since 2002

## Introduction and Founding

Founded in 2002 in Delhi, I.A.Bhai Enterprises Pvt. Ltd. began its journey in the logistics sector before strategically transitioning into manufacturing in 2007. With a state-of-the-art production facility in Greater Noida, Uttar Pradesh, the company has since specialized in delivering high-quality Plastic, Sheet metal, Aluminium and Fastener products tailored to a wide range of industries. Over the years, I.A. Bhai Enterprises has earned a reputation as a trusted supplier both within India and internationally, driven by a strong commitment to innovation, quality, and customer satisfaction. Guided by core values of integrity, reliability, and continuous improvement, the company continues to evolve, meeting the dynamic needs of its clients while upholding the highest standards of excellence.

Founded: August 23, 2002.

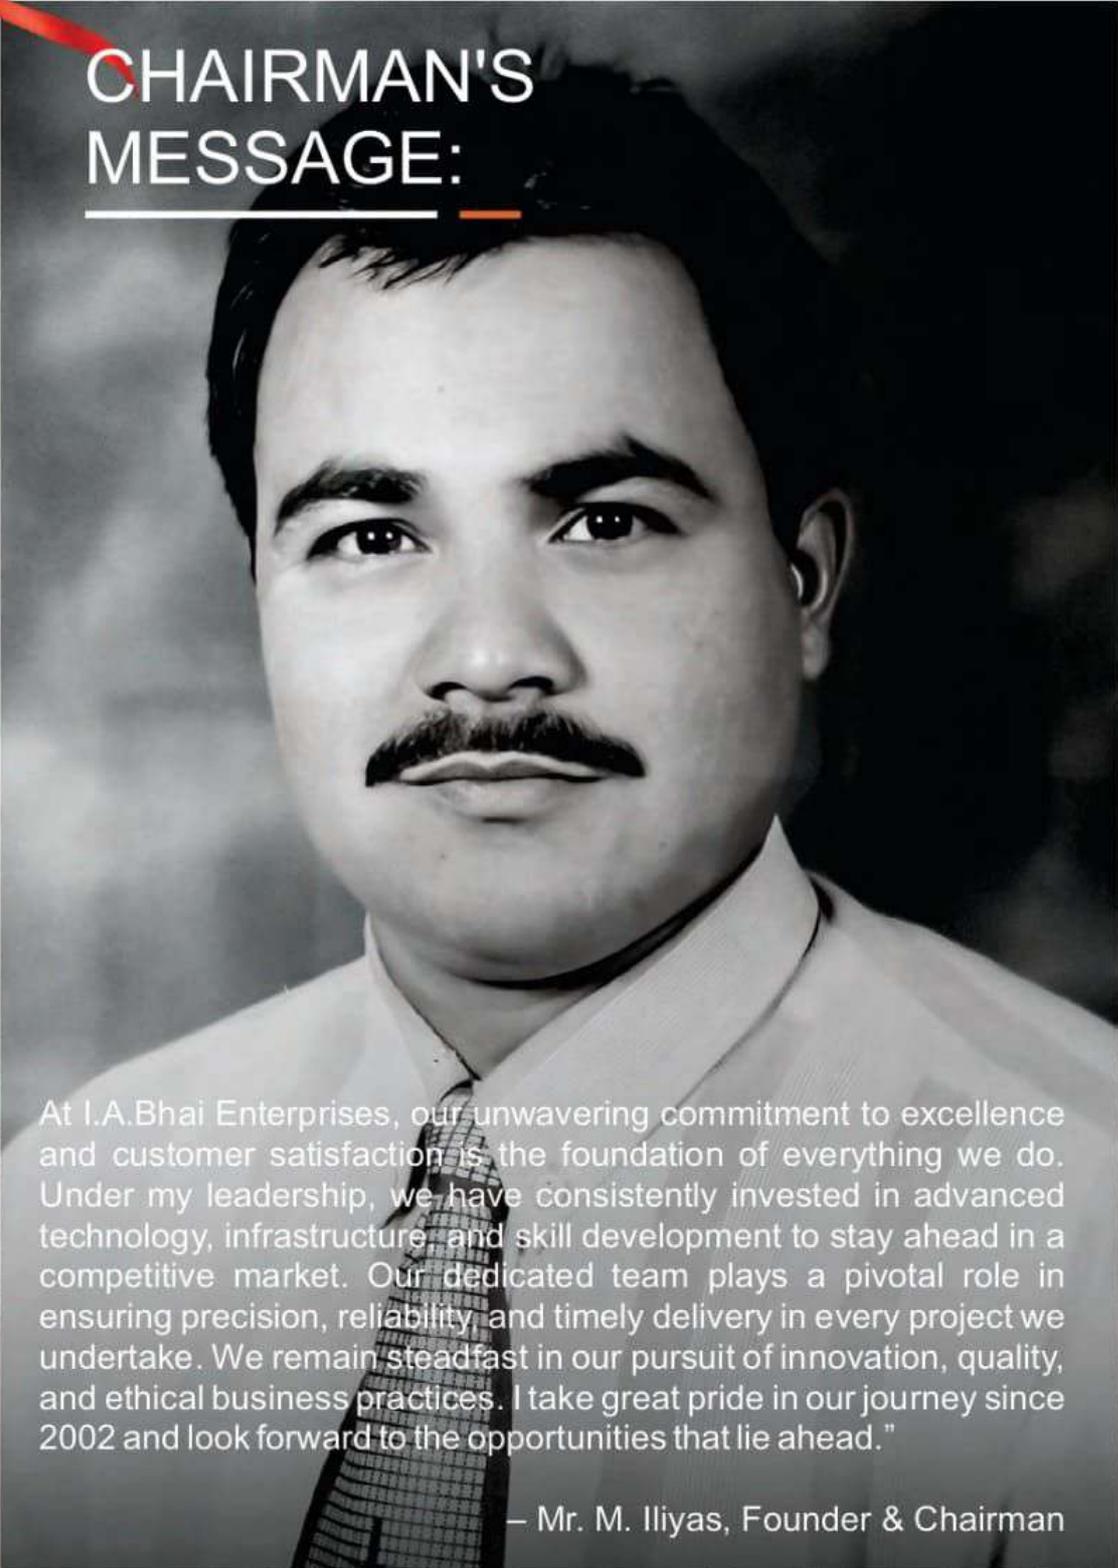

Nature: Leading manufacturer of precision plastic, sheet metal, aluminium and fasteners

Reputation: "high-quality components," "trusted" client service.

## CHAIRMAN'S MESSAGE:

At I.A.Bhai Enterprises, our unwavering commitment to excellence and customer satisfaction is the foundation of everything we do. Under my leadership, we have consistently invested in advanced technology, infrastructure, and skill development to stay ahead in a competitive market. Our dedicated team plays a pivotal role in ensuring precision, reliability, and timely delivery in every project we undertake. We remain steadfast in our pursuit of innovation, quality, and ethical business practices. I take great pride in our journey since 2002 and look forward to the opportunities that lie ahead."

— Mr. M. Iliyas, Founder & Chairman

# ABOUT THE COMPANY:

**History :** I.A.Bhai Enterprises Pvt. Ltd. was established in 2002, originally operating in the logistics sector. Recognizing the potential for growth and innovation in manufacturing, the company shifted its focus in 2007 and set up a dedicated production facility in Greater Noida, Uttar Pradesh. Since then, we have specialized in the manufacturing of high-quality plastic products and sheet metal components, serving a wide range of industries across India and abroad.

With a strong foundation built on advanced technology, skilled manpower, and a commitment to precision, we have grown into a trusted name known for delivering reliable, durable, and innovative solutions. Today, I.A.Bhai Enterprises stands at the forefront of the industry, driven by core values of integrity, quality, and continuous improvement, and a mission to exceed customer expectations through service excellence and manufacturing expertise.

