AQUA J1 Water Softener is powered by an advanced and innovative ion exchange technology that makes hard water 100% soft. It comes in 5 different variants. So, choose the perfect Water Softener based on your usage and water quality.

SOFTENER MINI

- Max Flow Rate 600LPH
- Resin Quantity 6 Liter

Features

- No Electricity Require
- Easy to Operate
- Easy to Install and Ready to use
- Less Space Require
- Prevent Scaling

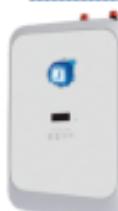

SOFTNER C-20/20AD, C-45/45AD

- Max Flow Rate 1200 LPH = 2000 LPH
- Resin Quantity 15 Liter = 30 Liter

Features

- Easy to install and ready to use
- Elegant designed, cabinet type water softener
- Brand Fully automatic microprocessor-controlling operation
- Display Current time, remaining soft water & current flow
- Inbuilt brine tank, brine valve and float assembly

BATHROOM SOFTNER

- Max Flow Rate 600LPH
- Resin Quantity 4.8 Liter

Features

- Elegant designed, cabinet type water softener
- Fully automatic microprocessor-controlling operation
- Can be easily install on wall and ready to use
- Automatic OBR calculation & settings
- Alarm-time to add salt

SOFTNER C1044 BFT

- Max Flow Rate 2000LPH
- Resin Quantity 46 Liter

Features

- Easy to install and Ready to use
- Fully automatic microprocessor-controlled operation.
- Unique LP-BFT Function to automation with Raw water supply.
- High Quality resin for long life and efficient ion exchange process.
- Compact design, stylish long durable cabinet.

SOFTNER 10 A

- Max Flow Rate 500LPH
- Resin Quantity 8 Liter

Features

- No need to be present at the time of regeneration.
- LCD display with 72 hours battery back up.
- Brine valve assembly with a float valve
- High-Intensity FRP resin tank.

AUTOMATIC FILTER + SOFTENER + C1044

- Max Flow Rate 3000LPH
- Resin Quantity 46 Liter

Features

- Easy to install and ready to use
- Elegant designed, cabinet type water softener and Sand Filter
- Fully automatic microprocessor-controlling operation
- Inbuilt brine tank, brine valve and float assembly
- Can be use for Individual Bungalows.

SOFTENER 100 FTR-BFT | 100E-BFT

- Max Flow Rate 3000LPH | 3500LPH
- Resin Quantity 75 Liter

Features

- R Series MPV with Big Display
- E (Q) Series MPV with Small Display
- Fully automatic microprocessor-controlling operation
- Display - current time, remaining soft water & current flow
- Can be use for individual bungalow

SOFTENER WITH SAND FILTER

300 FTR-BFT | 100E-BFT

- Max Flow Rate 3000LPH | 3500LPH
- Resin Quantity 75 Liter

Features

- R Series MPV with Big Display
- E (Q) Series MPV with Small Display
- Fully automatic microprocessor-controlling operation
- Incorporated Sand filter prevents turbidity to improve efficiency of softener's resin as well as quality of water
- Can be use for individual bungalow

Softener With Sand Filter S Series

300S | 500S | 200S

- Max Flow Rate 3000 LPH
- Resin Quantity 75 Ltr | 125 Ltr | 175 Ltr

Features

- Fully automatic microprocessor-controlling operation
- Incorporated Sand filter prevents turbidity to improve efficiency of softener's resin as well as quality of water
- Can be used at individual bungalow and before soft water storage tank.
- One MPV with Big LED Display can operate sand and softener.

Community Softener

300S | 500S | 700S | 2000S | 2000S

- Max Flow Rate 9000LPH
- Resin Quantity 275 Ltr to 1800 Ltr

Features

- Fully automatic microprocessor-controlling operation
- Display - current time, remaining soft water & current flow
- Brine tank with Brine valve, Brine well and perforated disk
- R Series MPV with Big Display
- Can be use before and after soft water storage tank
