GLOBAL REACH & STRENGTHS

OUR GLOBAL REACH

Orevia Engineering Pvt. Ltd. is a trusted manufacturer, exporter, supplier, dealer and distributor serving customers in India and worldwide.

We offer quality products, dependable service and on-time delivery - and look forward to helping your business grow with confidence, innovation and excellence.

OUR ENGINEERING FOCUS

01 Precision

Careful design and manufacturing for dependable machine performance.

02 Quality

High-quality industrial solutions built to improve productivity.

03 Improvement

Continuous improvement to meet your changing needs.

BUILDING A BETTER FUTURE TOGETHER

As Orevia Engineering continues to grow, we stay dedicated to providing innovative, reliable and high-quality engineering solutions that help our customers succeed.

ABOUT OREVIA ENGINEERING

At Orevia Engineering Pvt. Ltd., we believe great engineering goes beyond manufacturing. We build strong partnerships rooted in trust, innovation and results. We deliver high-quality industrial solutions that improve efficiency, productivity and performance.

We use our technical skills and industry experience to create reliable solutions that meet changing needs. Every project reflects our focus on precision, quality and continuous improvement.

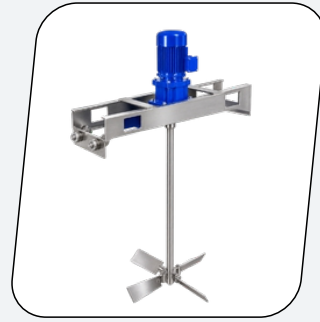

AGITATOR TANK

Orevia Engineering is a trusted Agitator Tank Manufacturer in Ahmedabad, offering high-quality, customized agitator and vessel tanks for chemical, pharmaceutical, food processing, paint, and other industries. Our tanks ensure efficient mixing, consistent product quality, durable construction, and reliable performance to meet diverse industrial requirements.

Great engineering goes beyond manufacturing. We build strong partnerships rooted in trust, innovation and results.

Agitators & Mixers

Orevia Engineering provides reliable, high-performance industrial agitators and mixers for chemical, pharmaceutical, wastewater, food processing, biogas, and other industries.

Technical Specifications:

Mixing Time, RPM, Tip Speed, Torque, Shaft Design, Power Rating, Dynamic Balancing, Vibration Testing, Material Testing (PMI/UT), and Quality Validation.

GRINDING & DISPERSION

**01**

Sand Mill

Orevia Engineering manufactures high-performance Vertical Sand Mills for paints, printing inks, pigments, and specialty chemicals. Our machines ensure fine grinding, uniform dispersion, and efficient production with durable construction and reliable performance.

- Machine Type: Vertical Sand Mill
- Capacity: 50–500 Liters per Batch
- Motor Power: 5–50 HP
- Shaft Speed: 800–1500 RPM

02

BEAD MILL

Orevia Engineering Pvt. Ltd. is a trusted Bead Mill Manufacturer in Ahmedabad, offering efficient grinding solutions for fine particle reduction, uniform dispersion, and consistent product quality across industries.

- Fine Particle-Size Reduction
- Uniform Particle Distribution
- Improved Processing Efficiency
- Reduced Energy Consumption

BLENDING & CONVEYING

03

Ribbon Blender

Industrial ribbon blender machines for efficient dry powder mixing - a dependable powder mixing solution for process industries.

- Efficient, uniform powder mixing
- Popular sizes such as 100 kg and 10,000 kg batch capacity
- Built to suit your process - custom designs available
- Technical support from selection to delivery

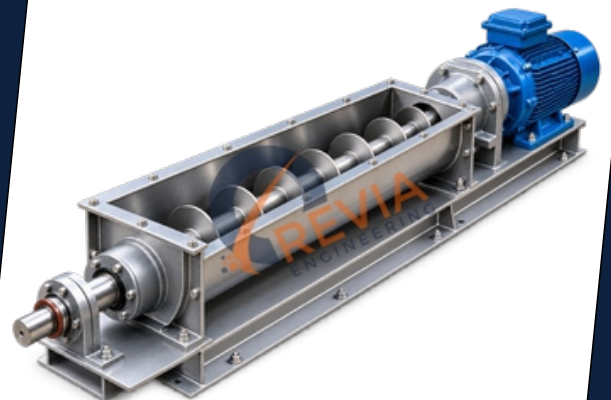

04

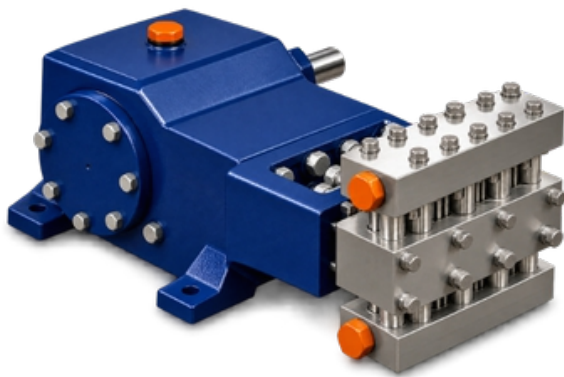

Screw Conveyor

Screw conveyors for efficient bulk material handling, including vertical screw conveyors for moving powders and granules between process stages.

- Efficient bulk material handling
- Horizontal, inclined and vertical layouts
- Robust construction for continuous duty
- Made to your plant layout and capacity

PUMPING & DOSING

05

Triplex Plunger Pump

Triplex plunger pumps manufactured in Ahmedabad for dependable, high-pressure pumping in industrial applications.

- Triplex plunger design for steady flow
- Robust build for continuous operation

06

Metering Dosing Pumps

Precise metering and dosing pumps for accurate chemical and liquid dosing, supplied from Ahmedabad to customers across India.

- Accurate, repeatable dosing
- Suited to process and chemical duty

OUR PRODUCTS

A wide range of industrial process equipment for mixing, pumping, conveying, milling and sieving - built for Indian and global industry.

01

Agitator Tank

Process tanks with agitators for uniform blending of liquids.

02

Sand Mill

Fine grinding and dispersion for liquid formulations.

03

Bead Mill

Efficient Bead Mills for Fine Grinding & Uniform Dispersion.

04

Ribbon Blender

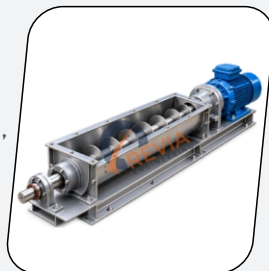

Efficient dry powder mixing with a ribbon agitator.

05

Screw Conveyor

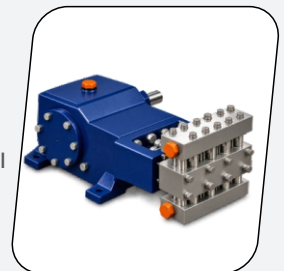

Reliable bulk material handling, including vertical designs.

06

Triplex Plunger Pump

High-pressure reciprocating pumps for demanding industrial duty.

07

Metering Dosing Pumps

Accurate, adjustable dosing of process liquids.
