SNOOZER®
Beds & Mattress
for a good night's sleep.®

Ortho Firm™

6", 8" & 10" firm

If you're looking for the best orthopaedic mattress in India, Snoozer Ortho Firm is for you.

The lower back is where the spine meets the pelvic bone. Conventional Ortho mattresses are hard so the spine is curved unnaturally, creating pressure points throughout the body and inhibiting circulation. Your muscles are busy trying to ease this stress, which explains why you wake up with a lower backache.

Snoozer Ortho Firm Mattress have highly resilient comfort layers & a firm coil support underneath offering pressure relief without any stress points resulting in less tossing & turning for a restful sleep.

Posture Care.®

6", 8", 10" & 12" medium firm

The only way to get a rejuvenating night's sleep is if your body is supported in whatever posture you prefer to sleep at night.

The Snoozer Posture Care Mattress, a best seller is preferred by people who find a firm surface too uncomfortable to sleep and on the other hand don't like the "Sink-in" feel of a soft mattress.

This mattress therefore provides the right balance of a medium firm feel-neither too hard nor too soft, making it the best mattress suitable for all ages.

Beauty Sleep®

8", 10", 12" & 14" plush

As the name suggests, this mattress is the perfect one to catch up on your beauty sleep after a long tiring day. Snoozer understands that you need luxurious comfort to help you go to sleep faster for a deep undisturbed sleep and wake up fresh. Just like the last time you did at a stay at your favourite five star hotel.

Our Beauty Sleep Mattress gives you just that!

With a no need to flip design and firm sitting edges Snoozer Beauty Sleep Mattress is reputed to be one of the best premium mattresses in the country.

Presidential Suite™ 10", 12" & 14" ultra plush

The Snoozer Presidential Suite is an ultra luxury mattress with understated looks and a subtle design element which helps deliver the most comfortable sleep for discerning buyers.

Conventional luxury mattresses have breath ability issues and are too soft to give you an adequate support. Your body ends up in a hammock position, causing your shoulders and hips to pinch in, thus curving your spine. This unnatural spine curvature puts pressure on your lower back.

Presidential Suite Mattress is made with advanced coil spring support which deep down flexes silently and adapts to your body helping you give the right comfort & support preferred worldwide.

Luxurious comfortable sleep you have been dreaming of every night.

No more trying to sleep on an uncomfortable mattress. No waking up too tired to face the day. Discerning home owners & fine hotels in India have been quietly choosing Snoozer for better sleep since 1995.

Our customised box spring beds & mattress have deep down coil springs which silently flex & adapt to body contours for luxurious comfort and the right orthopaedic support preferred worldwide.

By offering only four kinds of high-quality luxury mattresses, Snoozer takes away the headache of selecting the most suitable one for your home.

Your Snoozer Bed & Mattress are not just for sleeping. They are so comfortable that your bed becomes a place where you read, work, listen to music, watch TV and relax. Anytime of the day or night you can live in your Snoozer Bed.

Perhaps it's time for you to experience better sleep for a third of life spent in bed.
