FOUNDERS NOTE

I remember the early days, when my team and I worked hard to manufacture tissue paper products in small quantities. However, as the demand for tissues grew, so did our passion and commitment to the highest quality standards.

Today, we have a state-of-the-art manufacturing facility that allows us to produce millions of units of tissue paper each year. Today we have over 50 machines that produce all types of tissue paper. Our factory is spread over 35000 square feet in Mumbai City.
