

PNEUMATIC FIBRE GLASS SAW

FOR ALUMINUM, COMPOSITE,
FIBRE GLASS & TITANIUM

The AEROTECH AT-1114 Pneumatic Fibre Glass Saw is engineered for high performance cutting in aerospace and industrial applications. Designed for precision, control and durability, it ensures clean and accurate cuts in aluminum, composites, fiberglass and titanium.

IDEAL FOR

ALUMINUM

COMPOSITE

FIBRE GLASS

TITANIUM

TECHNICAL SPECIFICATIONS

	MODEL NO.	: AT-1114
	FREE SPEED RPM	: 3500 RPM
	MAXIMUM CUTTER BLADE DIA	: 2"
	MAXIMUM CUTTING CAPACITY	: 10 MM
	WEIGHT	: 1 KG
	OVERALL LENGTH	: 230 MM
	AIR INLET	: 1/4"
	EXHAUST TYPE	: REAR EXHAUST
	REQUIRED PRESSURE	: 5 to 6.3 BAR
	RECOMMENDED HOSE Ø	: 10 MM
	START TYPE	: LEVER

KEY FEATURES

- Powerful & Reliable Performance
- Precision Cutting for Clean Finish
- Lightweight & Ergonomic Design
- Durable Construction for Long Service Life
- Ideal for Aerospace & Industrial Applications

BENEFITS

- Smooth & Vibration-Free Operation
- Improved Productivity
- Consistent Cutting Quality
- Low Maintenance

AEROTECH MAKE SAW BLADE

- PART NO. AT-10-1

- ▶ Size 2"
- ▶ Saw Blade for ALLUMINIUM
- ▶ This saw blade Suitable for AT-1114

- PART NO. AT-20-1

- ▶ Size 2"
- ▶ Saw Blade for TITANIUM
- ▶ This saw blade Suitable for AT-1114
