STONEX SURFACE DESIGN

BESPOKE, TIMELESS, ARTISTIC, RESILIENT

OUR PROCESS

1 Design Co-Creation with Customer

- Colour selection (base and aggregate)
- Drafting of pattern (aggregate size & distribution)
- Base setting (thickness & pattern- jointless/with joint/inlays)

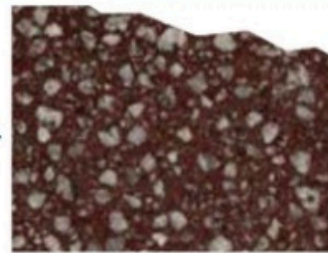

Once the design is developed, the colour shades will be confirmed, and samples will be created

Base

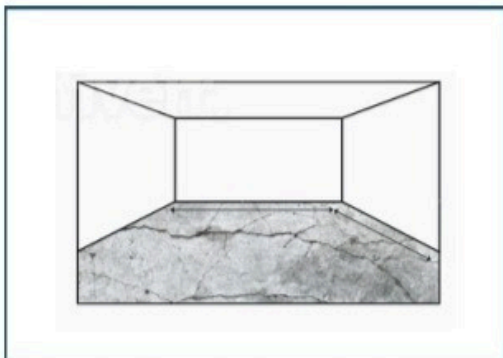

Aggregate

Final design selection

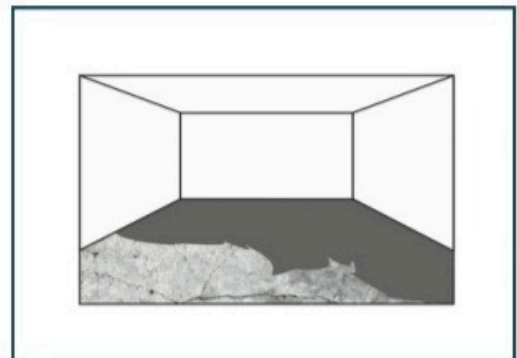

2 Space Recce

Site visit to assess existing floor base – level, moisture & cracks

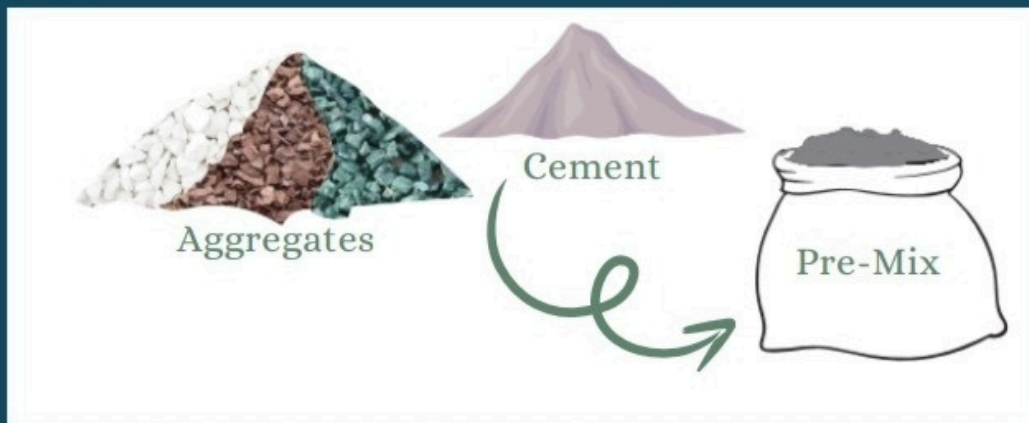

3 Space Correction

Ground will be leveled & primer will be applied

4 Terrazzo Pre-Mix Preparation

Lead time of 2 weeks required for preparation. Once prepared, the pre-mix is transported with care to the site in custom bags.

5 In-Situ Laying

Post application, the terrazzo is left to dry & cure for 7 days

6 Finishing Touch

Once dry, the terrazzo is ground, polished and sealer is applied
