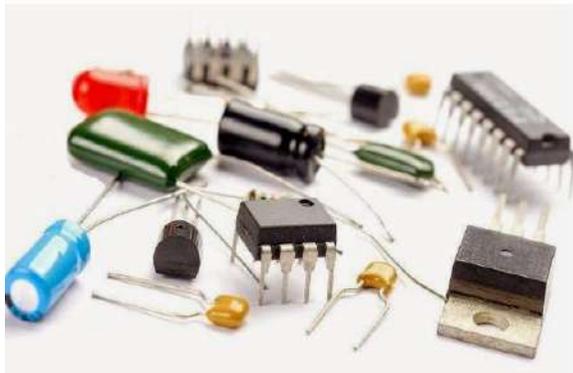

**Aerospace &
Defence**

Locomotive

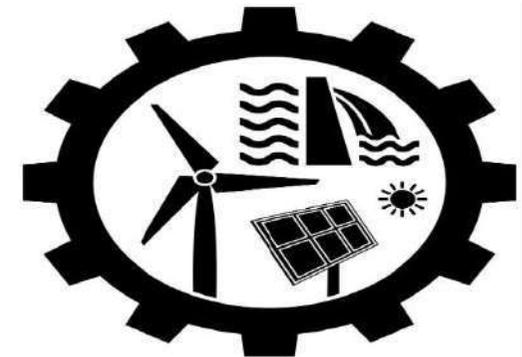

Medical Ind.

**Electricals &
Electronics.**

EV& Automotive.

Solar.

Our Vision

To be the most preferred global and domestic supplier of end to end Product.

