Features and Benefits of packaged MBR

- Pre-assembled and pre-skidded equipment package
- Meets the guidelines of KSPCB/CPCB
- Compact with Plug & Play, pre-mounted, pre-piped and pre-wired
- Factory assembled and tested to minimize installation and commissioning
- Modular add-on packages from 10cmd to 600cmd and available to customize as required
- Minimal operator attention saves time & maintenance cost

Welcome to Daksha Greentech International.

Water is the most important natural resource in the world. It needs to be preserved for our future generation. The main objective of our company is total protection of the environment. Due to Industrialization, development of new residential localities and improper disposal of industrial & domestic sewage & garbage, the environment is facing serious threats. For instance, the acute water shortage is a matter of grave concern for the global community and warrants strict measures to conserve it. In such scenario, there is an imperative need to plan concrete strategy and take effective measures for the protection of natural resources and ultimately, the environment, to ensure a better and healthier tomorrow.

We are Bengaluru based., renowned company dealing in all water and waste water related issues. We emphasis on our commitment to quality and focus on environmental protection.

Our products like Water Treatment Plants, Wastewater Treatment Plants, etc are developed by using state-of-the-art technology to sustain the ecosystem. It is designed in conformation with national and international standards of quality. Also, none of the product leaves our premises with any fault or defects. Further, we are working under the able guidance of honourable promoters who hold rich experience in consultancy and designing STP, ETP & WTP with updated technologies.

OUR MISSION: To build long term relationships with our clients and provide quality services that exceeds the expectations of esteemed customers through providing advanced technologies,

OUR EXPERTISE IN DESIGNING, INSTALLATION & COMMISSIONING OF:

- DOMESTIC SEWAGE TREATMENT PLANT
- INDUSTRIAL EFFLUENT TREATMENT PLANT
- WATER TREATMENT PLANT-PRESSURE FILTERS, SOFTENERS, DM PLANTS
- REVERSE OSMOSIS PLANTS & PACKAGED DRINKING WATER PROJECTS
- ULTRA FILTRATION PLANTS
- OZONE GENERATORS
- BIO-GAS PLANTS
- ORGANIC WASTE CONVERTERS.