**Mission :** Understand client needs and provide top-quality, durable products using the latest technology. Exceed customer expectations with superior service and flexible solutions.

**Vision :** To become a globally recognized leader in plastic and sheet metal manufacturing, setting benchmarks for innovation, quality, and sustainability.

**Core Values :**

**Integrity & Transparency** – We uphold honesty and openness in every aspect of our business.

**Customer-Centric Approach** – Our clients are at the heart of everything we do.

**Quality & Excellence** – We are committed to delivering reliable, high-performance products.

**Teamwork** – We foster a collaborative environment to achieve shared success.

**Ethical Practices** – We conduct business responsibly and respectfully.

**Continuous Improvement** – We strive to innovate and enhance our processes continuously.

**Long-Term Partnerships** – We build trust-based relationships that grow over time.

## ABOUT THE COMPANY:

Plastic and metal Camlocks, Spacers, Panel Caps for Coldroom Puf Panel, Door Locks for Deep Freezer and Refrigerator, Foot common, wing bolt, plastic bend for water coolers, Moulded customisable plastic and sheet metal parts.

Our 150+ products in portfolio ensure dimensional accuracy, corrosion resistance, and longer service life. Standard and customized solutions available.

### Industries Served:

Coldroom Puf Panel industry  
HVAC Deep Freezer, Refrigerator and Water Cooler industry  
Water & Silo Tanks industry  
Home appliances industry  
Beverage & Packaging industry  
Hospital & Operation theatre industry  
Miscellaneous (Industrial machinery, consumer goods, OEMS)

### Why Choose Us:

**Superior Quality:** High-grade raw materials and advanced technology. Consistent, durable, and precise products.

**Advanced Infrastructure:** Modern production facility with state-of-the-art machines and tooling. High-volume output and strict quality control.

**Customization:** Accommodate custom requirements. Standard and tailor-made components.

**Timely Delivery:** Well-planned operations and logistics ensure on-schedule order fulfilment.

**Experienced Team:** Skilled engineers and workforce with extensive industry experience.

**Ethical Practices:** Transparent, client-centric business practices. Integrity and customer focus.

# PRODUCTS

## Coldroom Puf Panel Accessories

### Plastic and Metal Camlocks

Camlock fits in puf panels of cold storage. It is used to joint their walls. I.A.Bhai have more than 8 designs high quality cam locks including pure plastic, pure metal and outer body plastic & six/hook metal. We use high grade materials in our product to maintain the durability and increase the lifespan of Cold storage.

Spacers (30mm to 150mm) for PUF Panel & Cold Room. A PUF panel spacer is used to create a gap between panels in cold rooms, clean rooms, and insulated enclosures. These spacers help in structural support, air circulation, and thermal insulation while ensuring proper panel alignment.

### Plastic Spacers

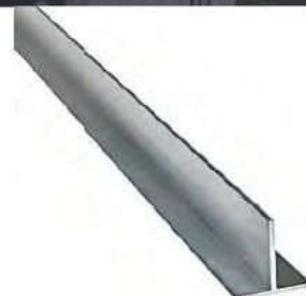

### Panel Caps

A panel cap for PUF panel is used to cover and protect the camlock and other holes in insulated panels. Our high quality caps provide protection, aesthetic finish, sealing, and easy maintenance to panels.

It's a T-shaped aluminum extrusion used in jointing or partitioning PUF panels (Polyurethane Foam Panels) serves as a connector, especially where two panels meet vertically or horizontally (like a T-junction in wall partitions). It ensures structural integrity, neat finish, and thermal insulation continuity.