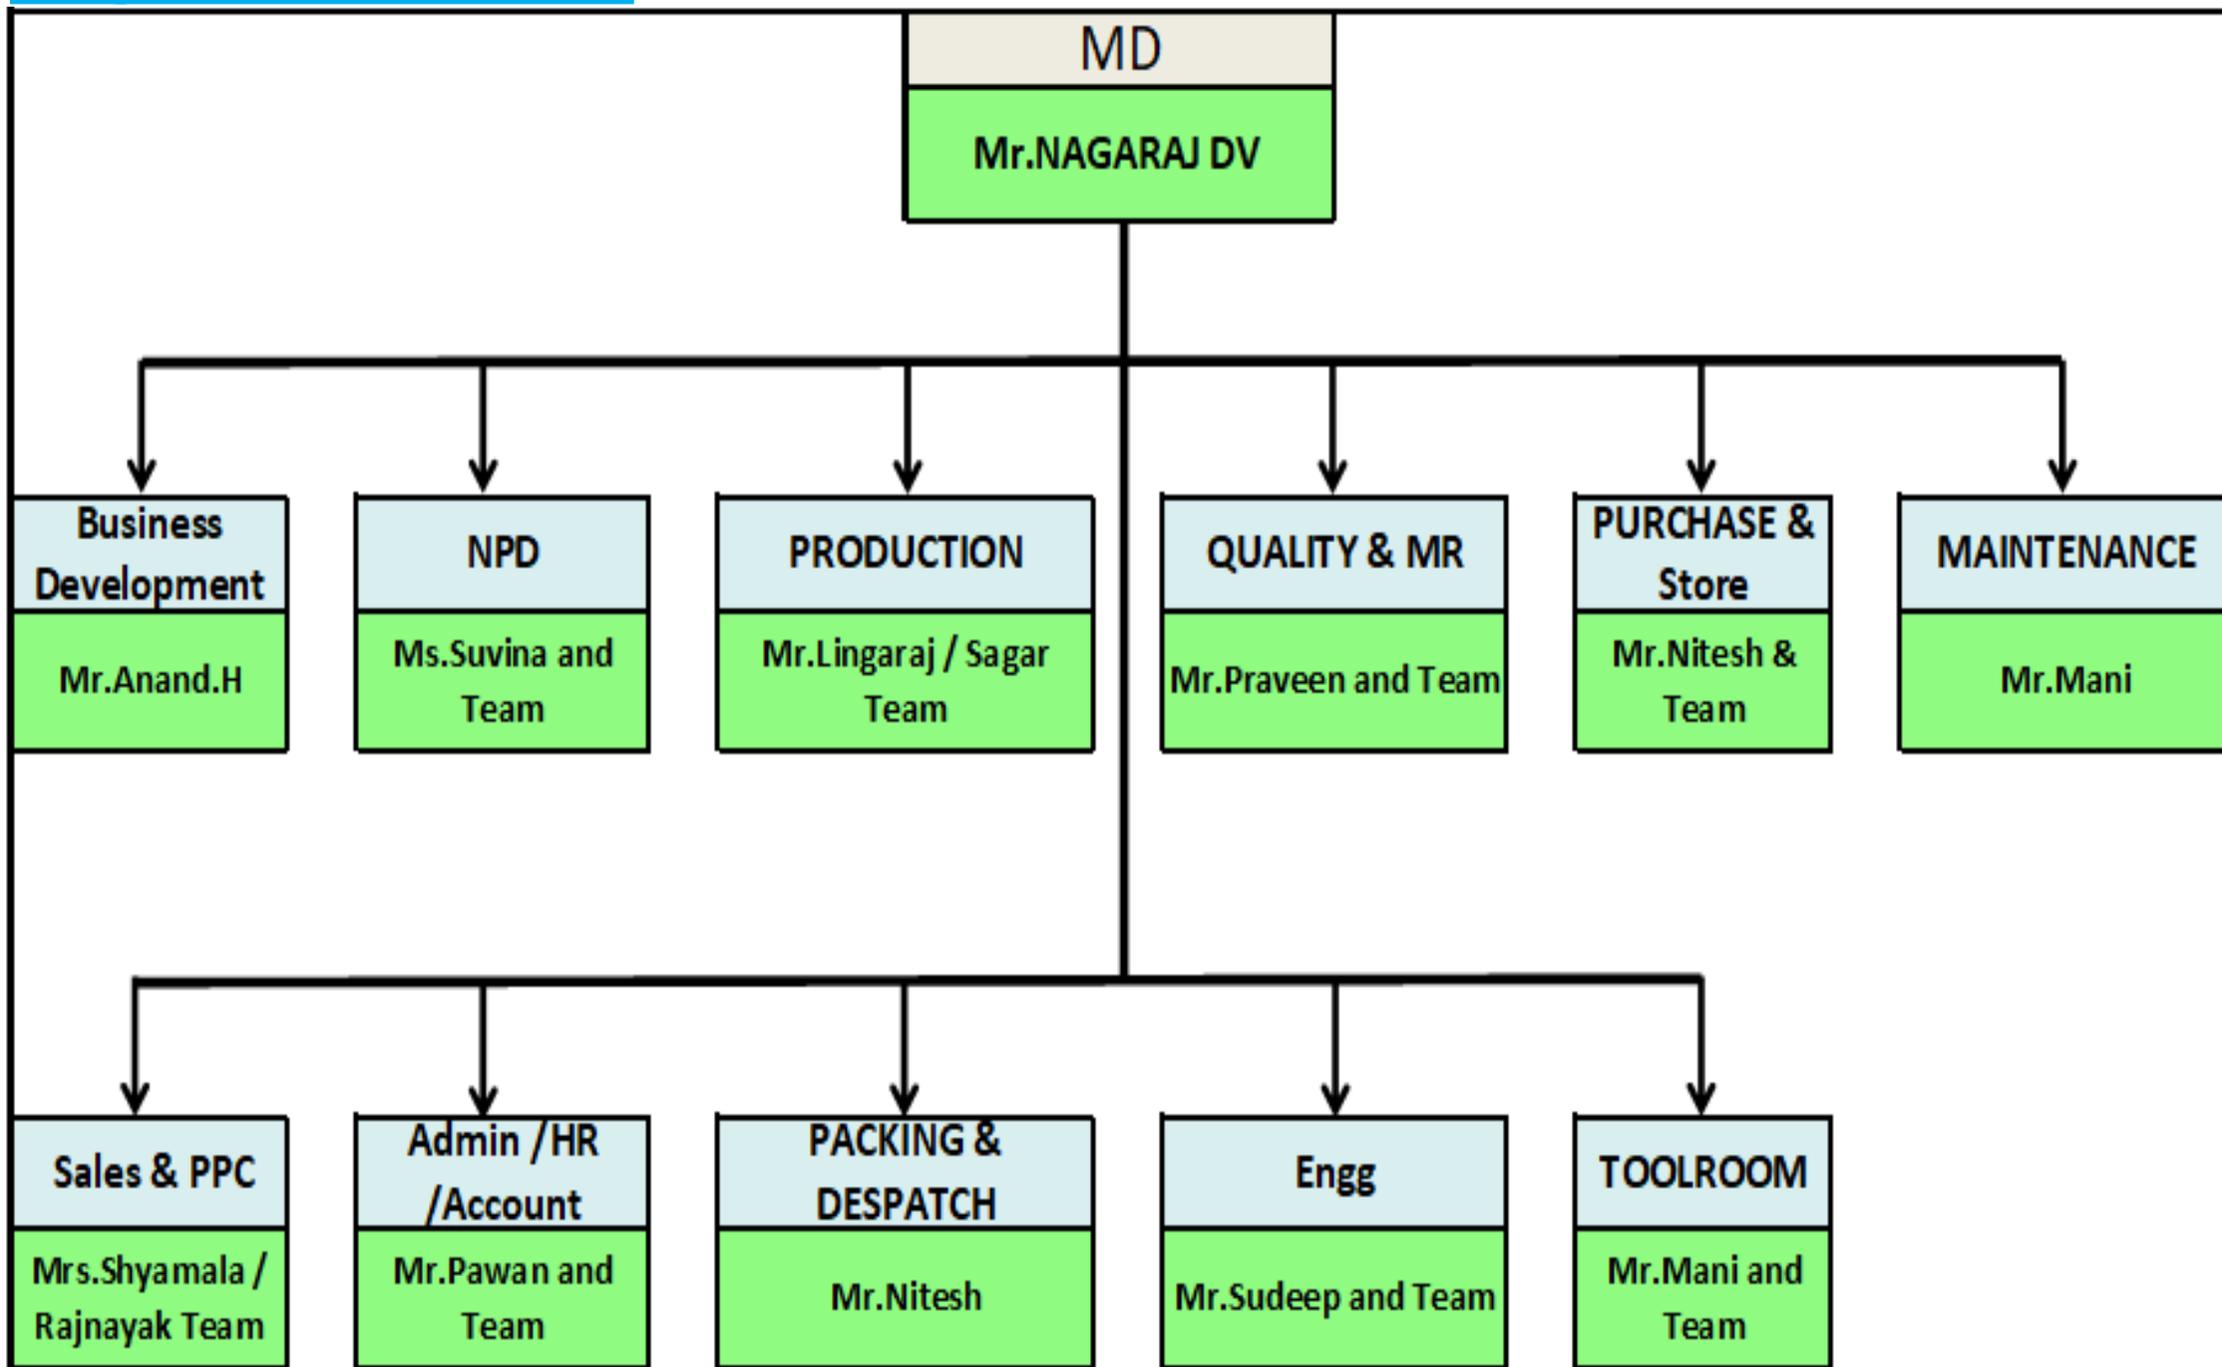

Our Mission

To be a Customer oriented Company to fulfill all the customers needs at right Quality to right time and right cost with continuous improvement with latest technology .

Organization chart

Certification

Presently we have ISO 9001-2015 Certification.

