STORAGE SOLUTIONS

Explore our high-quality storage solutions, designed for durability and efficiency in warehouses, retail stores, and more.

Cable Trays | Lugs | Glands | Earthing | Solar | Storage Racks | Steel Fabrication

Heavy Duty Racks

Our Heavy Duty Racks are engineered for industrial use, safely storing heavy and bulky items. They provide robust, high-capacity storage for any warehouse.

Slotted Angle Rack

A Slotted Angle Storage Rack is one of the most common as well as most economical storage solutions for many applications. Composed of steel angles with pre-punched slots, the slotted angle rack can be configured in a multitude of ways for light to medium duty storage applications.

Mezzanine Floor

Mezzanine Floor is essentially a raised platform that is supported by steel columns and independent from host building. Modification allowed in layout to change the shape and size of the mezzanine's floor load capacity, number of access points.

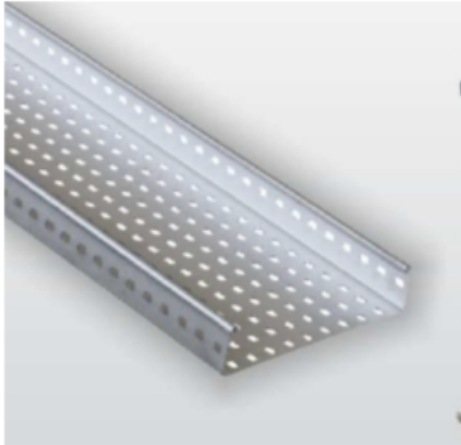

Cantilever Racking System

A cantilever rack is a specialized storage solution designed to store long, bulky, or irregularly shaped items such as pipes, lumber, and steel beams. It features horizontal arms that extend outward from a central column, allowing products to be stored without obstruction.