### Aluminium T (Customisable)

# PRODUCTS

## HVAC Deep Freezer, Refrigerator and Water Cooler Accessories

### Door Lock- SLF

Door lock in a deep freezer is a mechanism designed to keep the freezer door securely closed, preventing accidental openings and ensuring efficient cooling. Why Is It Important? Maintains consistent internal temperature. Prevents accidental openings that can cause food spoilage. Enhances safety, especially in commercial or shared-use freezers

A nylon fixing plate in a deep freezer is a durable, non-corrosive component used for securing internal parts, such as evaporator coils, shelves, or structural elements. Nylon is preferred because it is resistant to extreme cold, moisture, and chemical exposure.

### Nylon Fixing Plate M5 Single

### Foot Common

Our high-quality Foot Common serves as a stable and robust stand for water coolers. It is constructed from rigid materials and manufactured using insert molding technology, ensuring superior strength, durability, and long-term performance.

A plastic bend in a water cooler refers to a curved pipe or fitting made from durable, high-grade plastic material, designed to efficiently direct the flow of water within the cooling system while ensuring long-term reliability and resistance to corrosion.

### Plastic Bend

# PRODUCTS

## Water & Silo Tanks Accessories

### Carriage Bolt with Capping (SS all grades)

Stainless steel (SS) carriage bolts with PVC molding for use in a silo tank. Choose SS 304 or SS 316 for corrosion resistance. PVC coating/molding helps prevent metal-to-metal contact and potential corrosion. Ensure rubber or silicone washers for better sealing to prevent leaks.

Carriage bolts are commonly used in silo tanks to secure metal sheets, braces, or structural components. High-Tensile Steel: Needed for high-strength applications. Round Head: Prevents tampering and provides a smooth finish. Hot-Dip Galvanized (HDG): Provides excellent corrosion resistance.

### Carriage Bolt with Capping (MS all grades)

A nut cap (also called a dome cap or bolt cover) is used to protect bolts and nuts in safety tanks, pressure vessels, storage tanks, and industrial pipelines. It provides corrosion resistance, safety, and durability by covering exposed bolts and nuts.

### Nut Cap

A PVC and Silicone Cap is a protective cover used to seal, protect, or insulate Carriage and Hex Bolts in a water and silo tanks and increase the lifespan in harsh conditions.

### PVC Silicon Cap

## Hospital & Operation Theatre Industry

### PVC and Metal Saddle

A "PVC saddle" is a pipe fitting made from polyvinyl chloride (PVC) plastic, designed to create a branch connection to an existing PVC pipe by clamping onto its side, essentially acting as a "saddle" to tap into the main pipeline for a new connection;

A Hospital Ward Vacuum Jar is a medical-grade container used for collecting fluids during suction procedures in hospitals and healthcare facilities made of polycarbonate (PC) for durability and sterilization. Transparent body for easy monitoring of collected fluids. Available in different capacities (e.g., 600ml, 1000ml or more).

### Ward Vacuum Jar

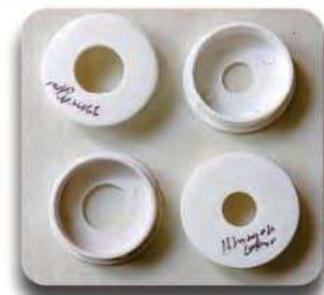

### Vacuum Slider Hanger

FOR HANGING JAR 1000MM AND 2000MM- Vacuum Slide Hanger designed for securely holding 1000mm and 2000mm jars. Features a dual-hole mounting system with a stable vacuum grip for vertical installations.

A plastic cover cap (medical) is a protective cap made from medical-grade plastic, designed to cover and protect medical instruments, devices, or openings in healthcare settings. These caps help maintain sterility, prevent contamination, and ensure safe handling of medical equipment. Water Purifier Parts: Plastic fittings, valves, and housings.

## Home Appliances & Beverage and Packaging Industry

### Sweet Jar

A Round PET Jar is a transparent, lightweight, and durable plastic container made from Polyethylene Terephthalate (PET). It is used for packaging food, cosmetics, pharmaceuticals, and household products.

