

WHERE AMBITIONS MEET REALITY - COMPANY BROCHURE

"THE MODERN MACHINE MAGICIAN"

OUR MISSION

With the aim of providing a high-quality product and services under one roof.

OUR VISION

Accomplishing the best performance metrics within the industries we serve.

Engaged to serve precision work through imported machinery setup & manufacturing.

We follow five core principal – customer satisfaction, flexibility, technological innovation, integrity & Employee development

120, Shree Haridarshan Industrial Park, Nr.
New Maninagar Underpass, B/H GIDC
Phase-4, Vatva, Ahmedabad-382445,
Gujarat.

YEAR OF ESTABLISHMENT

2017

NATURE OF BUSINESS

Precision machining work and
Manufacturer

NUMBER OF EMPLOYEES

3 – 5 People

MAJOR MARKETS

India and it's Subcontinent

ABOUT US:

Established in 2017, Krishna Engineering Works has established and sustained a successful business by developing expertise to doing all kind of precision works as per client expectation. We follow harsh and rigid quality control measures at every level of our process that hardly leaves any corner for quality degradation. The company is managed and promoted by a group of qualified professionals having versatile knowledge of the discipline. Our sincere approach towards product innovation and client satisfaction has helped us to earn a huge market base in both domestic and international market. The company has ventured into a massive expansion programmer to cater to the increasing market demand.

QUALITY POLICY/PROCESS:

We are working with the only motto of providing our valued clients with superior products at the most affordable prices. The production is carried out under the strict supervision of trained professionals who are experienced enough to foil every attempt on the quality front. We employ the finest quality of Aluminum, Stainless steel, iron, steel cast, and other raw materials in our process which is purchased from reputed agents of the market. All the products are thoroughly inspected by our experts for their strength and hardness, thus allowing the movement of only best products to the market.

INFRASTRUCTURE:

Infrastructure in Krishna Engineering works is a perfect amalgam of creative brains and modern technologies to serve for its reputed clients. We regularly upgrade our technological strength in order to deliver the most advance range of products at economical prices to our clients. The company also owns a huge storage facility which is capable of storing goods in bulk quantity.

MACHINERY DETAILS:

Machine	Dimensions	Nos.
HAAS VF-2	762 x 402 x 500	1
HAAS VF-4	1270 x 505 x 650	1
LMW	200 Dia. x 650 Length	1

PRODUCT DETAILS:

We are doing all type of job work like, Die, Moulds, Jig fixture, mass production works for drill & tap, CNC milling, CNC wirecut ,Helical gear, Internal helical gears, Worm wheel, Bevel gear, Spur gear, Pinion gear, Sprockets gear etc.

We also do machining of precision components on horizontal boring machines, floor boring machines, plano miller, heavy duty lathes & radial drill machines works.

Why Us:

Our vision is clear, that is being the market leader achieving our motto is to deliver error free product on time with best quality, we have the machinery with latest technology. We have efficient and dedicated man power.

We have the capacity to provide quality products are doing all type of job work like as per client requirement. Our ethical business practices, transparent dealings are our plus points to bring our company to the top of the industry.

OUR BEST SERVICES

Our expertise in manufacturing precision machined components for various industries, including aerospace, automotive, mechanical, micro-machining, healthcare, defense, industrial, and more. We will achieve our mission objectives through comprehensive product quality and efficient supply chain management.

- 01 TEXTILE INDUSTRIES
- 02 AUTOMOBILE INDUSTRIES
- 03 AEROSPACE INDUSTRIES
- 04 PHARMACEUTICAL INDUSTRIES
- 05 DEFENSE INDUSTRIES
- 06 VMC AND CNC MACHINED PARTS
- 07 CUSTOM FABRICATION SERVICES
