

We are glad to introduce ourselves as the manufacturers of Spacer Rings for slitting line and we have expertise in Rubberising of Metal Spacers in Nitrile Rubber and Polyurethane (P.U.) Rubber.

Our Rubberised spacers get exported to over 50 countries. We are in the business since more than 40 years.

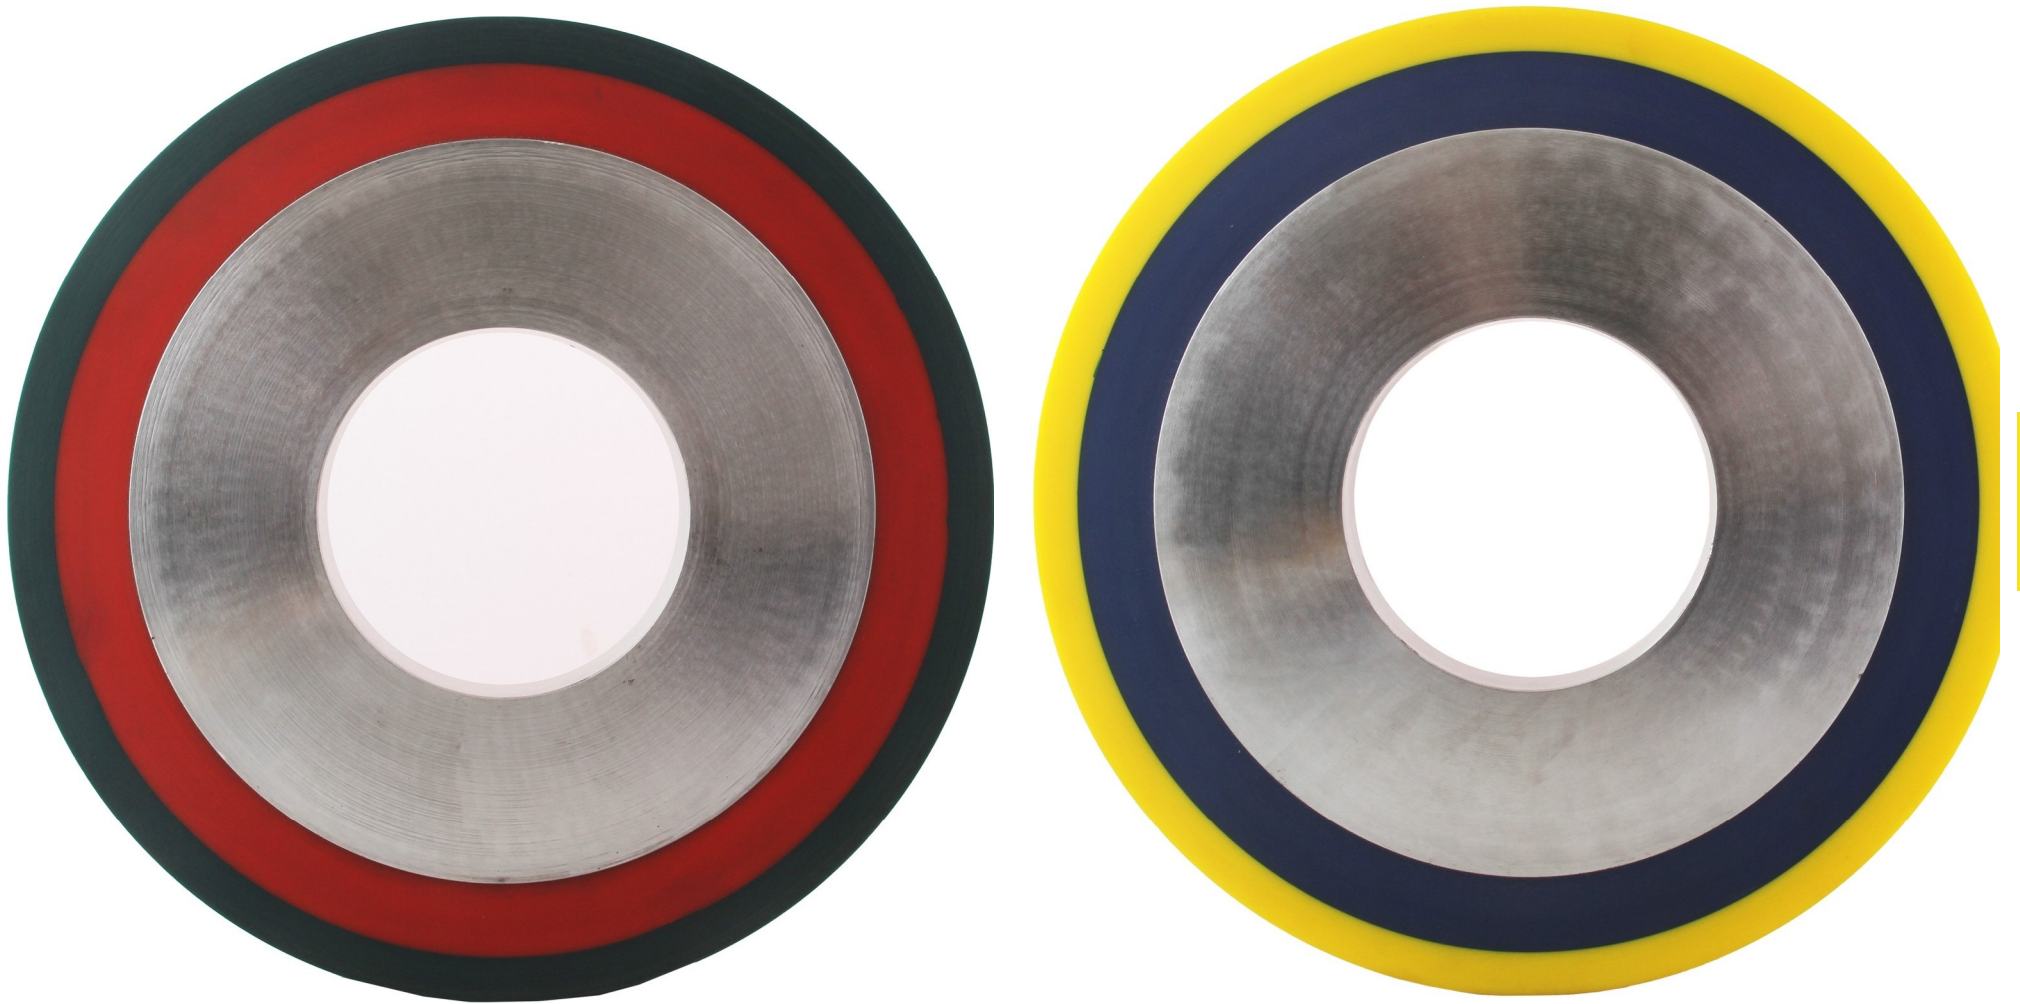

Our associate firm had received National Award for manufacturing quality industrial parts.

Our Company is ISO 9001 , 14001 & 45001 Certified Company.

