

COOLING TOWER Manufacturer & Exporter of FRP Cooling Towers

Dear Sir,

We Introduce Ourselves , As One Of the Leading Manufacturers & Expoerts of Induced Draft Counter Flow Cooling Tower, in Single And Multi Cell. For Last 25 Years. We are in the Market and Have Supplied Cooling Towers To Many Industries In India. We are regularly Exporting Cooling Towers To Countries Like Dubai, Iran, Srilanka, Bangladesh, Africa, Yemen, etc.

Some Of Our Reputed Clients Are

M/s. Ordnance Factory, Indian Rail Coach Factory, M/s.reliance Energy(bses Ltd.), Larsen & Turbo Ltd., Nicholas Piramal Ltd., Hindustan Lever Ltd. & Mantralaya (mah. Government). Crompton Greaves Ltd. Bharat Bijli and World trade Centre Building (Mumbai).

Our Activities Include Servicing, Installation And Commissioning Of Cooling Towers & Spares. We Also Undertake Turnkey Projects.

Our Motto Is Customer Retention And Satisfaction Through Our, Services Offered.

Orientation:

Since the beginning the company has continuously developed cooling towers equipments to fulfill customer's needs.

Our guiding principle has been. The-desire to make simple system with2, proper design, excellence in manufacturing, stringent quality control, and skilled installation.

Products Range

We offer wide range of models from 5TR to 600TR in single cell and Multi Cells.

The cooling Tower is made up of tough fibre glass reinforced plastics and has sufficient strength to Withstand high wind velocity, Earthquakes and Industrial vibration. The motor is shock-proof and totally enclosed type as per IP-55. It is suitable for out door mounting. The fan is direct driven and of axial flow type. The fan blades are of cast aluminum / PP and completely Free from problems encountered with belt and gear drives. It prevents spray entrainment & reduces carryover losses of water. The eliminator is of rigid PVC. Corrosion resistant fill is made of polyvinyl chloride in honeycomb design. Sprinkler is fixed and designed to effect uniform distribution of water. Easy operating window is provided for inspection of water falling and distribution. Repair jobs can be easily executed through the window.
