Supreme

Supreme

Every Supreme product is not just made to be consumed but designed to create an Impact. Hence, Supreme has become a name of choice in every Indian household for quality and innovative plastic products. Our diverse product portfolio brings convenience, accessibility, affordability and, most importantly, adds value to everyday life. Supreme has always nurtured a positive and people-first attitude. We express our gratitude by bestowing dignity, equality and sensitivity to our workforce that persistently challenges the status quo with innovation and quality. Every business venture remains rooted in humility, curiosity, empathy towards stakeholders, and perseverance as we move toward sustainability, inclusivity, and success.

GASKET

Gasket sheet materials are sealants used for applications across chemical plants, refineries, thermal applications, etc. The design, materials and the quality of the gasket material will determine the performance of the gasket. In today's market, you will find different types of gaskets like graphite gaskets, silicone rubber gaskets, spiral wound gasket, PTFE gasket and others. Let's take a closer look at the features of some of the high-performance gaskets produced using high-quality non-asbestos gasket sheets.

PRESSURE SWITCH & PRESSURE GAUGE

- ▶ Danfoss pressure switches are electromechanical controls and limiters, that control the pressure of air and liquids within a given pressure range. All contact systems in Danfoss regulating units incorporate a "snap-action" system that maintains the contact force until the moment of contact break.
