## About Us

In **1965** at Amritsar (Punjab, India) "**Singhs Industries**" are amongst the leading firms to manufacture and supply machines like Wire Making Machines, Bolt Making Machines and Screw Making Machines. The range of our products also includes Rivet Making Machine, Expanded Metal Machine, Wire Nail Making Machines, Barbed Wire Making Machine, Wire Drawing Continuous Plant and Automatic Chapati Making Machine. These products are known for durability, user friendly functionality, environmental safety, rigidity, fire and corrosion resistance, sturdy construction etc. The team works with dedication to achieve the premium quality product and satisfy the client.

Adhering to industrial standards and following the parameters defined by the industry, we have mustered huge goodwill in the market. This goodwill is created by producing huge quality products within the infrastructure of the company that is incorporated with latest technology and new techniques. The infrastructure is equipped with the quality testing machines that manned by quality auditors to check the quality of the products for any defect or flaw / crack.

Under the visionary guidance of **Mr. Gurkanwar Singh**, we have learnt new techniques to expand the growth of the company and maximize client satisfaction. His vast knowledge of this domain has added to the base knowledge of the professionals and enhanced the production rate. His skills have been the guiding lessons for the team.