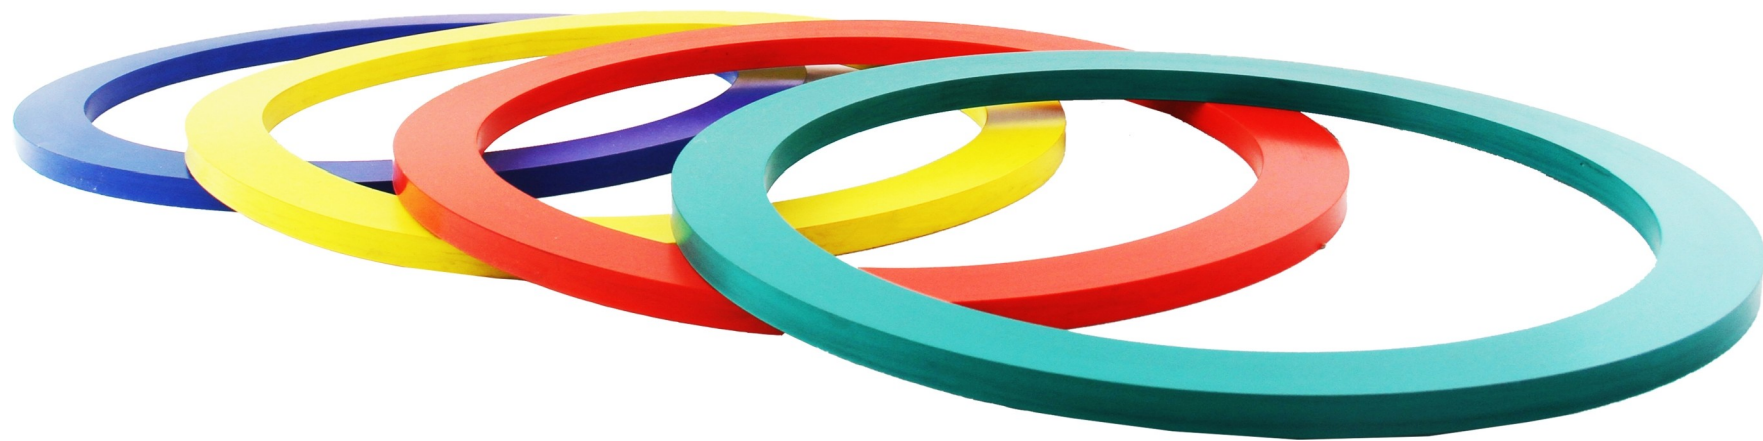

We also do Rerubberising of Metallic Spacers in nitrile rubber & Polyurethane Rubber. which has the highest abrasion resistance and can offer dimensional accuracy of plus minus 0.05 mm (+ / - 50 micons).