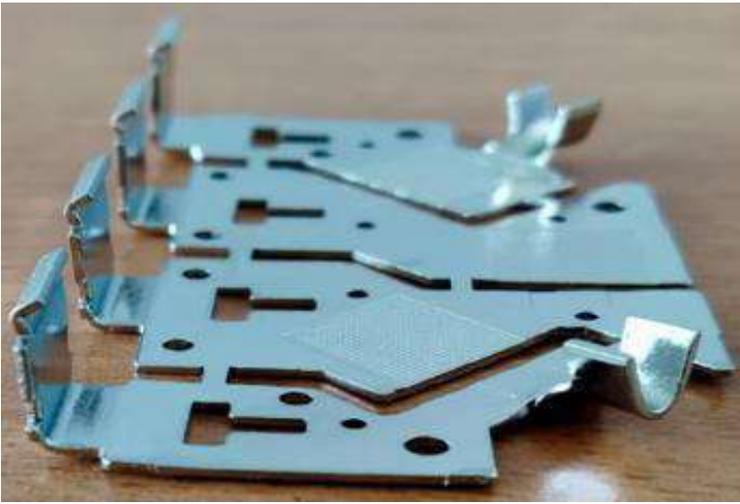

For Certification: AS9100-Rev D and IATF implementation under process soon we will get the both certificate.

