

Rawat Cattle Feed Pellet Making Machine

Engineered for Efficiency, Built for Durability.

Optimize your livestock nutrition with the **Rawat Cattle Feed Pellet Making Machine**. Designed by **Rawat Impex**, this robust machine is a powerhouse for farmers and commercial feed producers looking to streamline their production with high-output reliability.

Core Highlights

- **Warranty:** 1-Year Comprehensive Warranty
 - **Origin:** Proudly **Made in India**
 - **Brand:** Rawat (Marketed under Generic/Imported specifications)
 - **Manufacturer:** Rawat Impex
 - **Customer Support:** Dedicated Support Available
-

⚙️ Technical Specifications

Feature	Specification
Model Name	Cattle Feed Pellet Making Machine
Output Capacity	500 kg/hr (Varies by pellet size)
Motor Power	10 HP
Power Source	Three Phase
Voltage	440 V
Power Consumption	~6 Units per hour
Weight	Approx. 127 kg

🔧 Build & Design

- **Triple Roller System:** Features a **3-roller setup** for uniform pressure and superior pellet density.
- **Heavy-Duty Body:** Constructed from high-grade **Cast Iron** for vibration dampening and long life.
- **Differential Gearbox:** Equipped with a professional-grade differential gearbox for smooth power transmission and reduced maintenance.
- **Premium Materials:** The feed hopper is made of **Galvanized Iron** to prevent corrosion and ensure hygienic feed processing.

🏭 Production Details

- **Pellet Size:** Standard **8 mm** (Ideal for cattle and livestock).
- **Hopper Capacity:** 12 kg (For continuous feeding).
- **Plate & Roller Size:** 3-inch (7.62 cm) precision components.

Why choose Rawat? > Our machines combine the heavy-duty builds of Indian manufacturing with the precision of modern gear systems, ensuring you get maximum output with optimized power consumption.