Material: High-quality PET plastic

Shape: Round with a smooth, clear body for visibility of contents.

Transparency: Crystal-clear finish for an attractive

Plastic Keychain Rings are lightweight, durable, and versatile accessories used for holding keys, tags, or decorative charms made from high-quality plastic, ensuring flexibility and resistance to breakage and available in multicolours.

### Key Ring

### Caps & Closures

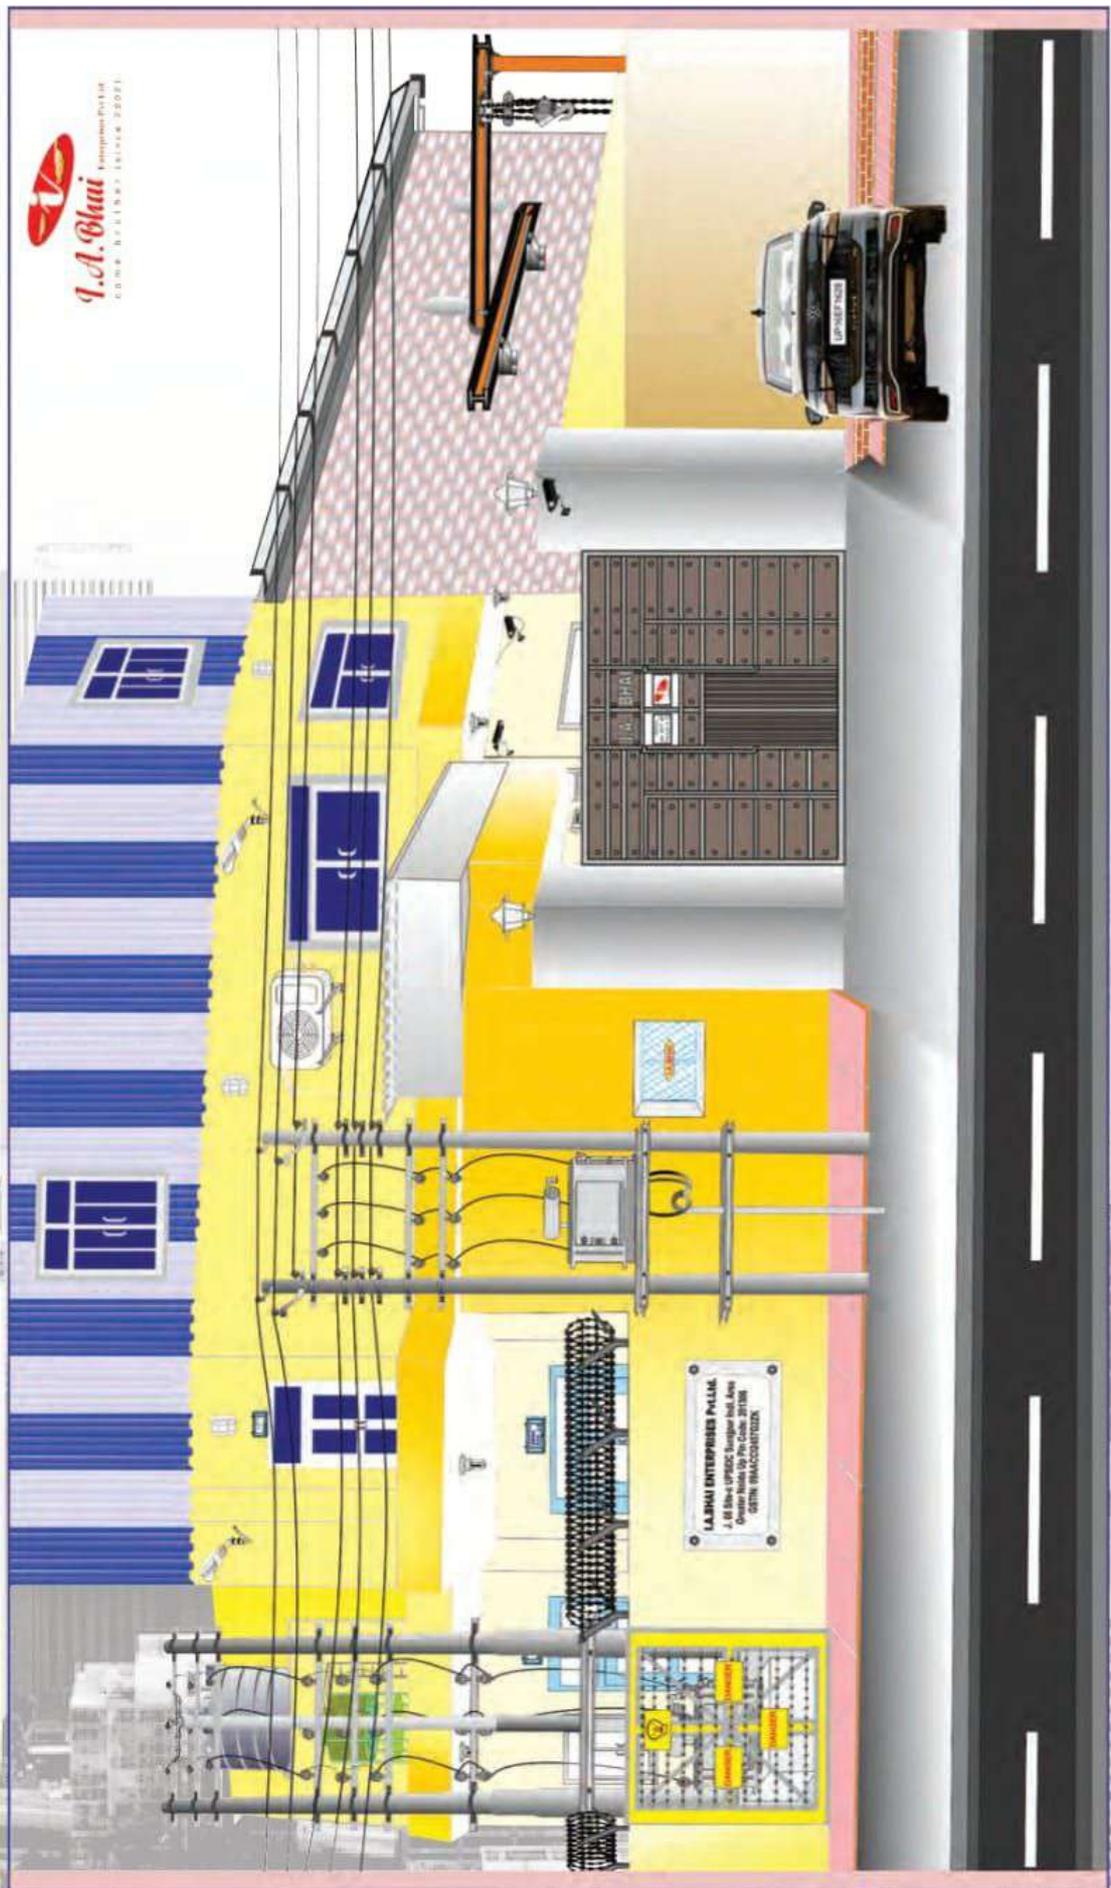

Range of customized caps and closures tailored to fit diverse packaging needs across industries. offerings include flip-top caps, screw caps, snap-on caps, dispensing caps, tamper-evident closures, and specialty sealing solutions. Precision, durability, and secure sealing, our caps and closures are available in various sizes, colors, and materials, and specific product requirements.

Complete range of customized plastic packaging products. Plastic containers, bottles, caps and closures, trays, buckets, and industrial packaging parts. Manufactured with high-quality materials, ensures durability, product safety, and superior performance across various industries. Available in multiple sizes, shapes, and designs, with options for branding and special features to suit your needs.