Our Products : Machining Components

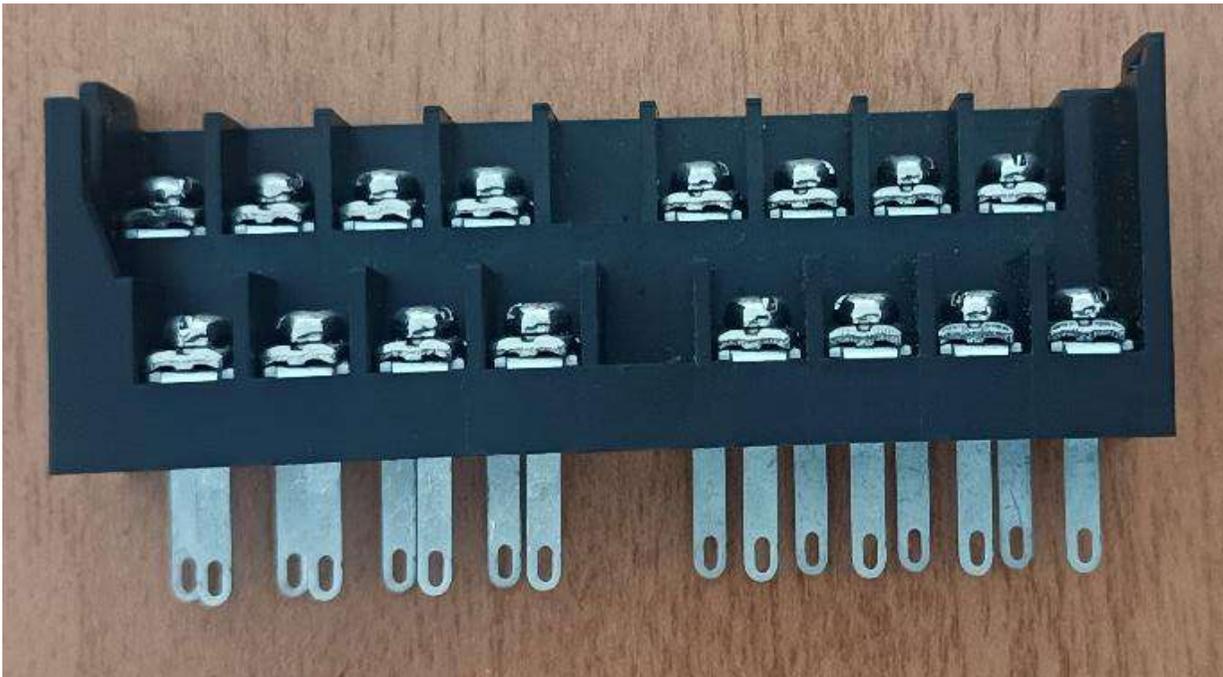

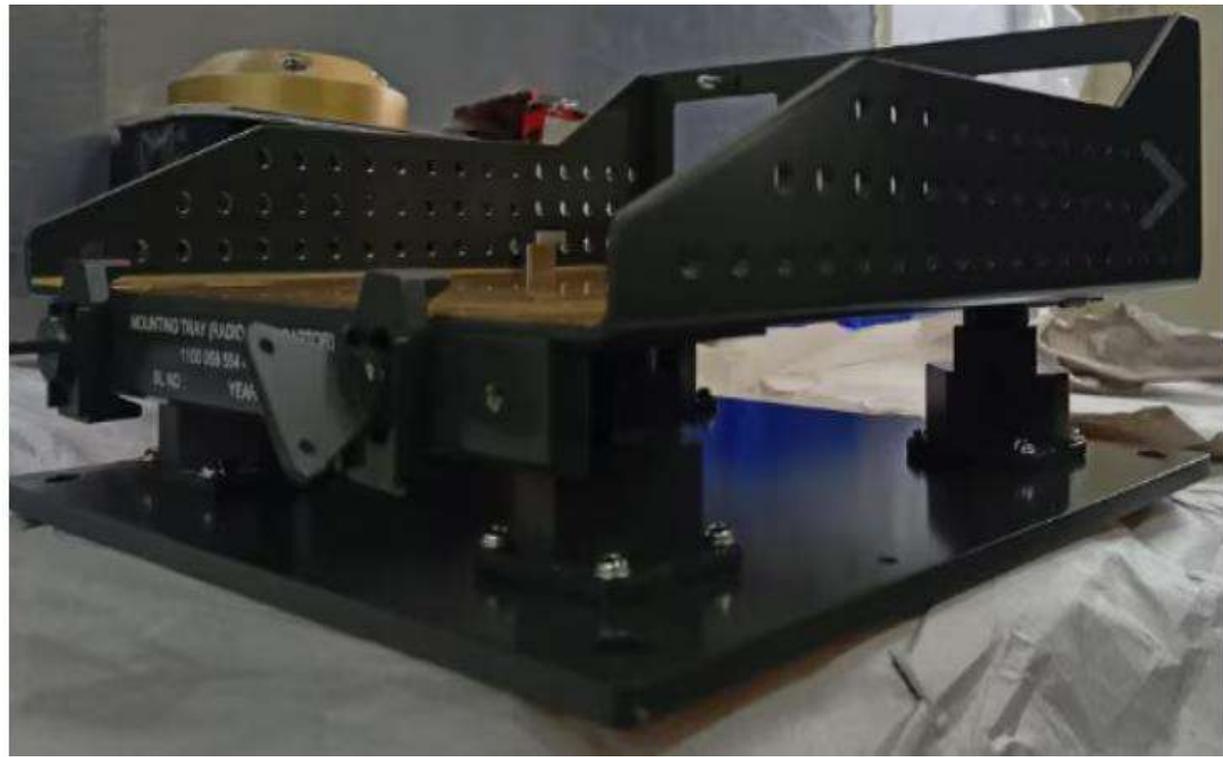

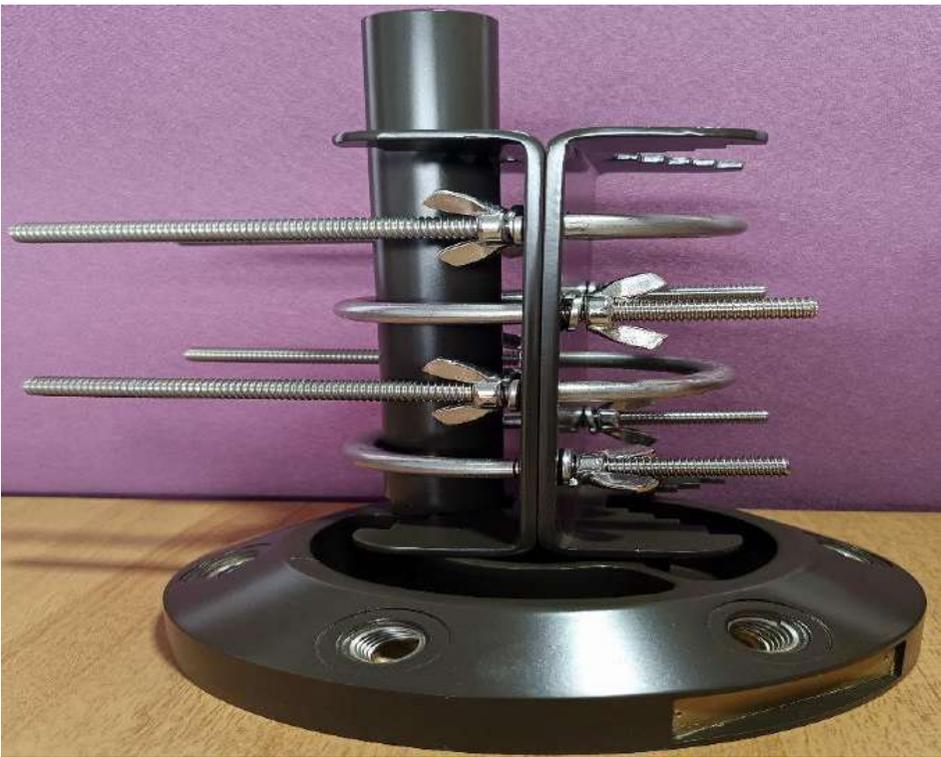

Our Products : Sheet metal Components

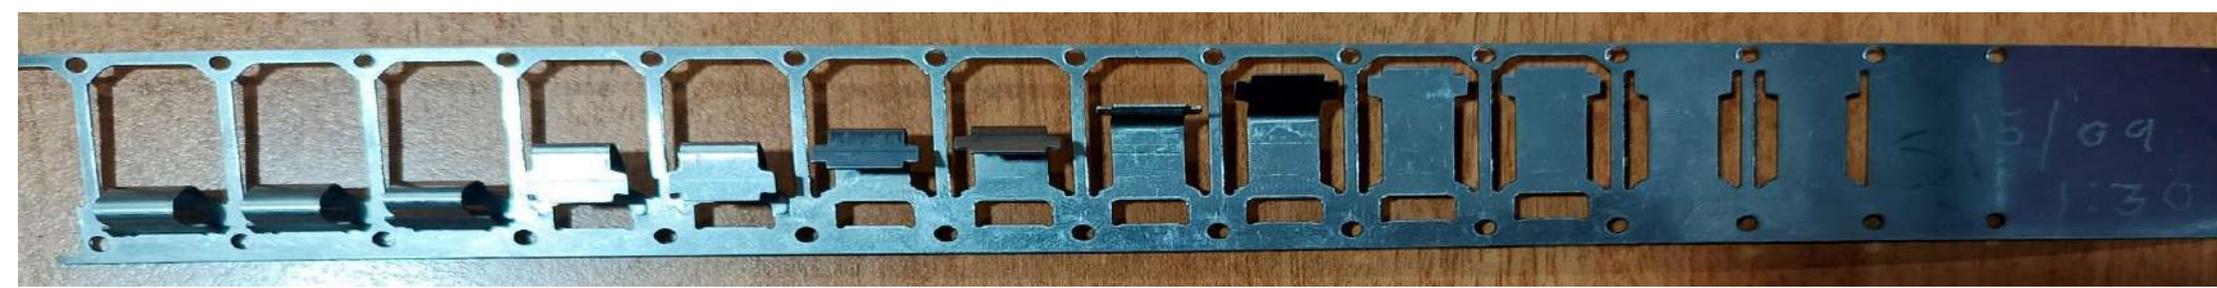

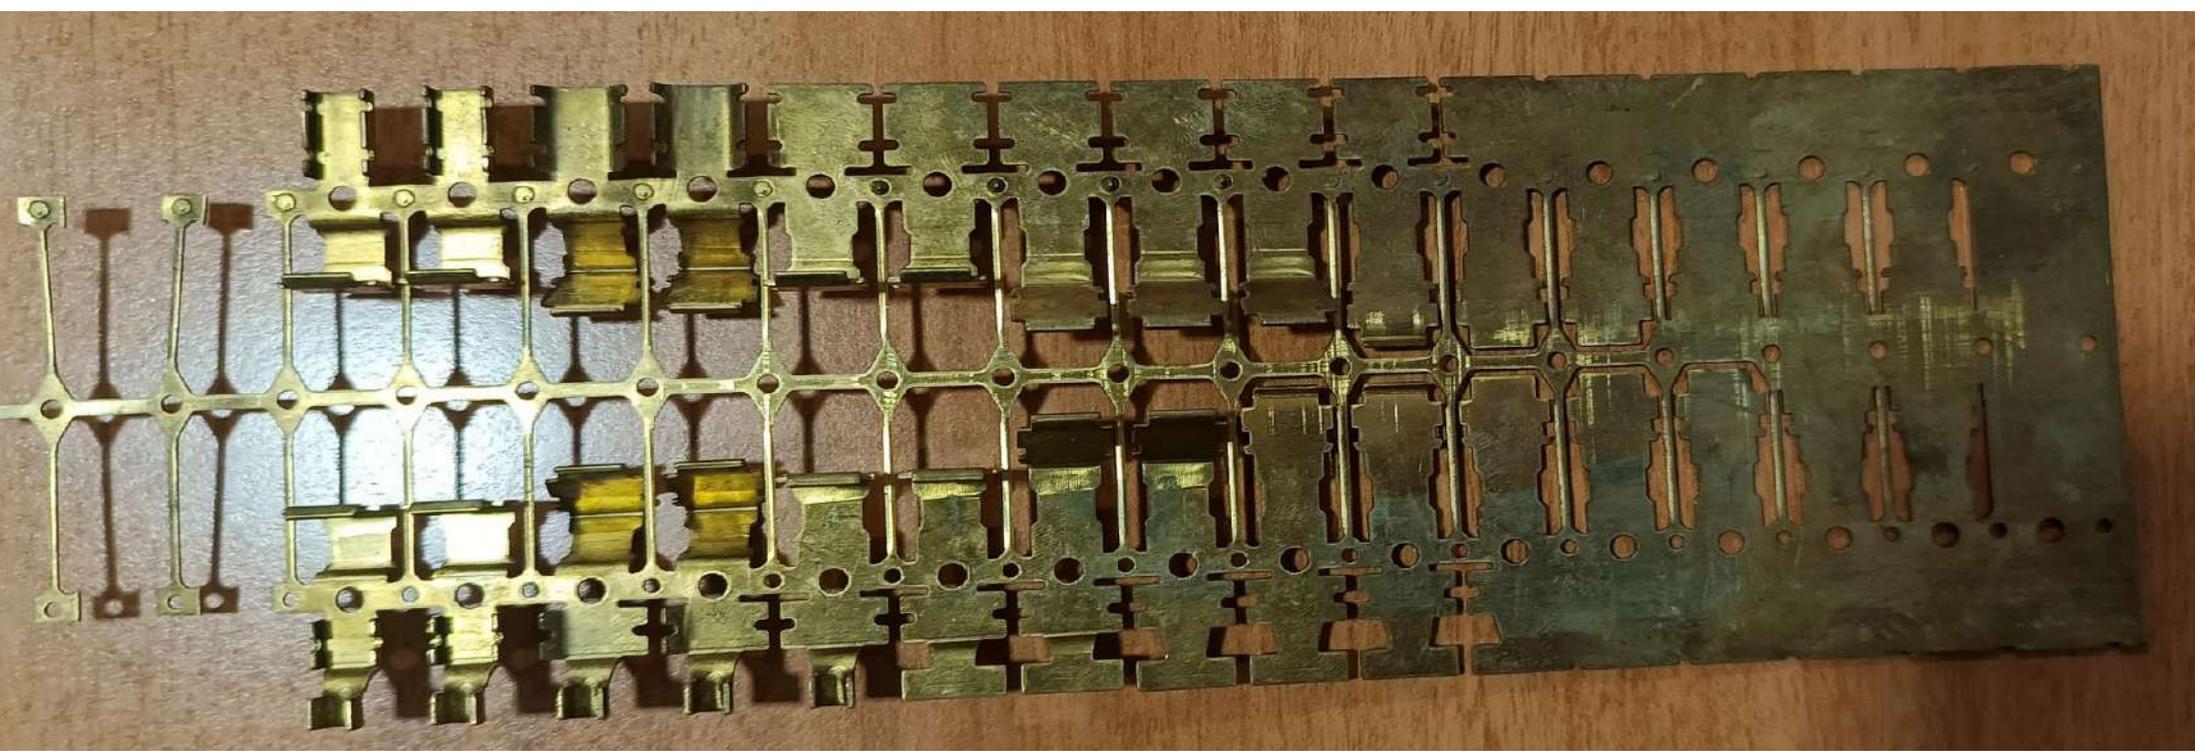

Sub-assembly

