LITHIUM-ION BATTERIES

Lead Acid Battery

Lithium Ion Battery

Unsafe to Handle	Safe & Clean Operation
Acid spillage	Zero acid spillage
Less Battery Backup	Long Battery Backup
Leakage voltage	Zero leakage voltage
Long charging time	Fastest charging Time
Scheduled charging	Opportunity Charging
Difficult to Cell replacement	Easy Cell replacement
Environments issues	Better thermal performance
Frequent top up of electrolyte	No need to top up of electrolyte
Periodic maintenance	Zero maintenance
Battery life (2-3 years)	Battery life (4-6 years)

BENEFITS OF LITHIUM-ION BATTERIES

- Safe Operation
- More Usable Capacity
- Energy Saving
- Drop-in Replacement
- Opportunity Charging
- Temperature Tolerant
- Long Shelf Life
- Lightweight
- Constant Power
- Maintenance Free
- Longest Life
- Fast Charging
- Non-Hazardous

Core Business Activities

For over 13 years, we have been providing comprehensive maintenance services, including (AMC and CMC) for MHEs. Our expertise extends to forklift refurbishment, (MHE) rental, and supplying spare parts for all types of MHE and AWP equipments. Through our unwavering commitment to quality and reliability, we have established ourselves as a trusted vendor for over 635 companies.

We work on the principle of BEING CONVINIENT to the customer. By being suitable and turnable as per customer needs. Our Customer First approach benefits customers. Right from enquiry to service of equipments.