Rubberised metal spacer in nitrile Rubber

Dual colour dual hardness rubberised spacer in cast Polyurethane

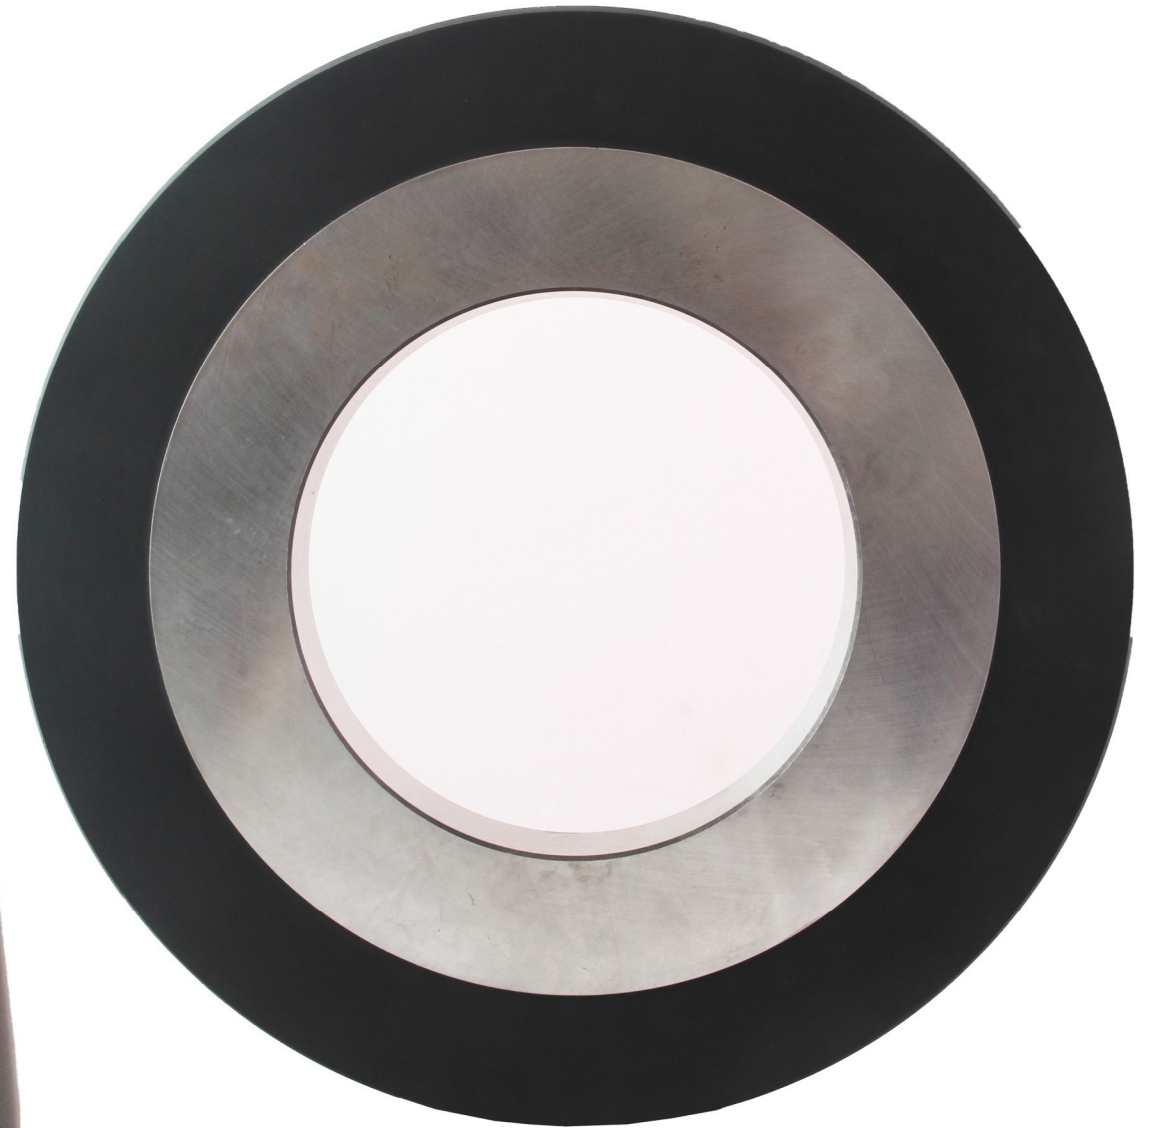

Spacer / Slitter rings in nitrile rubber

