

HAMERMAC

Hydraulic Rockbreakers with A Touch of Class

Hamermac Mining and Demolition Attachements

PREAMBLE

Hamermac, one of the leading players in the Rock Breakers industry offers World-class quality attachments for hydraulic excavators. With over a decade of experience in this industry, our desideratum is to offer superior quality equipments in terms of production and service as Customer Satisfaction is synonymous with Quality. We manufacture and design equipments that will deliver the best performance with minimal maintenance by ensuring durability. We are enlivened to lead the excavation attachment industry with avant-garde innovative technologies by taking into account the customer's requisites and inputs.

Hamermac Hydraulic Rock Breaker Advantages

- Great Power, Excellent Durability & Enhanced Usability
- Available from 0.8 ton to 75 tons of Excavator, Backhoe & Skid Steer Loader
- Suitable for universal works such as Trenching, Bench Leveling, Breaking in Quarries and Demolition Works.
- High Power to Weight Ratio
- Fullbox housing protects hammer and minimizes maintenance
- Vibration damping using high strength urethane cushions (Box Housing)
