ROD END (Ball Joint)

UNIVERSAL JOINT (Ball Type)

UNIVERSAL JOINT (PIN TYPE)

ANGULAR BALL JOINT (L Type)

SPLINE JOINT

ADVANTAGES & FEATURES

- Made in India
- High torque capacity
- Long bearing life
- High operating angle suitability
- Made from Heat treated Alloy steel components
- Easy to technical assistance & Engineering support
- Customize designs & sizes available upon request.

MATERIAL OF CONSTRUCTION

(Solid rod, Castings, Forgings)

- Alloy steel, Mild steel, Low carbon & High Carbon steel
- NYLON
- SS 304 & SS 316 for Special Application
- Aluminium, Bronze & Copper Alloys

SPHERICAL BEARING

Pre-Tech Industries is a leading manufacturer & supplier of industrial Mechanical Power Transmission Products Like Universal Joints, Ball Joints, Spline Universal Joints. Rod End Joint, & Spherical Bearing for over the 40 years.

Our industrial universal joint product line is a wide range of standard and specialized products. Design of product & accessories with a special feature which results in exceptionally high strength, allows full, free movement of the joint. These accounted for the high horsepower capacity at high speeds.

Engaged in other engineering product & Machine components Made from Equipped Automated Machines like

CNC Turning & Turnmill

Typical Applications

Printing & Packaging Industries | Amusement Park Equipment | Textiles Machinery | Pharmaceutical Industries | Automobiles Industries | Metal Industry & Many More..