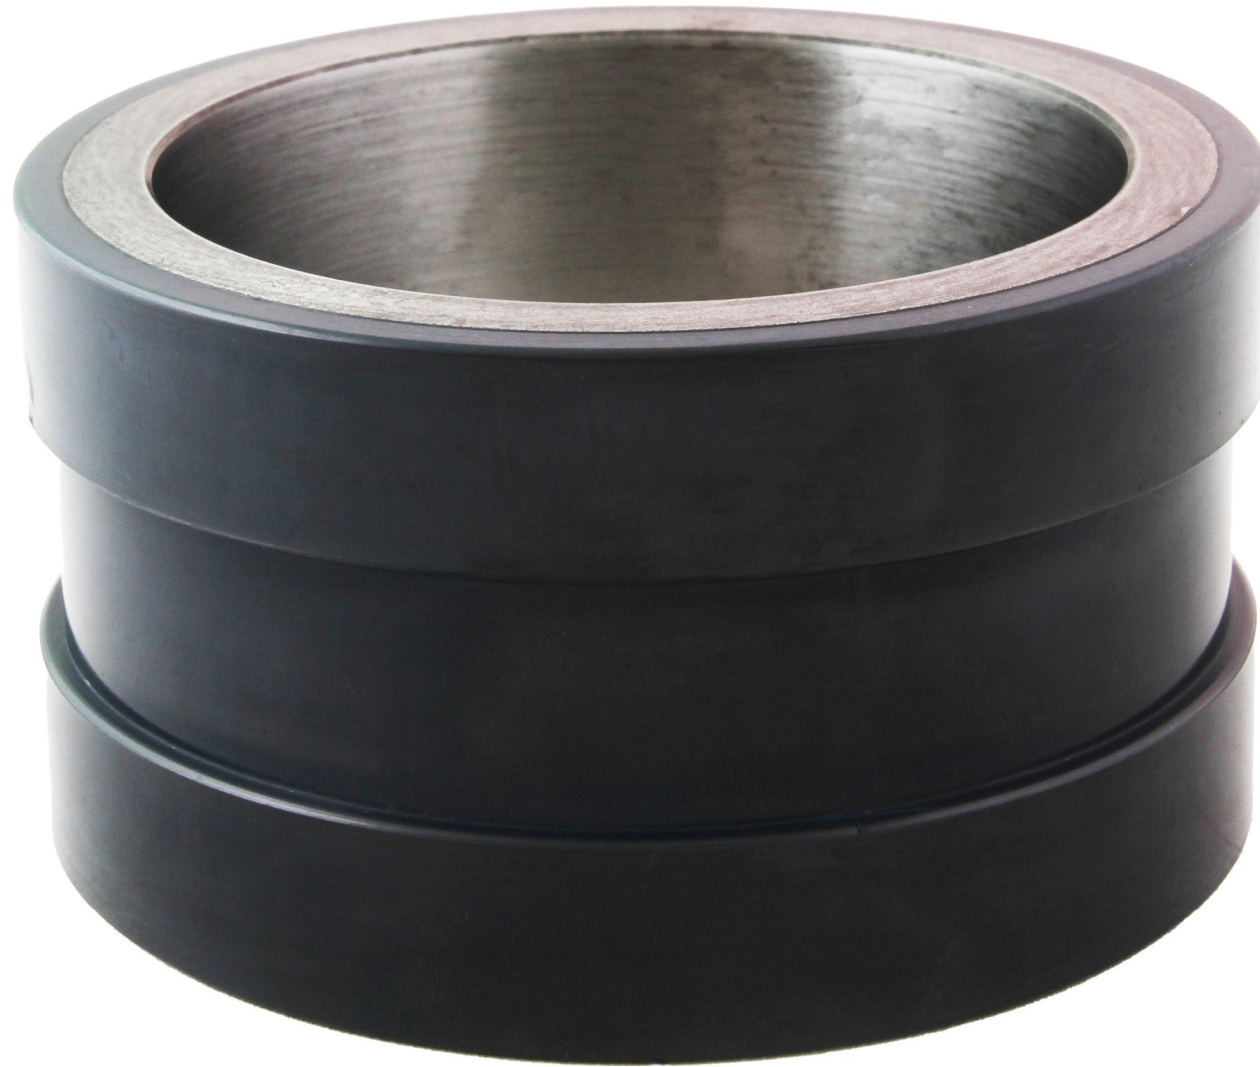

Tranlucent colour slit ring with magnet

Dual Color Dual Hardness in millable Polyurethane Rubber

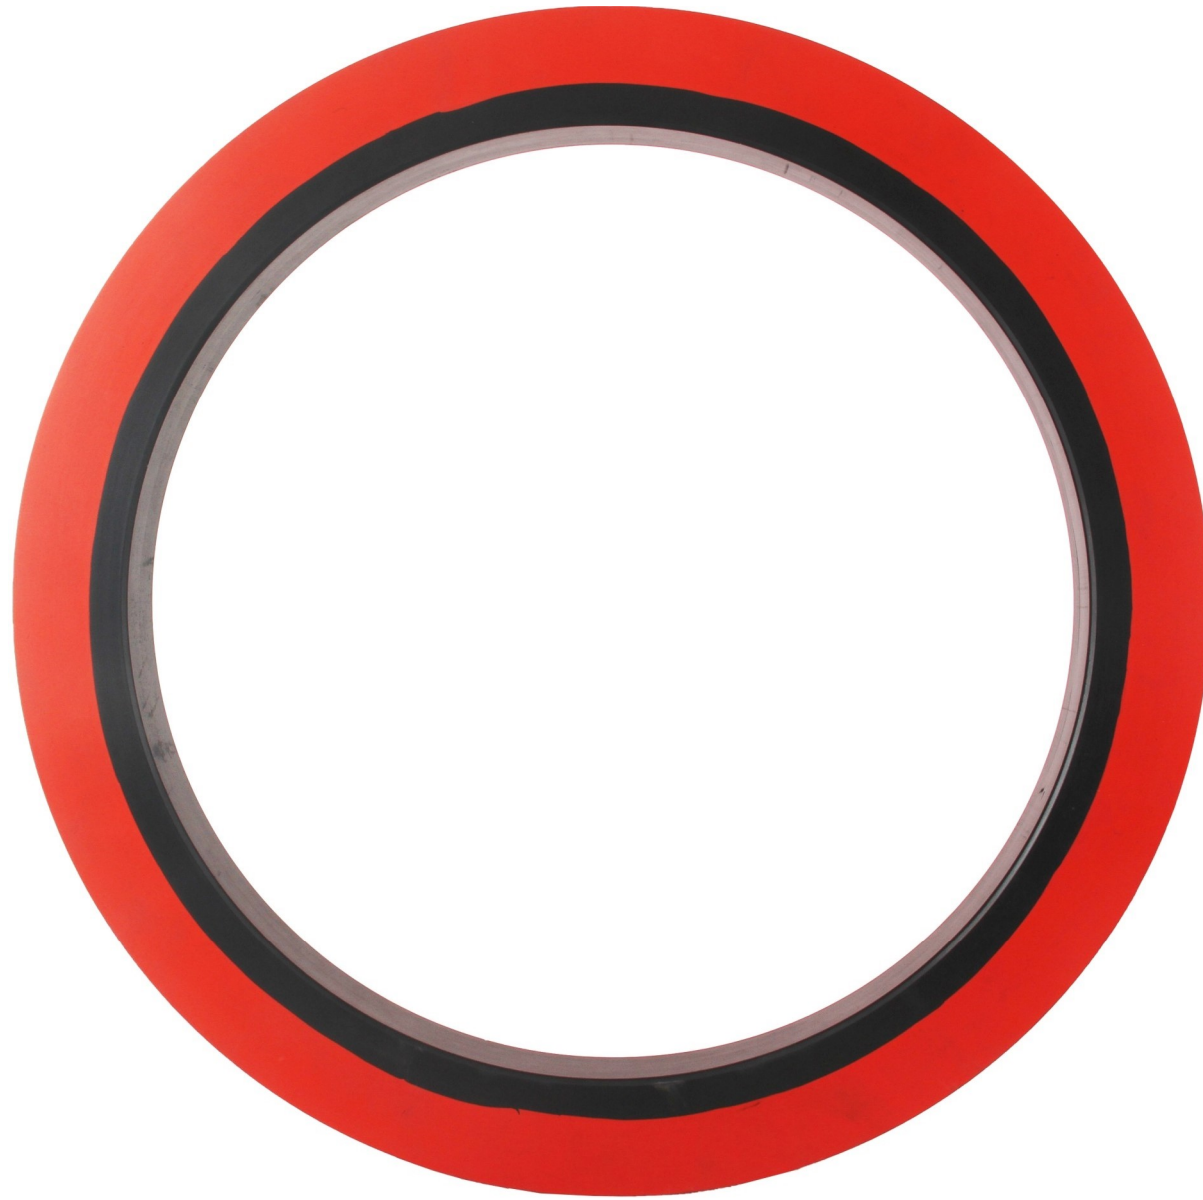