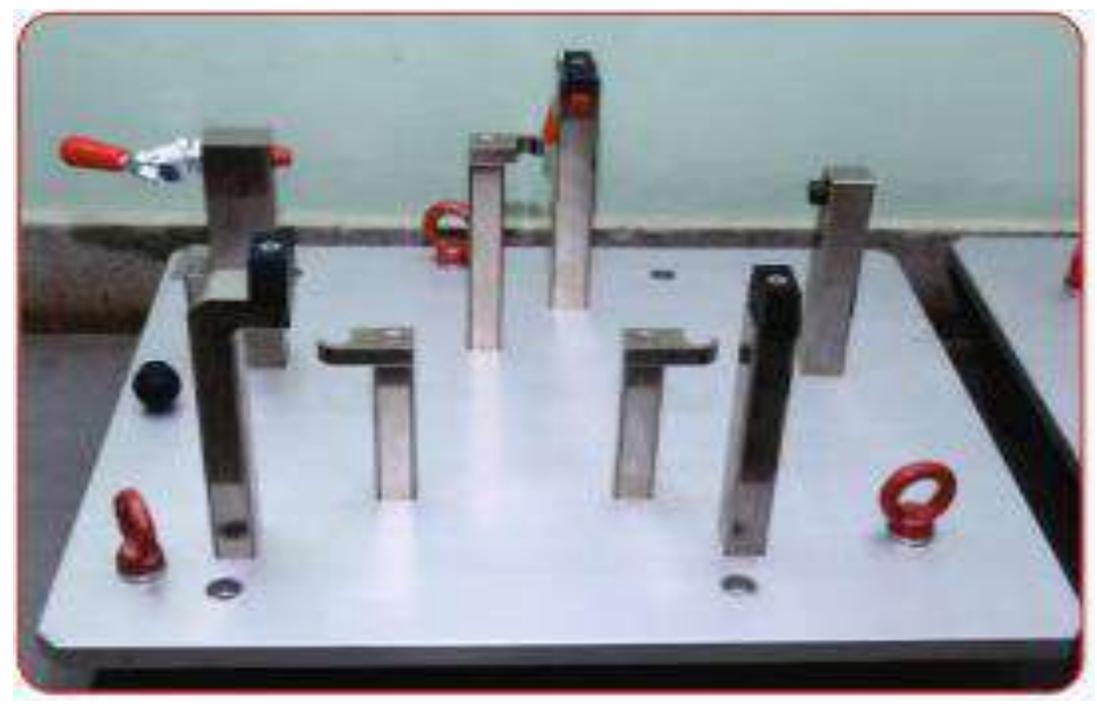

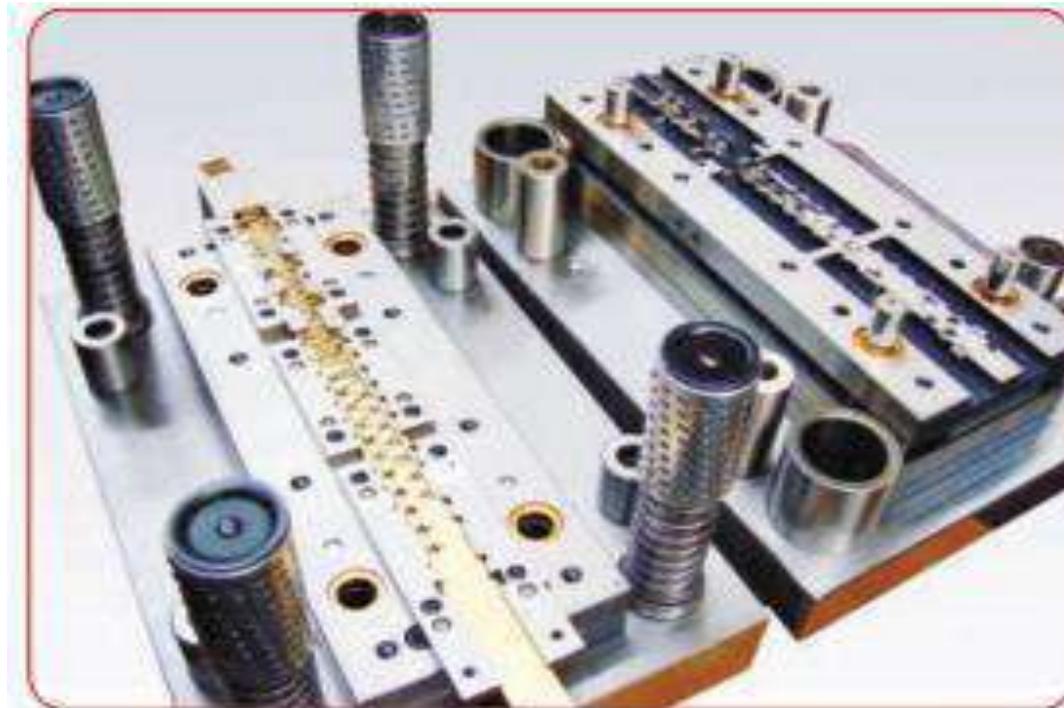

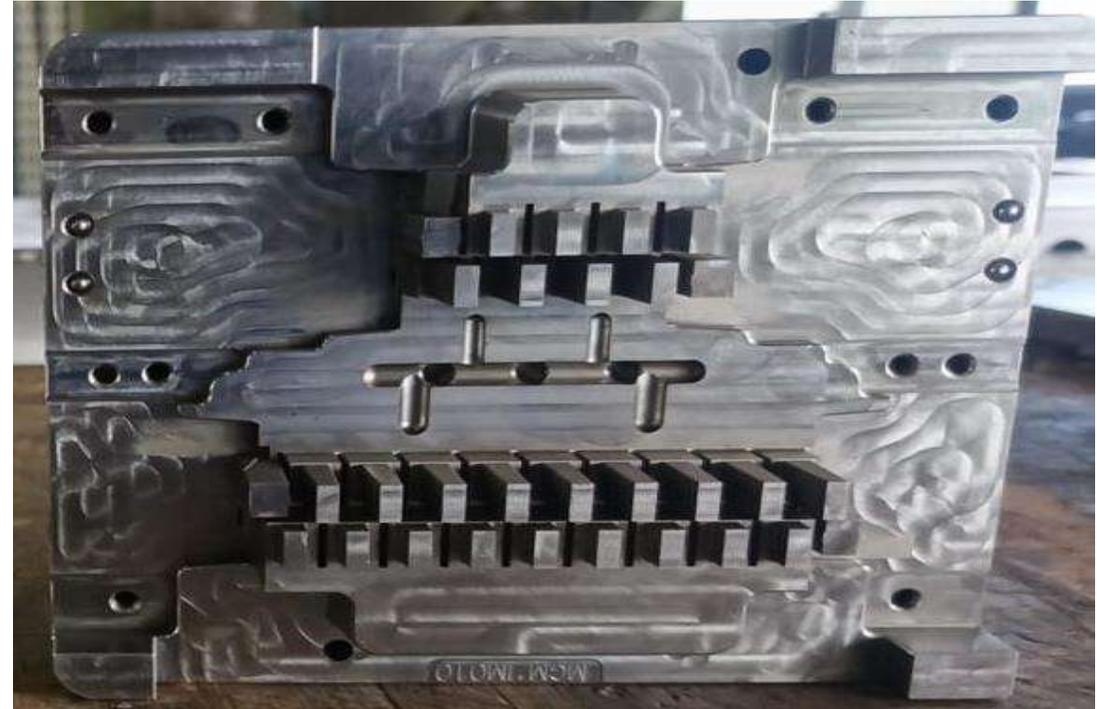

Strips

MOULDS , PRESS TOOLS , JIGS & FIXTURE

Manufacturing Facilities - VMC Section

▪ VMC MACHINE 3AXIS – 3Nos

▪ VMC MACHINE 5AXIS – 1No

Multi forming M/c

