COOLING TOWER ANTISCALANT

GET RID OF RUST AND
WATER SCALES

CHANGES WE SEE IN COOLING TOWERS AFTER USING COTA (cooling tower antiscalants)

- HVAC Cooling Towers
- Industrial Cooling Systems
- Power Plants
- Process Industries

- Prevents Scale Formation - Controls calcium carbonate, calcium sulfate, and silica deposits.
- Disperses Existing Deposits - Keeps heat exchanger and pipelines clean.
- Improves Heat Transfer Efficiency - Ensures smooth cooling performance.
- Extends Equipment Life - Protects cooling towers, condensers & chillers from scaling damage.
- Compatible & Easy to Use - Works with all types of cooling water systems.
