KHALADKAR

Mission :

With the help of Technology, Make the best Machineries while keeping the cost and labour low to make life Comfortable. creating a better system for business through machinery.

Vision :

To accept and adapt to the technology and challenges faced.

to make the highest quality Machineries While minimizing wastage. Thus to be environment Friendly.

Using technology to empower people for business while overcoming the environmental crises.

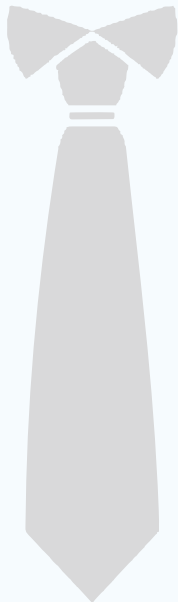

KHALADKAR

About Us :

Mr. Shekhar K. Khaladkar **Mrs. Sangita S. Khaladkar**

Director : Khaladkar Industries

Khaladkar Industries was established in 1998 in Nashik, one of the fastest developing cities in Maharashtra.

Nashik city is 200 km. from Mumbai, having good connectivity with ozar airport and railway station.

we have been serving our customers with customized machinery for the past 25 years.

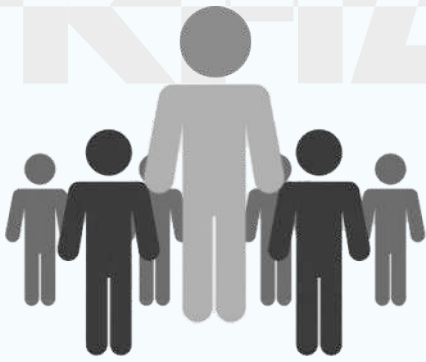

Khaladkar Industries have a team of highly educated skilled technologists and the team has extensive knowledge of the latest technology and is always getting better by learning more.

We have 2000 sq. ft. workshop in Satpur MIDC zone The machineries we own are efficient and the team is disciplined.

We also own a storage house in the area thus any spare material can also be stored.

The final packaging and transport of machinery is carried out here.

KHALADKAR

Why Us ?...

We Specialise in making custom made Machinery which is the best suited for the needs of clients. We have always delivered better than expected and earned our client's high praise.

We also manufacture spare parts and maintain the functions of machine at affordable cost.

We have the most technologically advanced set of machinery and we also own all the necessary lab machinery all under one roof.

in manufacturing the machine, We take special care that the quality of materiel is top tier and the cost as affordable as possible.

We also make sure that the ordered machines require minimum Maintenance.

We also take in pride in letting our clients know the Machineries We make here at Khaladkar Industries are not available readymade in market.

We are currently on our way to earn the ISO approval.