Manufacturing Facilities - Power press

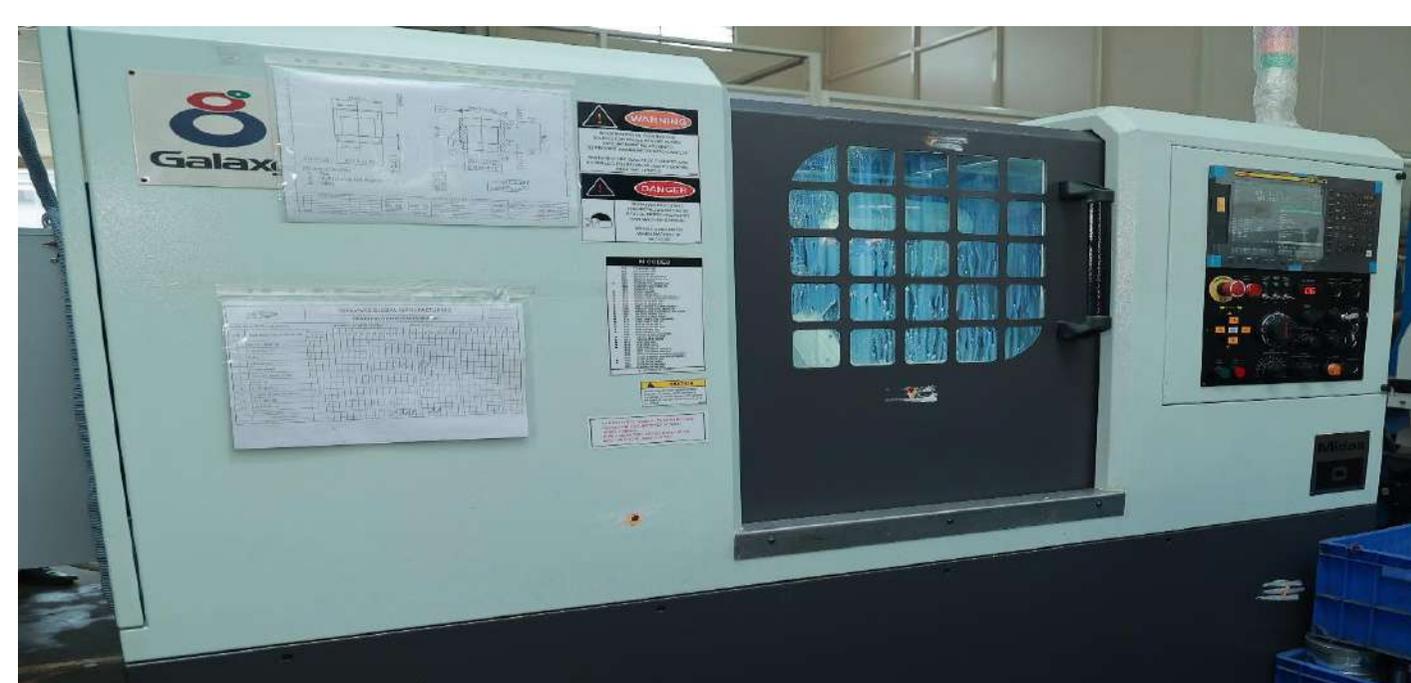

1) 80 TON 1No
2) 55 TON 1No
3) 45 TON 1No

4) 35 TON 1No
5) 15 TON 1No
6) 8 TON 1No

**25 TON High speed
Bruderer Press Machine**

**CNC Turning M/c
Qty – 2Nos**

**CNC Sliding Head
M/c Qty – 1No
(7Axis)**

Tool room Facilities

WEDM (Wire cutting) M/c
EDM drilling M/c
Co-ordinate Drilling M/c
EDM Sparking M/c
Crimping M/c (Wire harness)
Projection (Spot) Welding M/c
Hardness testing M/c
Laser engraving M/c
Ultrasonic welding M/c
Drilling M/c
Surface grinding M/c
Tapping M/c
Buffing facilities
Assembly facilities

