SURGICAL

Welcome

A.K Surgical is a company based in Delhi (India). We have expertise in urology products. Our Product Range consists of intracorporeal Pneumatic Lithotripter, Uroflowmetry as well as vital Endoscopic Accessories urological disposables and Laproscopy instrument.

Our Vision

Our vision is to let the people especially medical society to visualize the vigour of smooth working and users friendly urological equipments which are best in efficiency and accuracy point of view maintaining international standards and keeping pace with modern developments.

Our Mision

Our mission is to provide cost effective and quite trustworthy equipments in the hands of global medical society practicing urology and striving for resuscitation.

About Us

AK SURGICAL

Domestic Market

So far as a domestic market is concern, it is subjected to direct marketing. Our sales executives are used to visit various potential destinations to survey the market, procure orders and even monitor the position of the products supplied so as to solve grievances, rather to increase credibility and confidence among the existing customers which naturally attract the market, thereby increasing our clientele.

Reseach & Development

Our Research & Development is constantly engaged to develop various new equipments. Our R&D Team work on the feedback which come from the market to improve the product quality. Our R&D efforts give fair touch to the existing product and bring forth the ultra modern products. Our all products are the result of the keen efforts of our R&D team.

Quality

We are always conscious to provide good quality products. we are also very conscious to provide the products which is very comfortable to user including its good sophistication look and effectiveness in work. This is only the reasons that we could stand before the competitive market.

Litho Digital Plus

SURGICAL

Introduction

ln litho digital plus is a unique device for intracorporeal stone fragmentation by "Direct contact lithotripsy under direct vision endoscopic control. Litho digital plus is most reliable and found to be most economical and safe form of lithotripsy for stone fragmentation in Kidney, ureter and urinary bladder, hence proved to be most appreciated alternative in today's cost conscious market.

Unique Features

- The control unit is made up of ABS (Acrylonitrile butadiene styrene) plastic body which provides strength as well as admirable appearance.
- Highly adaptable design which makes it compact and light weight.
- lithodigital plus having digitally controlled pulse mechanism which provide Definite result in single as well as continuous operating mode.
- In lithodigital plus control unit, handpiece and prob are well synchronize and balance such a way that it provides safety to endoscope and stone migration.
- In lithodigital plus having unique design which overcome thermal obstacle for better performance of system.
- In lithodigital plus is having digital indication of pressure which provide more measurement of pressure compare to Litho Digital.
- It has two modes of operation , single and continuous mode ,In continuous mode are varies form 1 pulse per second to 12 pulse per second.

☛ Foot Switch

☛ Oxygen Regulator

☛Handpiece

☛Probe

Technical Specifcation

- Line voltage/Rated current/ Frequency : 85-265 VAC, 50-60 Hz, 100mA
- Power Consumption & Operating Temperature: 20watt & 0° C- 60° C
- Input Gas: Oxygen/ Compressed dry air
- In Let Pressure (Minimum):0.7 Kg /cms^2
- In Let Pressure (Maximum) : 5.0 Kg /cms^2
- Out let Pressure Indication:0-5 Kg/ cms by digital display.
- Modes of Operation : Single Pulse mode & Continuous Pulse mode
- Dimension: 220 mm X 126mm X 196mm (w Xh Xd)
- Weight: 1120 gms
- Litho Prob Sizes: Ureteroscopy :0.8mm, 1mm, 1.2mm, 1.5mm/L 610mm
- PCNL (Miniperk Prob):0.8mm, lmm, 1.2mm, 1.5mm /L 450mm
- PCNL: 2mm, 2.5mm /L 450mm
- Lithobridge Probe : 1mm , 1.2mm , 1.5mm/L 460mm

