Welcome to JM ENGINEERS

JM ENGINEERS, established in 2023, is a growing and trusted organization engaged in supplying, trading, exporting, distribution, installation, and service support of engineering products. Based in Vadodara, Gujarat (India), the company has steadily built a strong presence in the industrial engineering sector.

We are actively involved in providing all types of industrial piping works and offer a comprehensive range of products including PPRC, HDPE, PP, FRP, PVC, UPVC, CPVC, and PVDF pipes and pipe fittings. We are also suppliers of PP, HDPE, PVDF, and PPH welding rods and sheets. In addition, our product portfolio includes a wide range of industrial instruments such as metallic and non-metallic ball valves, control valves, NRV, flow meters, butterfly valves, strainers, gaskets, nut-bolts, and related accessories. Our products are widely appreciated for their dimensional accuracy, durability, and ease of installation. With proper supporting, MS/SS/CS/MS-PTFE/Pipeline, Mechanical Maintenance & Project work, Shut down work, Structural & Piping works.

Being a client-centric organization, we place strong emphasis on achieving complete customer satisfaction. We ensure the delivery of high-quality products and reliable services within the agreed time frame. Our transparent business policies, strict quality supervision, and efficient management practices have helped us build long-term relationships with our clients.

At JM ENGINEERS, we believe in reliable quality, reasonable pricing, efficiency, and teamwork, which enable us to remain competitive in the industry. We consider our clients as valued partners who continuously inspire us to explore new horizons. Mutual growth, customer satisfaction, and long-term cooperation remain the foundation of our success.

We cordially welcome both our existing and new customers to associate with us for reliable engineering solutions and continued cooperation.

Installation Services

JM ENGINEERS is a prestigious name from Vadodara (Gujarat, India) that provides the best pipeline installation services across the nation. We hold experience in providing pipeline installation solutions in the industrial sector of India.

Equipped with different hi-tech equipment, technical know-how, and qualified & skilled manpower, we are able to provide the best-in-class solution for piping installations. Our piping installation solutions comply with industry standards and thus are preferred by the engineering fraternity nationwide.

Industries We Serve

- Chemical Industry
- Paper Mills
- Pharmaceutical Industry
- Cooling Towers
- Commercial Buildings
- Chiller Plants
- Food Industry
- Dairy Plants
- Agriculture Industry
- Water Supply Plants
- Residential Projects
- Waste Water Treatment Plants
- Compressed Air Line and Vacuum Line Systems

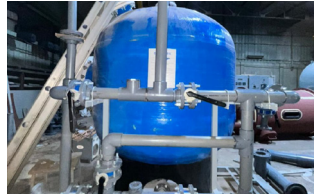

SERVICES PROVIDED BY US:

• PPRC/PPCH/PPH/HDPE/PP Pipeline Supply of Installation Work

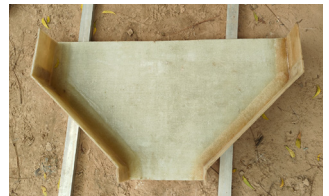

• UPVC/CPVC Pipeline Supply & Installation Work

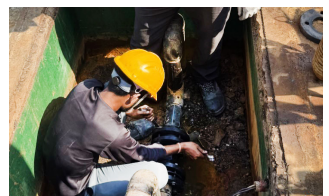

• FRP Pipeline & FRP Lining Work – Big Bore Piping

• FRP Tray/Hopper/Tank Fabrication Work

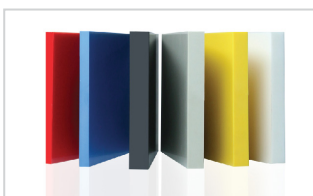

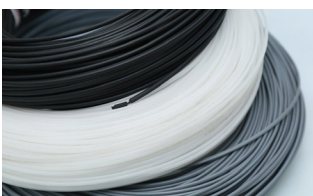

• Maintenance / Shutdown & Project Work

• PP/HDPE Ball Valve, NRV, Strainer, Foot Valve Supplier

• HDPE/PP/PPH/PVDF Welding Rod & Sheets

OUR HAPPY CUSTOMERS
