Why Hire Professional Designers?

Design is not just what it looks like and feels like.

Design is how it Work. (Steve Jobe)

- Avoiding Costly Mistakes.
- Knowledge of Current Trends and Quality Brands.
- Because you can't invest as much time.
- Because we can make space more functional.
- Because we have ample resources and the best contact just a call away.
- Because we will offer you value for Money.
- Because you'll still need a professional liaison.
- Because we will give you best as per your budget.
- Because we give creative ideas and stay to on trends.

Hiring Interior Designer

Phase 1

DESIGN & FEASIBILITY (This initial phase of the project includes preliminary studies of the site . We will find out more about you and your design ambitions for the project along with your timescales & budgets, We'll work with you to build a detailed brief and identify your design preferences).

Phase 2

TECHNICAL & SUPERVISION (Concept Design is the beginning of the creative process. We'll develop architectural layouts for your property and decides finishes along with 3d of site. parallelize go through internal layouts and technical implementation of the design).

Phase 3

CONSTRUCTION & PRODUCTION (We've completed the construction details design , the tender process begins. we work with our design team and finalize agencies for the project as per budget).

Phase 4

INSTALLATION (While the project is ongoing we will work closely with the agencies to achieve the successful implementation of furniture design, Plumbing, electric flooring, & ceiling, along with the installation and completion of project).

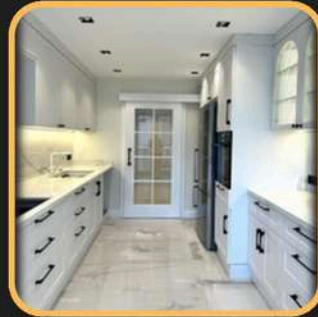

Phase 5 :-

HANDOVER & POST PC (After project completion we will visit site to inspect all the works & prepare a schedule of defects if required and suggest remedies for the same or get things done by us if needed).

Glimpse of Our Work

Modular Kitchen & Wardrobe:-

"A kitchen has different flows and work areas that need to be integrated throughout that need of the user is fulfilled. A dining room is for consuming food so is usually adjacent to the kitchen for convenience in serving."

Bedroom:-

"Bedroom are private space which has to be designed as per the users need so they have to be personalized, this is where you spend time reading, relaxing, recharging & reflecting on the day .."

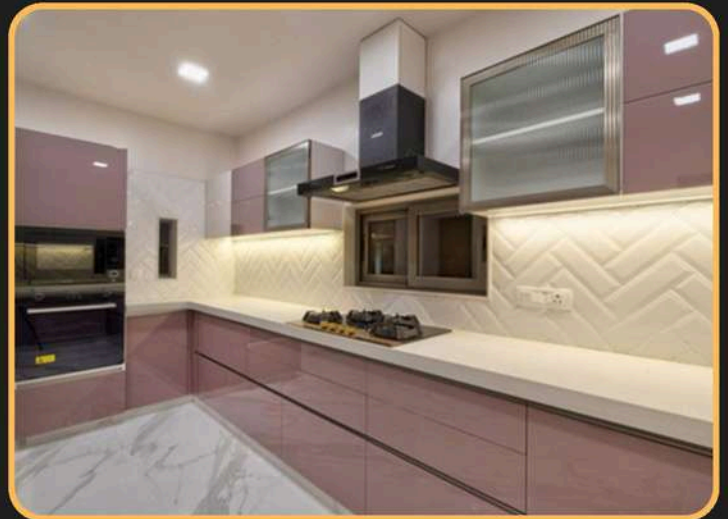

Living Room:-

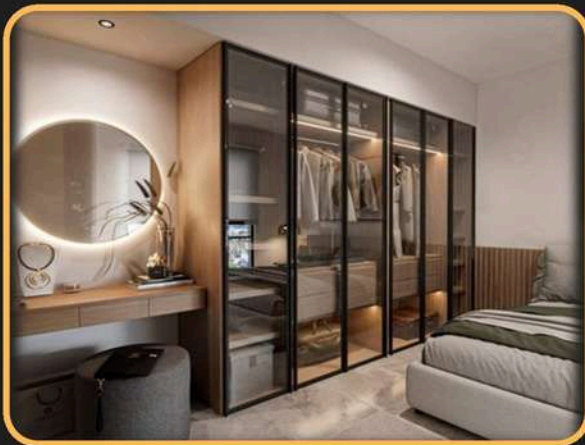

"Living rooms are designed evolving, differently and because all users share the same space and purpose, to gather all in a comfortable space.."
