Berlia

Corrugated Duct

BERLIA[®]
HDPE PIPES

Features

- Used for cable laying with great flexibility in various government and non government projects worldwide.
- Inner self lubrication for low friction cable insertion through blowing /or manual insertion
- Manufactured as per IS: 14930 (Part-2), BS EN 50086 (part-2 to 4), IEC-61386- (Part-2), BSNL GR/DWC-34/01
- Continuous length in coil form with Injection printing on surface of pipes including meter marking for exact measurement of length during installation
- Presence of Anti-oxidant & UV protection chemicals enable duct to long last in open exposure to sunlight
- Special corrugated design provides more strength in comparatively light weight duct, hence its more cost efficient
- Suitable for indoor/ outdoor applications
- Available in sizes 40/32, 50/38, 63/51, 76/63, in length of 6 meter/9 meters/ coil form

Application

HT/LT Cable

Telecom

Internet

Fiber optic

Security

Communication

Colour

Available All colour/ shades as per bureau of Indian Standard, IS 9938

Option

Fire Retardant
(FR) (UL94)

Anti rodent

Ribbed
Inside &
Outside

With
Rope