Uroflowmetry

AK SURGICAL

Sensor With Beaker

Urofowmodule

Exclusive Features

- ➡ Light weight ,compact and economical with user friendly LCD interface.
- ➡ 32-bit Advance Micro controller based LCD display unit with highly reliable SMD (Surface Mount Device) technology.
- ➡ Driven by most reliable embedded Operating system DMS SILOS OS with 24 bit high accuracy ADC(Analog to digital converter) measurement.
- ➡ Sensor is made up of high density material which is corrosion and rust free.
- ➡ Successive test can be taken out without empty the beaker after every test upto 850 ml for 1000 ml and 1700 ml for 2000 ml of beaker respectively.
- ➡ Multiple printouts for 5ml/div and 10 ml/div.
- ➡ Sensor not Connected" message on modem display in case of not connection or loose connection of cable with modem port.
- ➡ LCD as well as LED indication of "beaker full" message above 850 ml for 1000 ml and 1700 ml for 2000 ml of beaker respectively.
- ➡ Memory saving of last graph in case of power failure.
- ➡ Funnel and beaker are easy to clean and reusable.
- ➡ LX-310 Epson dot matrix printer.
- ➡ The uroflowmetry system is auto calibrated.

Chair With Funnel & Beaker

Printer

TECHNICAL SPECIFICATION

➡ Line Voltage/Rated current/Frequency	:	85-265 VAC, 50-60Hz, 50 mA
➡ Power Consumption & Operating Temp	:	Below 10 Watt & O°C to 55°C
➡ Maximum Micturition time	:	60 Sec Normal, 300 Sec Extended.
➡ Maximum Capacity for Single Micturition	:	1000ml/2000ml
➡ Automation Graph Compression	:	Above 50 Sec up to 300 Seec
➡ Repeat Copy	:	Selected in Two Mode 5 ml/10 ml per Second
➡ Sensor	:	Precise Strain Gauge Technology
➡ Dimension	:	151 mm x 116 mm x 196 mm (w x h x d)
➡ Accuracy	:	+/- 5% voided volume in Reading +/- 2% voided volume in Full range

LED Light Source

SURGICAL

Features

- Digltal PWM Control
- Control: Capacitive Touch, 20 step dimming for more precise control
- Memory: Last setting.
- LED Temp warning : Warning on display if temperature is nearing unsafe zone. This allows time to arrange replacement. Auto cut-off on reaching unsafe zone.
- Color Integrity: Use of CPC Technology instead of glass lens, White ight for longer period. Fall resistant up to 3 feet height.
- Safe Light: Light Cable detection. Enters Standby when no light cable.
- Scope Safety: Broad and Narrow Telescope selection for fiber safety .
- Classification and Approvals: Complies with medical safety standards IEC 60601-1:2005
- Complies with medical EMC standard Class 1 Equipment Type CF applied parts Water lngress Protection, IP54 Ordinary Equipment

FIBER OPTIC CABLE

Technical Speci¿cation

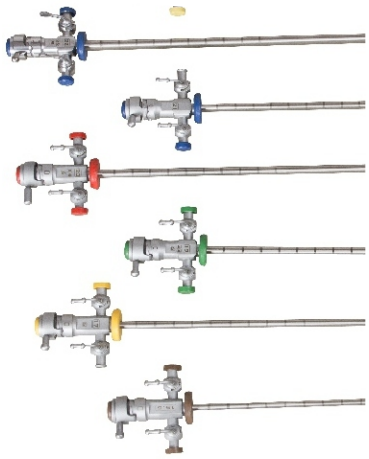

- Light Engine: High Power Luminous LED
- LED Life: 50000 hours
- Colour temperature: 6500 k
- Brightness: 3800 Im at light Source.
- Light intensity: Equivalent to 180 W Xenon and above
- Fiberoptic Diameter Range: 2 mm-6mm
- Optical Cable Compatibility: Default Storz type (Custom for olympus, Wolf and styker)
- Control: Touch screen, 20-step dimming for quick intensity control Size : 310 x 120 x 330, Weight: 5.5 Kg
- Electrical: Primary: 100-240 VAC, 50/60 Hz, Power Rating 150 VA, Fuses: Two
- Operating Condition: 5-40° C, 30-95% Relative Humidity
