CLEANING

FILLING
CRACKS

PUTTY

PRIMER

TOP COAT

CLEANING

Ensure that the surface to be painted is free from loose paint, dust, grease and algae, by vigorous wire brushing, cleaning with water.

SURFACE SMOOTHENING/CRACK FILLING

Asian Paints SmartCare Crack Seal can bridge cracks 3mm in width, by filling compound into both interior and exterior masonry surfaces.

PUTTY

Asian Paints TruCare Asian Wall Putty is recommended to smoothen the wall surface to prevent slight irregularities and imperfections such as holes, dents and cracks.

PRIMER

Before application of topcoat for fresh and re-painting surfaces apply a coat of Asian Paints Trucare Exterior Wall Primer.

TOPCOAT

Apply 2-3 coats by diluting 1 litre of Asian Paints Apex Ultima (XU) with maximum 400 ml of water. A gap of 4-6 hours should be given between two coats.

For Waterproofing Warranty, use the Duralife/Protek Base Coat

For Best Results, Use:

Asian Paints Trucare Roller 800 Exterio & Asian Paints Trucare Roller 590+
