TECHNICAL SPECIFICATIONS (HYDRAULIC GOODS ELEVATOR)

PARAMETER / SPECIFICATION	STANDARD CONFIGURATION	HEAVY DUTY OPTION
Load Capacity	500 kg – 1,000 kg (1 Ton)	1,500 kg – 5,000 kg (1–5 Ton)
Lifting Height / Travel	up to 12 Feet (3 Meters)	up to 30 Feet (9 Meters) / G+3
Platform Dimensions	1200 mm × 1200 mm (4×4 ft)	Custom / Up to 10×10 ft
Motor Power Rating	2 HP – 3 HP Electric Motor	5 HP – 10 HP Electric Motor
Structural Material	Mild Steel (MS) Anti-Rust	Heavy Channel Steel Reinforced
Safety Enclosure	Side Railings & Caged Doors	Full Interlocking Safety Cage

COMPLETE PRODUCT PORTFOLIO

Hydraulic Goods Lifts

- **Wall Mounted Goods Lift:** Space-saving design requiring zero pit space.
- **Heavy Duty Industrial Elevator:** Engineered for continuous warehouse pallet transfer.
- **Double Mast Lifts:** Dual guide support for balanced, high-capacity loads.

Hydraulic Scissor Lifts

- **Stationary Scissor Platform:** Ideal for loading bays and assembly lines.
- **Movable Scissor Lift:** Towable wheel-mounted structure for overhead facility maintenance.
- **High Capacity Tables:** Custom deck sizes built for heavy industrial dies.

Material Handling Equipment

- **Hydraulic Stackers:** Manual & semi-electric paper reel / drum stackers.
- **Pallet Trucks:** Heavy-duty hydraulic hand pallet trucks for floor transport.
- **Floor Cranes:** Compact hydraulic folding cranes for workshop lifting.

Residential & Commercial Lifts

- **Hydraulic Passenger Lift:** Compact 4-person capacity home elevators.
- **Bungalow Lifts:** Glass enclosed structural outdoor lifts for modern homes.
- **Hospital Elevators:** Smooth vertical transport platforms for medical gear.

QUALITY ASSURANCE & ENGINEERING FEATURES

FEATURE	ENGINEERING ADVANTAGE
Hydraulic Safety Valves	Hose-burst protection and check valves prevent sudden pressure drops or free-falls.
Dual Chain Drive System	Heavy-duty Leaf chains provide smooth, balanced lifting with redundancy safety factors.
Anti-Slip Platform Floor	Chequered steel floor plate ensures secure grip for trolley wheels and operators.
Low Maintenance Design	Precision-machined hydraulic cylinders with self-lubricating wear strips reduce down-time.
