

Turn your biggest challenge into an automated Packaging win.

Application:

Wheat Flour
Coca-Powder
Maida
Besan/Gram Flour
Rice Flour
Malt Powder
Skimmed Milk Powder
Whole Milk Powder
Dairy Whitener
Spices Powder
Coffee Powder
Corm Flour
Custard Powder
Baking Powder
Pesticides Powder
Chemical Powder
Detergent Powder
Fertilizer Powder
Agro Chemical –Powder etc.

This is a vertical screw feeder. The feed volume is controlled by the accurate number of rotations of the auger screw with the help of servo motor. Mixer is integral part of auger to maintain the Bulk Density of the product uniform. Speed of mixer motor and auger screw are settable from HMI. The number rotations of the screw is also settable from Control Panel (HMI) to get accurate fill volume.

Auger filling machine

1. Ideal for non-free flowing products.
2. Servo motor control for high accuracy.
3. Suitable for any VFFS Machines (The Masterly Auger filler Can be Installed with any VFFS Machine)
4. Easy to Auger Screw Set.

High Speed Servo Driven AUGER FILLER

Application

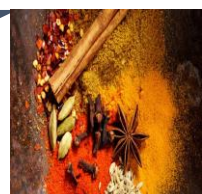

General Technical Specifications

Type Of Filler: Volumetric

Model Number	Filling range	Auger Drive
AGFSD1000	20 gm-1000 gm	Servo Driven
AGFSD10K	500 gm -10 kg	Servo Driven
AGF1000-CBD	50 gm – 1000 gm	Clutch Break

Construction Material Can be Customized As per Industry requirement

Machine Also Available With Automatic Jar Filling line

Spices

Agriculture &
Fertilizer,
Pesticides

Pharmaceutical

Coca & Milk
Powder

FMCG Product

Paints & Colors

Chemical &
Detergent

& Many

Do not hesitate to contact us, our knowledge base in the field will help you to choose most cost effective solution for your packaging requirements.