Inspection and testing equipment

- CMM (Coordinate measuring machine)
- VMM (Vision measuring machine)
- Profile projector
- Hardness testing machine
- Bore gauges & Height gauges
- Digital vernier calipers & Micrometres

Presently using of Raw material Grade List

Brass

Copper

Berylium Copper

Stainless Steel

Phosphor Bronze

Cold Rolled Steel

Mild Steel

Aluminium

EXTENDED FACILITY

TIN PLATING

COPPER PLATING

NICKEL PLATING

GOLD PLATING

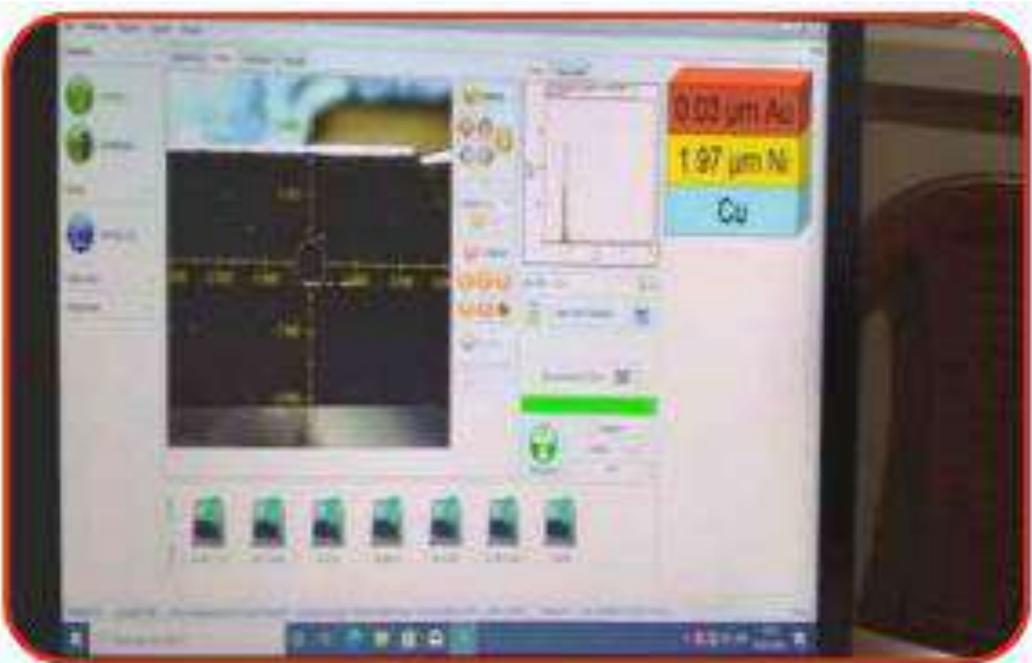

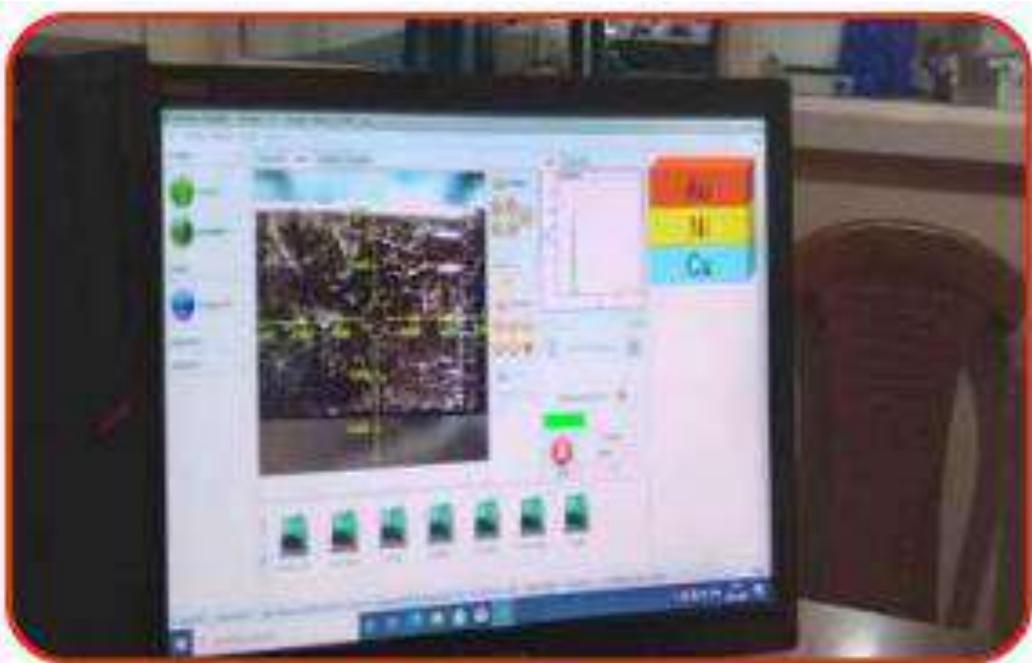

SILVER PLATING

ZINC PLATING

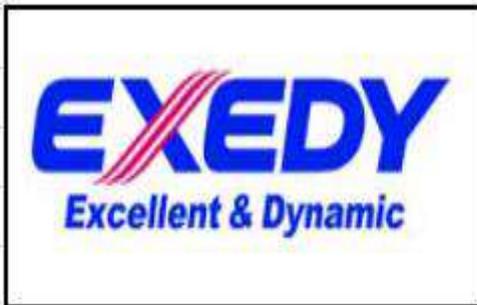

INFRASTRUCTURE

QUALITY , LAB with XRF M/c
