## Highlights and Features

Suitable for inflating tires of two wheelers and four wheelers, this nitrogen inflator has advanced features needed for its uninterrupted operation. This tire inflator has built in nitrogen gas storage tank, data storage arrangement for registering total number of inflated tires and error reporting facility. This machine is capable of diagnosing any detected error instantly for its consistent performance. Offered nitrogen inflator can inflate or deflate more than one tire simultaneously. It can handle maximum 145

## Specifications

<b>Vehical Applicable</b>	Two, Four Wheeler
<b>Power Supply</b>	220V, 50Hz
<b>Power</b>	60W
<b>Max Compressed air pressure</b>	145Psi, 10bar, 10Mpa
<b>Nitrogen Purity</b>	95 - 99%
<b>Nitrogen Capacity</b>	90 L
<b>Nitrogen Producing Speed</b>	66L/Min
<b>Output Nitrogen Pressure</b>	58 - 87 Psi, 4 - 6Bar, 4 - 6Mpa
<b>Gross Weight</b>	194 Kg
<b>Built in Electric Control Vacuum Device</b>	
<b>10M High Pressure Charge Hose</b>
