We have been serving the printing industries, the pharma industries, having all the modern equipment's and machineries that are necessary for developing and manufacturing of printed products.

Know us

Amal Offset Products

Is Private Limited Company duly incorporated under the companies Act 1956 on 2nd January 1992. In the year 1992, the Company set-up a unit to manufacture photo litho offset plates used for offset printing. With the introduction of Pre-Sensors (PS) plates, the market for photo litho plates suffered major set back and hence in the year 1998 the Company decided to set -up offset printing unit.

With increasing demand and good response company also purchased advance machinery (CPC 5 Alcolour Printing) with computerized programming..

Our culture

The Way We Work

Curiosity and innovation are pre-requisites
We value planning and discipline
We always deliver on time.
We reward and celebrate success

What We Believe

Big ideas require hard work, continuous Learning and an Open mind.
We believe that small details make a big difference.
We encourage human diversity.

QUALITY

is the result of high requirements.
And excellent processes.

R&D

Capabilities:

We have team of qualified employees with required competency of our origination.

SUITABILITY

for

Emergency job treated on priority bases.

QUALITY

Orientation:

We never compromised on quality we also take lapses in quality very seriously and compromised on this front are almost never tolerated.

FLEXIBILITY:

Also delivery commitment is important to us they should never be made by compromising on quality and quantity.

INNOVATION

Offset Printing on L.D. Foam, HM/Non Woven Bags, Paper Bags, Nylon Bags.

The Design Studio

We do what we love, and we love creating Brand Identities, Web Designing, Packaging Designing, Graphic Designing, Logo Designing and lot, etc.

Branding

At Amal Studio we provide a step by step process to create a logo. We begin with getting a detailed brief about your company and what you perceive your Brand to be. Most of our options get finalised within the second round of sending logos and then before you know it, you're done!

Graphic design

Graphic design is used by companies to promote and sell products and services in a more visually appealing way. It is also a simplification of information into graphics for a user/audience to better understand the product or service.

Website design

Your website is like a digital brochure for your audience. Just like our website is for you at this very moment! However, it's not just about the website design and the fact that it's live. Making complicated websites are a big no-no! Simple, clean, classy and most of all user friendly!