Rubberised spacer in cast
Polyurethane with champher

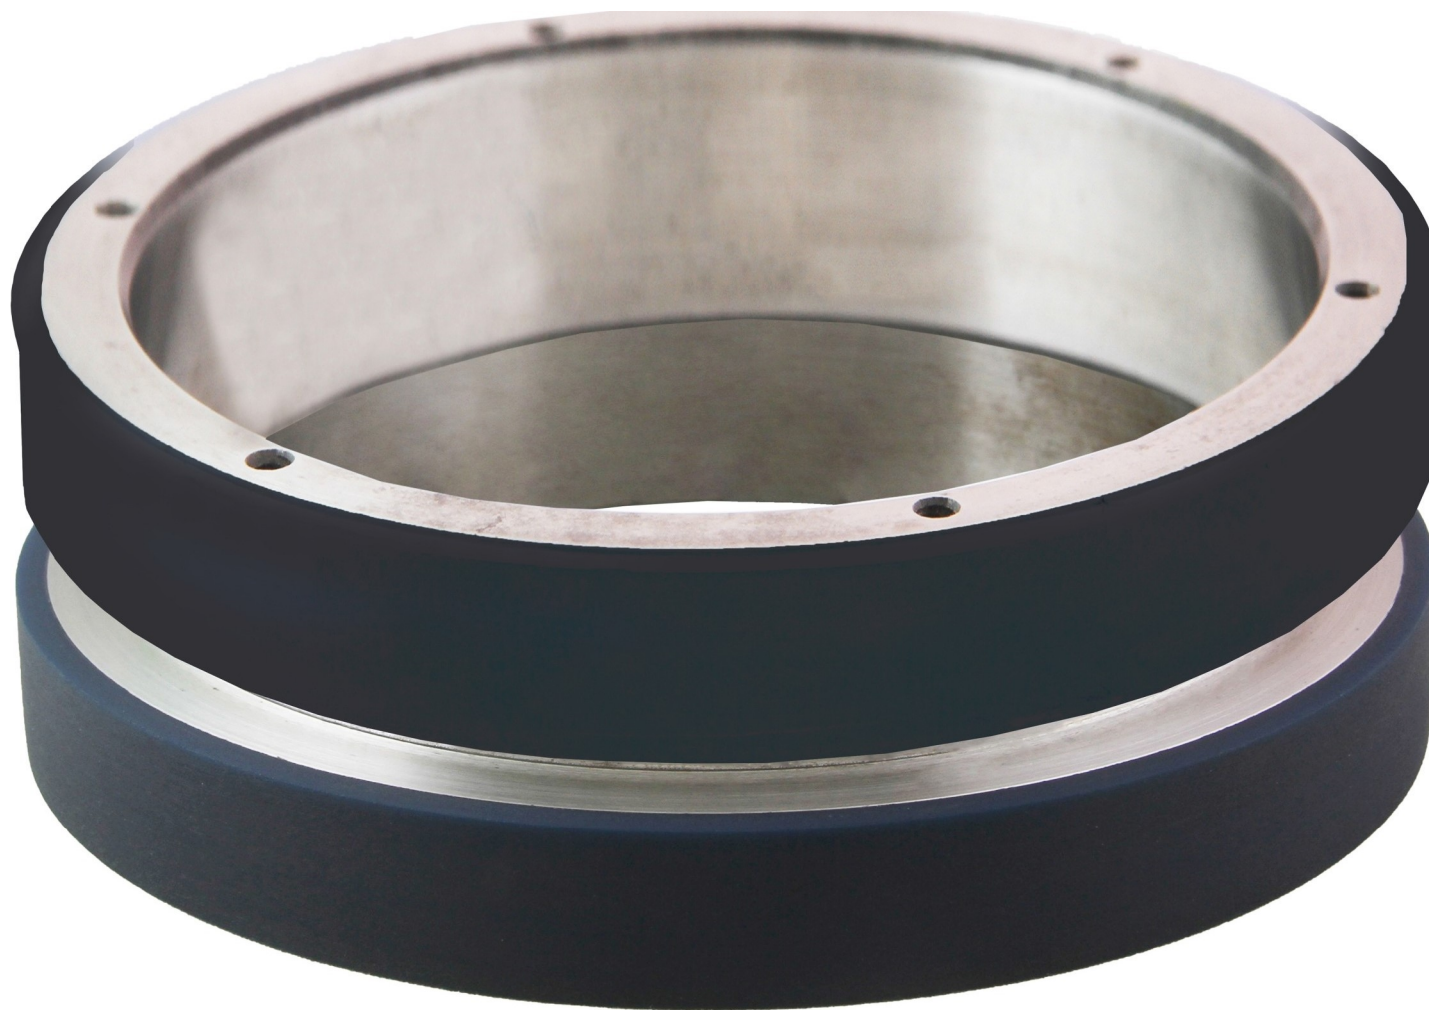

Rubberised metal spacer with groove

Thin size rubberised metal spacer (1mm)

Dual colour dual hardness spacer ring in nitrile rubber

Separator Disc Assembly

Multi color multi hardness Roller
Cast Polyurethane

Metal Bonded Cast Polyurethane Conveyor Roller
