# Long Life High Durability HDPE Power Ducts

## Features

- Permanent lubricated (silicon) inner layer reduces friction and facilitate easy & low force cable insertion
- Facilitates cable installation through HDD/ blowing/ open trenching
- Flexible for easy installation & reduces use of accessories
- Crush resistant & high impact strength
- Low friction inside surface reduces pull force requirement significantly protecting cable damage due to tensile force
- Duct size : 20mm to 500mm

## Application

HT/LT Cable

Telecom

Internet

Fiber optic

Security

Communication

## Colour

Available All colour/ shades as per bureau of Indian Standard, IS 9938

## Option

Fire Retardant  
(FR) (UL94)

Anti rodent

Ribbed  
Inside &  
Outside

With  
Rope
