

# Automatic Air Inflator for Petrol Pump

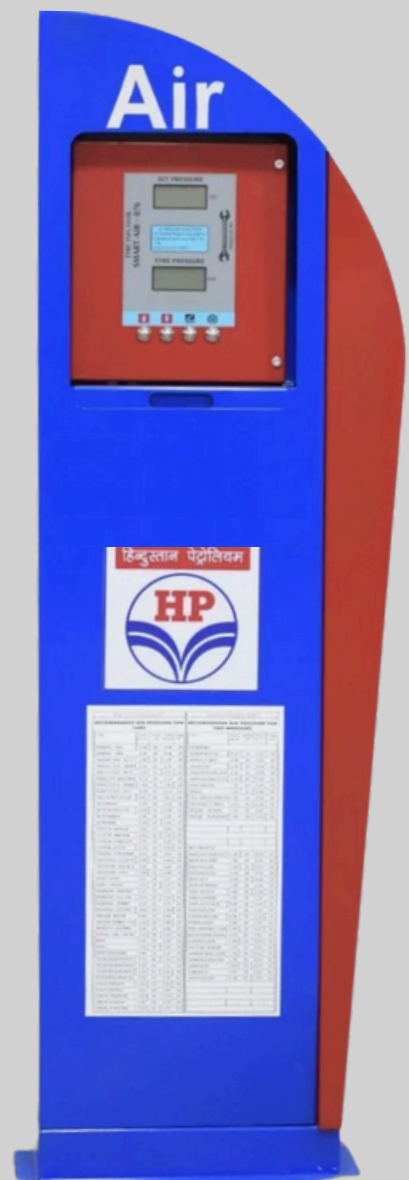

The Automatic Air Inflator for Petrol Pumps is designed for high-precision and effortless tyre inflation. Engineered with advanced technology and durable materials, this inflator ensures accurate air pressure control, making it an essential addition to petrol pump outlets. Its automatic functionality enhances efficiency, providing a seamless and user-friendly experience for customers.

**Ideal for petrol pumps with high-traffic usage.**

**Customizable color options as per requirements.**

**Reliable and durable for long-term performance.**

**Automatic tyre inflation for precise and consistent pressure control.**

# TECHNICAL SPECIFICATION

<b>Air supply</b>	150 PSI maximum Operating Pressure
<b>Power Requirements</b>	230V +/- 10%
<b>Accuracy</b>	+/- PSI
<b>Resolution</b>	1 PSI
<b>Power Consumption</b>	60 Watt
<b>Inflation Range</b>	3 to 150 PSI
<b>Inlet Air Pressure</b>	7 to 10 kg/cm <sup>2</sup>
<b>Temperature Range</b>	-20 deg C to 70 deg C
<b>Inlet Supply Connection</b>	1/2" BSP
<b>Hose</b>	10 meter hose with air chuck
<b>Display Model</b>	1" Dual LED Display
<b>Weight</b>	27 Kg
